Celebrity aesthetician Joanna Vargas shares her secrets for the first time in this practical, engaging guide to beautiful, glowing skin for everyone. Celebrity aesthetician Joanna Vargas is known for her cutting-edge beauty treatments, high-end products, and famous (and seemingly ageless) clients. But her secret to beautiful skin rests on one simple principle: developing and maintaining a good skincare routine. In Glow from Within, Joanna teaches readers how to create the best routine for their skin type. She explains the science behind the labels of various products and tools—from serums to retinols, dry brushes to sheet masks, vitamin c to hyaluronic acid—then offers instruction on how best to incorporate them into a routine. She also shares fresh insight into how the other self-care routines we don't often connect to our skin—such as nutrition, sleep, and stress management—impact skin appearance and resiliency. In addition to giving readers the tools to create a customizable routine, Joanna will provide specific product recommendations, DIY recipes, and programs for time-specific goals (one week, one month, six months) as well as emergency troubleshooting for skin issues that pop up overnight. Glow from Within is the ultimate guide to flawless skin from one of the beauty industry's most sought-after insiders.

eternal wellness medspa salon photos: Claude Monet Angelica Daneo, Christoph Heinrich, Michael Philipp, Ortrud Westheider, 2019 Spanning the artist's entire career, this book explores Claude Monet's enduring relationship with nature and the landscapes he returned to again and again. Capturing fleeting natural impressions played a central role in the art of Claude Monet. He deeply engaged with the landscape and light of different places, from the metropolis of Paris to the Seine villages of Argenteuil and Giverny. This lavishly illustrated volume explores the development of Monet's art from the 1850s to the 1920s, focusing on the places, both at home and on his frequent travels, from which he drew inspiration for his painting. In addition, the book traces the critical shift in Monet's art that occurred when he began to focus on series of the same subjects such as haystacks, poplars, and the water lilies and pond at his meticulously designed garden in Giverny. Insightful and revealing, the book deepens our appreciation of Monet's art and allows us to experience anew his gift for bringing the natural world to life.

Times Book Review From the National Book Award finalist Susan Straight, *Mecca* is a stunning epic tracing the intertwined lives of native Californians fighting for life and land Johnny Frías has California in his blood. A descendant of the state's Indigenous people and Mexican settlers, he has Southern California's forgotten towns and canyons in his soul. He spends his days as a highway patrolman pulling over speeders, ignoring their racist insults, and pushing past the trauma of his rookie year, when he killed a man assaulting a young woman named Bunny, who ran from the scene, leaving Johnny without a witness. But like the Santa Ana winds that every year bring the risk of fire, Johnny's moment of action twenty years ago sparked a slow-burning chain of connections that unites a vibrant, complex cast of characters in ways they never see coming. In *Mecca*, the celebrated novelist Susan Straight crafts an unforgettable American epic, examining race, history, family, and destiny through the interlocking stories of a group of native Californians all gasping for air. With sensitivity, furor, and a cinematic scope that captures California in all its injustice, history, and glory, she tells a story of the American West through the eyes of the people who built it—and continue to sustain it. As the stakes get higher and the intertwined characters in *Mecca* slam against barrier after barrier, they find that when push comes to shove, it's always better to push back.
