fairy tears by siah wellness: *The Gnostic New Age* April D. DeConick, 2016-09-27 Gnosticism is a countercultural spirituality that forever changed the practice of Christianity. Before it emerged in the second century, passage to the afterlife required obedience to God and king. Gnosticism proposed that human beings were manifestations of the divine, unsettling the hierarchical foundations of the ancient world. Subversive and revolutionary, Gnostics taught that prayer and mediation could bring human beings into an ecstatic spiritual union with a transcendent deity. This mystical strain affected not just Christianity but many other religions, and it characterizes our

understanding of the purpose and meaning of religion today. In *The Gnostic New Age*, April D. DeConick recovers this vibrant underground history to prove that Gnosticism was not suppressed or defeated by the Catholic Church long ago, nor was the movement a fabrication to justify the violent repression of alternative forms of Christianity. Gnosticism alleviated human suffering, soothing feelings of existential brokenness and alienation through the promise of renewal as God. DeConick begins in ancient Egypt and follows with the rise of Gnosticism in the Middle Ages, the advent of theosophy and other occult movements in the nineteenth and early twentieth centuries, and contemporary New Age spiritual philosophies. As these theories find expression in science-fiction and fantasy films, DeConick sees evidence of Gnosticism's next incarnation. Her work emphasizes the universal, countercultural appeal of a movement that embodies much more than a simple challenge to religious authority.

fairy tears by siah wellness: **Houses that Change the World** Wolfgang Simson, 2001 Millions of Christians around the world are becoming aware of an imminent reformation of global proportions within the church. God is changing this revered institution and is making a new collective awareness of an age-old revelation, a corporate spiritual echo that reflects God's desire for the church. In this book, Simson brings to light what God is saying to Christians everywhere. Researched across the globe, he presents the case for the reformation of the church's existence. In a world where the church is being ignored, it is time to bring the church to the people and not the people to the church. Whether it is what we know as church from the last five years or the last five hundred years, no one has truly been able to break free from the structures of the past. Many may see this book as radical, many may see it as a reforming of old ideals but all who read it will be challenged and their priorities refocused in a life-changing way.

While children's film and television vary in form and content from country to country, their youth audience, ranging from infants to "screenagers", is the defining feature of the genre and is written into the DNA of the medium itself. This collection offers a contemporary analysis of film and television designed for this important audience, with particular attention to new directions evident

in the late twentieth and early twenty-first centuries. With examples drawn from Iran, China, Korea, India, Israel, Eastern Europe, the Philippines, and France, as well as from the United States and the United Kingdom, contributors address a variety of issues ranging from content to production, distribution, marketing, and the use of film, both as object and medium, in education. Through a diverse consideration of media for young infants up to young adults, this volume reveals the newest trends in children's film and television and its role as both a source of entertainment and pedagogy.

fairy tears by siah wellness: John's Gospel and Intimations of Apocalyptic Catrin H. Williams, Christopher Rowland, 2014-03-27 John's Gospel has traditionally been regarded as the least apocalyptic document in the New Testament. This exciting new collection redresses the balance by exploring the ways in which the apocalyptic literature of Second Temple Judaism has contributed to the theology and outlook of John's Gospel. Given that John, like the Jewish apocalyptic texts, is primarily concerned with the theme of revelation, the contributors examine how apocalyptic ideas can help to explain the Johannine portrayal of Jesus as the messenger sent from heaven to reveal the divine mysteries, as well as the Gospel's presentation of the activity of the Spirit, its understanding of evil, and the intended effects of this 'apocalypse in reverse' on its readers and hearers. The highly distinguished contributors include, John Ashton, Christopher Rowland, April DeConick, Judith Lieu and Jorg Frey.

fairy tears by siah wellness: The Bauhaus Group Nicholas Fox Weber, 2009-10-27 Nicholas Fox Weber, for thirty-three years head of the Albers Foundation, spent many years with Anni and Josef Albers, the only husband-and-wife artistic pair at the Bauhaus (she was a textile artist; he a professor and an artist, in glass, metal, wood, and photography). The Alberses told him their own stories and described life at the Bauhaus with their fellow artists and teachers, Walter Gropius, Paul Klee, Wassily Kandinsky, Ludwig Mies van der Rohe, as well these figures' lesser-known wives and girlfriends. In this extraordinary group biography, Weber brilliantly brings to life the Bauhaus geniuses and the community of the pioneering art school in Germany's Weimar and Dessau in the 1920s and early 1930s. Here are: Walter Gropius, founder of the Bauhaus, the architect who streamlined design early in his career and who saw the school as a place for designers to collaborate in an ideal setting . . . a dashing hussar, the ardent young lover of the renowned femme fatale Alma Mahler, beginning when she was the wife of composer Gustav Mahler . . . Paul Klee, the onlooker, smoking his pipe, observing Bauhaus dances as well as his colleagues' lectures from the back of the room . . . the cook who invented recipes and threw together his limited ingredients with the same spontaneity, sense of proportion, and fascination that underscored his paintings . . . Wassily Kandinsky, the Russian-born pioneer of abstract painting, guarding a secret tragedy one could never have guessed from his lively paintings, in which he used bold colors not just for their visual vibrancy, but for their "sound" effects . . . Josef Albers, who entered the Bauhaus as a student in 1920 and was one of the seven remaining faculty members when the school was closed by the Gestapo in 1933 . . . Annelise Else Frieda Fleischmann, a Berlin heiress, an intrepid young woman, who later, as Anni Albers, made art the focal point of her existence . . . Ludwig Mies van der Rohe, imperious, decisive, often harsh, an architect who became director—the last—of the Bauhaus, and the person who guided the school's final days after SS storm troopers raided the premises. Weber captures the life, spirit, and flair with which these geniuses lived, as well as their consuming goal of making art and architecture. A portrait infused with their fulsome embrace of life, their gift for laughter, and the powerful force of their individual artistic personalities.

