green valley wellness suites: The Wigwam Resort Lance W. Burton, 2007 The evolution of an arid desert area into the verdant oasis that is the Wigwam Resort was ultimately brought about by an unlikely crop needed by an important American corporation in the early 20th century. The crop was long-staple cotton and the corporation was the Goodyear Tire and Rubber Company. When the U.S. Department of Agriculture discovered that Arizona's Salt River Valley was an ideal location to domestically grow long-staple cotton, Goodyear purchased 16,000 acres in the desert west of Phoenix to cultivate the crop for their newly developed pneumatic tire. The company built a three-room lodge, originally called the Organization House, for the executives that came to oversee the farming operations. The location became a popular winter retreat within the company, and in 1929, Goodyear expanded the facilities and opened The Wigwam as a hotel. As the years progressed, amenities such as golf and fine dining were added, and the Wigwam Resort became one of the premier luxury destinations in the Southwest.

green valley wellness suites: Exploring Time as a Resource for Wellness in Higher Education Sharon McDonough, Narelle Lemon, 2024-09-09 Bringing together international perspectives, this book demonstrates the importance of reframing time in higher education and how we can view it as a resource to support wellbeing and self-care. Time is a central part of our lives and structures our days, and yet often we don't think about the socially constructed nature of time or how we might reframe our relationship with time and our work in ways that support our self-care and wellbeing. Exploring Time as a Resource for Wellness in Higher Education suggests an alternative way to look at how we structure our time to better support our wellbeing. Drawing on a range of theoretical and personal perspectives, the authors advocate for a reconsideration and reconceptualization of our relationship with time. By sharing their experiences, the authors encourage readers to notice how they spend their time and offer strategies for an intentional focus on the relationship between time, self-care, and wellbeing. Whether it's making time, having time, or investing in time, this book explores strategies and reflections necessary to grow, maintain, and protect wellbeing. This book is a valuable resource for those working in higher education, offering individual, collective, and systemic suggestions and strategies for navigating the ways we see time and wellbeing.

A wide range of international case studies illustrate the multiple aspects of the industry and new and emerging trends including spas, medical wellness, life-coaching, meditation, festivals, pilgrimage and yoga retreats. The authors also evaluate marketing and promotional strategies and assess operational and management issues in the context of health and wellness tourism. This text includes a number of features to reinforce theory for advanced students of hospitality, leisure and tourism and related disciplines.

green valley wellness suites: *Sustainability and the U.S. EPA* National Research Council, Policy and Global Affairs, Science and Technology for Sustainability Program, Committee on Incorporating Sustainability in the U.S. Environmental Protection Agency, 2011-09-08 Sustainability is based on a simple and long-recognized factual premise: Everything that humans require for their survival and well-being depends, directly or indirectly, on the natural environment. The environment provides the air we breathe, the water we drink, and the food we eat. Recognizing the importance of sustainability to its work, the U.S. Environmental Protection Agency (EPA) has been working to create programs and applications in a variety of areas to better incorporate sustainability into decision-making at the agency. To further strengthen the scientific basis for sustainability as it applies to human health and environmental protection, the EPA asked the National Research Council (NRC) to provide a framework for incorporating sustainability into the EPA's principles and decision-making. This framework, *Sustainability and the U.S. EPA*, provides recommendations for a sustainability approach that both incorporates and goes beyond an approach based on assessing and managing the risks posed by pollutants that has largely shaped environmental policy since the 1980s. Although risk-based methods have led to many successes and remain important tools, the report concludes that they are not adequate to address many of the complex problems that put current and future generations at risk, such as depletion of natural resources, climate change, and loss of biodiversity. Moreover, sophisticated tools are increasingly available to address cross-cutting, complex, and challenging issues that go beyond risk management. The report recommends that EPA formally adopt as its sustainability paradigm the widely used three pillars approach, which means considering the environmental, social, and economic impacts of an action or decision. Health should be expressly included in the social pillar. EPA should also articulate its vision for sustainability and develop a set of sustainability principles that would underlie all agency policies and programs.

green valley wellness suites: *The Hotel Nantucket* Elin Hilderbrand, 2023-06-27 The queen of

beach reads (New York Magazine) and #1 New York Times bestselling author delivers an immensely satisfying page-turner in this tale about a summer of scandal at a storied Nantucket hotel. Fresh off a bad breakup with a longtime boyfriend, Nantucket sweetheart Lizbet Keaton is desperately seeking a second act. When she's named the new general manager of the Hotel Nantucket, a once Gilded Age gem turned abandoned eyesore, she hopes that her local expertise and charismatic staff can win the favor of their new London billionaire owner, Xavier Darling, as well as that of Shelly Carpenter, the wildly popular Instagram tastemaker who can help put them back on the map. And while the Hotel Nantucket appears to be a blissful paradise, complete with a celebrity chef-run restaurant and an idyllic wellness center, there's a lot of drama behind closed doors. The staff (and guests) have complicated pasts, and the hotel can't seem to overcome the bad reputation it earned in 1922 when a tragic fire killed nineteen-year-old chambermaid Grace Hadley. With Grace gleefully haunting the halls, a staff harboring all kinds of secrets, and Lizbet's own romantic uncertainty, is the Hotel Nantucket destined for success or doom? Filled with the emotional depth and multiple points of view that characterize Hilderbrand's novels (*The Blue Bistro*, *Golden Girl*) as well as an added dash of Roaring Twenties history, *The Hotel Nantucket* offers something for everyone in this compelling summer drama.

