ice hockey trivia questions and answers: The Grim Reaper Stu Grimson, 2019-10-15 A powerful memoir from an NHL heavyweight champion who moved from the dressing room to the courtroom. NHL tough guys all tell the same story. They all grew up dreaming of skating in the big league as stars. Then one day, a coach tells them the only way to make it is to drop the gloves. And every guy says the same thing: I'll do whatever it takes to play in the NHL. Not Stu Grimson, though. When he was offered a contract to patrol the ice for the Calgary Flames, he said no thanks, and went to university instead. And that's the way Grimson has approached his career and his life: on his own terms. He stared down the toughest players on the planet for seventeen years, while working on his first university degree. He retired on his own terms, and went on to practice law, including a stint as in-house counsel for the NHLPA. This has put him in a unique position when it comes to commenting on the game. He's seen it from the trenches, and he's seen it from the courtroom. This puts him in the eye of the storm surrounding fighting and concussions. And he handles that the way he does everything: on his own terms. When Don Cherry called him out on television, it was the seemingly indomitable Cherry who backed down. Hockey fans will be fascinated by his data-driven defence of fighting. But in the end, this is not a book about fighting and locker-room stories. It's the story of a young man who ultimately took on the toughest role in pro sports and came out the other side.

Where many others have not.

ice hockey trivia questions and answers: Sorry, Wrong Answer Rod L. Evans Ph.D., 2010-06-01 Where were Venetian blinds invented? What color is the black box on a commercial airplane? Where did India ink originate? * Most of us know more than we think we know. We also think we know more than we actually do because some of what we think we know simply ain't so. We all harbor misconceptions that are accepted not only because they are popular but also because they make sense. It makes sense to believe, for example, that German chocolate originated in Germany rather than the truth: that German chocolate is so named because it was created by Sam German. It seems logical to believe that Mercury is the hottest planet because of its proximity to the sun, or that buttermilk contains butter, that Danish pastry is from Denmark, and that the boat race America's Cup was named after the United States of America. In Sorry, Wrong Answer, Rod Evans takes readers on a tour of misleading trivia, debunking commonly held assumptions and sharing surprising

Robertson, 2018-07-26 Entering the 1978-1979 season, the Boston Bruins had been one of the best teams in the National Hockey League for more than a decade. Yet they could not shake the postseason jinx the Montreal Canadiens held over them--the Habs had ousted them in 13 consecutive playoff series going back to 1940s. The Bruins wanted one more shot at their nemeses, after coming up short in both the 1977 and 1978 Stanley Cup finals. They got their chance in the semifinal round. Led by the colorful but embattled coach Don Cherry, the underdog Bruins played seven heart-stopping games. Victory seemed within their grasp but was snatched away with an untimely penalty in the final minutes of game seven. The author looks back at the season from opening night at Boston Garden to the catastrophic conclusion at the Montreal Forum, with detailed accounts of the semifinal games and a post-mortem of the infamous bench penalty.