2020-04-07 Instant New York Times bestseller! The Emmy Award-winning star of General Hospital chronicles his astonishing and emotional life journey in this powerful memoir—an inspiring story of success, show business, and family, and his struggle with mental illness. This shocking true story is General Hospital on anabolic steroids. — Mehmet Oz, M.D., Emmy Award-winning host of The Dr. Oz Show Maurice Benard has been blessed with family, fame, and a successful career. For twenty-five years, he has played one of the most well-known characters on daytime television: General Hospital's Michael "Sonny" Corinthos, Jr. In his life outside the screen, he is a loving husband and the father of four. But his path has not been without hardship. When he was only twenty, Maurice was diagnosed with bipolar disorder. In *Nothing General About It*, Maurice looks back to his youth in a small town and his tenuous relationship with his father. He describes how his bipolar disorder began to surface in childhood, how he struggled to understand the jolting mood swings he experienced, and how a doctor finally saved his life. For years Maurice was relentless in his goal to be a successful actor. But even after he "made it," he still grappled with terrifying lows, breakdowns, and setbacks, all while trying desperately to maintain his relationship with his wife, who endured his violent, unpredictable episodes. Maurice holds nothing back as he bravely talks about what it was like to be medicated and institutionalized, and of how he learned to manage his manic episodes while on the set of GH. *Nothing General About It* is also an incredible love story about an enduring marriage that demonstrates what those vows—for better, for worse, in sickness and in health—truly mean. Maurice also pays tribute to the community that has been there for him through thick and thin, and ruminates on the importance of both inherited and created family. Throughout the difficult years of the First World War and its aftermath, the new governor general travelled extensively, oversaw policy, presided over Canada's rejection of the British honours system, and walked a fine line between the colonial authorities and Canada's desire for greater independence. Meanwhile, the duchess managed their home at Rideau Hall and fretted over propriety between her daughters and the young male staff who lived with them. In *Victor and Evie*, Dorothy Anne Phillips provides an intimate portrait of a family at the centre of Canadian social and political life. Utilizing letters released in 2005, the correspondence of an aide-de-camp, the duke's diary, and other primary documents, Phillips constructs a detailed inquiry into the family's relationships with each other and with the prominent people they met. This volume details their reactions to a number of dramatic events, including the conscription crisis, the Halifax Explosion, the influenza epidemic, the Winnipeg General Strike, the Prince of Wales's tour across Canada, and the courtship of their daughter Dorothy by the young Harold Macmillan, the future British prime minister. An engaging account of politics, travel, love, and tragedy, *Victor and Evie* presents the life of a governor general and his family during a pivotal moment in early twentieth-century Canada.

fairy tears by siah wellness: **When Women Invented Television** Jennifer Keishin Armstrong, 2021-03-23 New and Noteworthy —New York Times Book Review Must-Read Book of March —Entertainment Weekly Best Books of March —HelloGiggles “Leaps at the throat of television history and takes down the patriarchy with its fervent, inspired prose. When Women Invented Television offers proof that what we watch is a reflection of who we are as a people.” —Nathalia Holt, New York Times-bestselling author of *Rise of the Rocket Girls* New York Times-bestselling author of *Seinfeldia* Jennifer Keishin Armstrong tells the little-known story of four trailblazing women in the early days of television who laid the foundation of the industry we know today. It was the Golden Age of Radio and powerful men were making millions in advertising dollars reaching thousands of listeners every day. When television arrived, few radio moguls were interested in the upstart industry and its tiny production budgets, and expensive television sets were out of reach for most families. But four women—each an independent visionary—saw an opportunity and carved

their own paths, and in so doing invented the way we watch tv today. Irna Phillips turned real-life tragedy into daytime serials featuring female dominated casts. Gertrude Berg turned her radio show into a Jewish family comedy that spawned a play, a musical, an advice column, a line of house dresses, and other products. Hazel Scott, already a renowned musician, was the first African American to host a national evening variety program. Betty White became a daytime talk show fan favorite and one of the first women to produce, write, and star in her own show. Together, their stories chronicle a forgotten chapter in the history of television and popular culture. But as the medium became more popular—and lucrative—in the wake of World War II, the House Un-American Activities Committee arose to threaten entertainers, blacklisting many as communist sympathizers. As politics, sexism, racism, anti-Semitism, and money collided, the women who invented television found themselves fighting from the margins, as men took control. But these women were true survivors who never gave up—and thus their legacies remain with us in our television-dominated era. It's time we reclaimed their forgotten histories and the work they did to pioneer the medium that now rules our lives. This amazing and heartbreaking history, illustrated with photos, tells it all for the first time.

Robert Bales, Browne's unceasing advocacy and the daring to take on some of the most unwinnable cases—and nearly win them all—has led 48 Hours' Peter Van Sant to call him the most famous lawyer in America. But although the Browne that America has come to know cuts a dashing and confident figure, he has forever been haunted by his job as counsel to Ted Bundy, the most famous serial killer in American history. A drug- and alcohol-addicted (yet wildly successful) defense attorney who could never let go of the case that started it all, Browne here asks of himself the question others have asked him all along: does defending evil make you evil, too?