green valley wellness suites: Inner Engineering Sadhguru, 2016-09-20 NEW YORK TIMES BESTSELLER • Thought leader, visionary, philanthropist, mystic, and yogi Sadhguru presents Western readers with a time-tested path to achieving absolute well-being: the classical science of yoga. “A loving invitation to live our best lives and a profound reassurance of why and how we can.”—Sir Ken Robinson, author of *The Element*, *Finding Your Element*, and *Out of Our Minds: Learning to Be Creative* NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY SPIRITUALITY & HEALTH The practice of hatha yoga, as we commonly know it, is but one of eight branches of the body of knowledge that is yoga. In fact, yoga is a sophisticated system of self-empowerment that is capable of harnessing and activating inner energies in such a way that your body and mind function at their optimal capacity. It is a means to create inner situations exactly the way you want them, turning you into the architect of your own joy. A yogi lives life in this expansive state, and in this transformative book Sadhguru tells the story of his own awakening, from a boy with an unusual affinity for the natural world to a young daredevil who crossed the Indian continent on his motorcycle. He relates the moment of his enlightenment on a mountaintop in southern India, where time stood still and he emerged radically changed. Today, as the founder of Isha, an organization devoted to humanitarian causes, he lights the path for millions. The term guru, he notes, means “dispeller of darkness, someone who opens the door for you. . . . As a guru, I have no doctrine to teach, no philosophy to impart, no belief to propagate. And that is because the only solution for all the ills that plague humanity is self-transformation. Self-transformation means that nothing of the old remains. It is a dimensional shift in the way you perceive and experience life.” The wisdom distilled in this accessible, profound, and engaging book offers readers time-tested tools that are fresh, alive, and radiantly new. *Inner Engineering* presents a revolutionary way of thinking about our agency and our humanity and the opportunity to achieve nothing less than a life of joy.

green valley wellness suites: Geriatric Dermatology R.A. Norman, 2020-08-26 Over the past few years the world's population has continued on its remarkable transition from a state of high birth and death rates to one characterized by low birth and death rates. Consequently, primary care physicians and dermatologists will see more elderly patients presenting age-related dermatological conditions. There has never been a better time for a book devoted entirely to skin care in the elderly. Geriatric Dermatology draws together a panel of experts who provide an overview of the diagnosis and treatment of geriatric skin diseases. It begins with a general review of the aging of the world's population and the major dermatological problems that often arise in elderly patients. An added benefit is the book's coverage of geriatric skin care in nursing homes, adult congregate living, and subacute and home health settings, a subject not always found in conventional dermatology texts. The book includes: A summary of the dermatological disorders frequently encountered in the elderly, including eczematous dermatitis, skin infections, and neoplasias A description of the most common geriatric hair and scalp disorders, including graying, alopecia, and scalp psoriasis Comprehensive coverage of the diagnosis and treatment of leg, foot, and nail diseases Detailed discussion of the treatment of superficial mycoses, scabies, and pediculosis Less common geriatric conditions such as blistering diseases Major adverse drug reactions on the skin Leg ulcers due to venous insufficiency,

arterial diseases, and diabetic nephropathy Diagnosis and treatment of diabetic complications of dermatology, such scleroderma and dermatopathy The study of diseases that impact the elderly population is a crucial and growing area of interest in medicine. Geriatricians, primary care physicians, dermatologists, and others involved in the care of the elderly will inevitably see an increase in skin diseases specific to aging. The comprehensive coverage provided by Geriatric Dermatology facilitates the diagnosis and management of these geriatric skin diseases from the common to the rare and unusual.

green valley wellness suites: *The Financial Crisis Inquiry Report* Financial Crisis Inquiry Commission, 2011-05-01 The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to examine the causes, domestic and global, of the current financial and economic crisis in the United States. It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government. News Dissector DANNY SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film *In Debt We Trust* warned of the economic meltdown in 2006. green valley wellness suites: *Protecting Pollinators* Jodi Helmer, 2019-04-18 We should thank a pollinator at every meal. These diminutive creatures fertilize a third of the crops we eat. Yet half of the 200,000 species of pollinators are threatened. Birds, bats, insects, and many other pollinators are disappearing, putting our entire food supply in jeopardy. In North America and Europe, bee populations have already plummeted by more than a third and the population of butterflies has declined 31 percent. *Protecting Pollinators* explores why the statistics have become so dire and how they can be reversed. Jodi Helmer breaks down the latest science on environmental threats and takes readers inside the most promising conservation initiatives. Efforts include farmers reducing pesticides, cities creating butterfly highways, volunteers ripping up invasive plants, gardeners planting native flowers, and citizen scientists monitoring migration. Along with inspiring stories of revival and lessons from failed projects, readers will find practical tips to get involved. They will also be reminded of the magic of pollinators—not only the iconic monarch and dainty hummingbird, but the drab hawk moth and homely bats that are just as essential. Without pollinators, the world would be a duller, blander place. Helmer shows how we can make sure they are always fluttering, soaring, and buzzing around us.
