deseret wellness dispensary provo: Yvain Chretien de Troyes, 1987-09-10 The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for

the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, *Yvain*, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. *Yvain* is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

deseret wellness dispensary provo: Kumba Africa Sampson Ejike Odum, 2020-11-03
'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New Yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.

deseret wellness dispensary provo: *On Ambivalence* Kenneth Weisbrode, 2012-02-24 A concise guide to ambivalence, from Adam and Eve (to eat the apple or not?) to Hamlet (to be or not?) to globalization (e pluribus unum or not?). Why is it so hard to make up our minds? Adam and Eve set the template: Do we or don't we eat the apple? They chose, half-heartedly, and nothing was ever the same again. With this book, Kenneth Weisbrode offers a crisp, literate, and provocative introduction to the age-old struggle with ambivalence. Ambivalence results from a basic desire to have it both ways. This is only natural—although insisting upon it against all reason often results not in both but in the disappointing neither. Ambivalence has insinuated itself into our culture as a kind of obligatory reflex, or default position, before practically every choice we make. It affects not only individuals; organizations, societies, and cultures can also be ambivalent. How often have we asked the scornful question, Are we the Hamlet of nations? How often have we demanded that our leaders appear decisive, judicious, and stalwart? And how eager have we been to censure them when they hesitate or waver? Weisbrode traces the concept of ambivalence, from the Garden of Eden to Freud and beyond. The Obama era, he says, may be America's own era of ambivalence: neither red nor blue but a multicolored kaleidoscope. Ambivalence, he argues, need not be destructive. We must learn to distinguish it from its symptoms—selfishness, ambiguity, and indecision—and accept that frustration, guilt, and paralysis felt by individuals need not lead automatically to a collective pathology. Drawing upon examples from philosophy, history, literature, and the social sciences, *On Ambivalence* is a pocket-sized portrait of a complex human condition. It should be read by anyone who has ever grappled with making the right choice.

deseret wellness dispensary provo: *East Wind, Rain* Caroline Paul, 2008-12-24 From the New York Times bestselling author of *The Gutsy Girl* comes this provocative, compelling novel of irrevocable consequences for people thrust unwittingly into a devastating war of nations and American identity—based on a little-known true event. December 1941. The inhabitants of Niihau lead a simple life. Mostly Hawaiian natives, they work the ranch of Niihau's eccentric haole owner, who keeps his island totally isolated from the outside world, devoid of cars, phones, and electricity.

But then a plane crash-lands there, and although the villagers rescue the pilot, they have no idea that he has just attacked Pearl Harbor. War has now come to Eden, slowly undoing its tranquillity, widening the cracks in the already troubled marriage of Irene and Yoshio Harada, the island's only Japanese-American couple. It will test everyone's loyalties and all they believe in . . . as Paradise, once within reach, slowly falls victim to its own isolated innocence.

deseret wellness dispensary provo: **The Cannabis Manifesto** Steve DeAngelo, 2017-02-24 The Cannabis Manifesto is both a call to action and a radical vision of humans' relationship with this healing but controversial plant. Steve DeAngelo, the founder of Harborside Health Center, the world's largest medical-cannabis dispensary, presents a compelling case for cannabis as a wellness catalyst that must be legalized. His view that there is no such thing as recreational cannabis use challenges readers to rethink everything they thought they knew about marijuana. The Cannabis Manifesto answers essential questions about the plant, using extensive research to fuel a thoughtful discussion about cannabis science and law, as well as its biological, mental, and spiritual effects on human beings. With a cultural critic's eye peering through the lens of social justice, DeAngelo explains how cannabis prohibition has warped our most precious institutions-from the family, to the workplace, to the doctor's office and the courtroom. In calling for a realistic national policy on a substance that has been used by half of all Americans, this essential primer will forever change the way the world thinks about cannabis, its benefits, and the laws governing its use.
