Word plexers are word-based puzzles that describe a word or phrase without actually spelling it out. For example, KCART would be backtrack since it is the word track spelled backwards. These kinds of puzzles are sometimes called wacky wordies or rebuses, although the latter is usually a picture-based puzzle. We have grouped our puzzles by difficulty, making the easiest level appropriate for students who have never seen word plexers before, and with the hardest level being nearly impossible to solve without help.

halloween rebus puzzles with answers: Relaxing Dot-To-Dot for Adults Clarity Media, 2016-05-06 It's time to be driven dotty, but in a good way! Welcome to our collection of hand-made dot-to-dot puzzles, containing over 15,000 dots for you to connect! The rules are simple: starting at number 1, draw a line to dot 2, then 3 and so on. In addition, these extra-challenging puzzles also contain some hollow dots. When you reach a hollow/white dot, this indicates that the current line stops. You should then look for the next dot which will also be hollow and draw a new line starting there. Full instructions and an example of this are featured inside the book. Once you've reached the end dot, you've finished the puzzle! All puzzles have a minimum of 400 dots, right up to over 1,000. However, even with that many dots on a page, we've worked hard to ensure we are consistent with the position of every single dot in this book from start to finish: the dot is always positioned to the left of each number. This removes any ambiguity that can occur from having dots in different places

relative to their numbers in the same puzzle, so by checking the position of a dot relative to a number it is always possible to work out which dot goes with each number throughout the book. Our puzzles are printed on high quality paper with only one puzzle printed per two pages, so there is always a blank reverse side. Thus if you decide to colour in a puzzle once finished, pen marks going through to the other side of the page won't affect any other puzzle. We do recommend using a pencil for drawing the dots to allow for a neater line and also any corrections that may need to be made. That's all there is to it! Delve in to this collection of relaxing and satisfying puzzles and take a trip back to those carefree moments as a child. Creating beautiful artwork along the way, we are sure that you will enjoy completing all 31 puzzles and being driven dotty for dots!
