Finding Your Path to Wellbeing: What a Mental Health Wellness Coach Can Do For You

Feeling overwhelmed, stressed, or just...stuck? You're not alone. Millions are seeking ways to improve their mental wellbeing, and a mental health wellness coach can be a powerful ally on that journey. This comprehensive guide explores the vital role of a mental health wellness coach, detailing what they do, how they can help you, and what to look for when choosing the right one for your needs. We'll uncover the benefits, dispel common myths, and provide you with the knowledge to make informed decisions about your mental health journey.

What is a Mental Health Wellness Coach?

A mental health wellness coach isn't a therapist or psychiatrist. They don't diagnose or treat mental illnesses. Instead, they partner with you to identify your goals for improved wellbeing and create a personalized plan to achieve them. They act as a supportive guide, empowering you to develop coping mechanisms, build resilience, and cultivate a healthier relationship with yourself and your life. Think of them as your personal cheerleader and strategic advisor for your mental health.

How Does a Mental Health Wellness Coach Differ from a Therapist?

This is a crucial distinction. Therapists focus on addressing and treating diagnosed mental health conditions, often using evidence-based therapeutic techniques. They delve deeper into past traumas and explore underlying causes of mental health challenges. A mental health wellness coach, on the other hand, works with individuals who may be experiencing general stress, burnout, or a desire for personal growth, focusing on present-day challenges and future goals. While a wellness coach might refer you to a therapist if they believe it's necessary, their primary focus is on building strengths and enhancing your existing resources.

What Services Does a Mental Health Wellness Coach Provide?

The services offered by a mental health wellness coach are diverse and tailored to the individual. Here are some common areas of focus:

Goal Setting and Action Planning: Coaches help you define specific, measurable, achievable, relevant, and time-bound (SMART) goals related to your mental wellbeing. This might involve improving sleep quality,

managing stress more effectively, enhancing relationships, or boosting self-esteem. They then assist you in developing a practical action plan to reach those goals.

Stress Management Techniques: Coaches can introduce you to a variety of stress-reduction techniques, including mindfulness practices, relaxation exercises, and time management strategies. They'll help you find what works best for you and integrate these techniques into your daily life.

Building Self-Awareness: A significant part of the coaching process involves deepening your understanding of your thoughts, emotions, and behaviors. This self-awareness is crucial for identifying patterns, triggers, and areas for improvement.

Developing Coping Mechanisms: Coaches help you develop a toolbox of effective coping strategies for dealing with challenging situations and emotions. This might include techniques for managing anxiety, navigating difficult conversations, or overcoming setbacks.

Boosting Self-Esteem and Confidence: Coaches work with you to identify and challenge negative self-talk and cultivate a more positive and compassionate self-image. They help you recognize your strengths and celebrate your accomplishments.

Improving Relationships: Coaches can help you improve your communication skills, resolve conflicts more effectively, and build stronger, healthier relationships with family, friends, and colleagues.

Lifestyle Optimization: Many coaches also incorporate lifestyle factors into their coaching, such as diet, exercise, and sleep hygiene, recognizing the significant impact these have on mental wellbeing.

Finding the Right Mental Health Wellness Coach for You

Choosing a mental health wellness coach is a personal decision. Consider the following factors:

Credentials and Experience: Look for coaches with relevant certifications or experience in the field of wellbeing coaching.

Specializations: Some coaches specialize in specific areas, such as anxiety management, work-life balance, or trauma recovery. Choose a coach whose expertise aligns with your needs.

Personality and Approach: A good coach-client relationship is built on trust and rapport. Find a coach whose personality and coaching style resonate with you. Many offer free consultations – take advantage of these!

Client Testimonials and Reviews: Read reviews and testimonials from past clients to get a sense of their experience.

Cost and Insurance: Clarify the cost of coaching services and whether your insurance covers any portion of the fees.

The Benefits of Working with a Mental Health Wellness Coach

Investing in your mental wellbeing is an investment in yourself. The benefits of working with a mental health wellness coach can be transformative, including:

Increased Self-Awareness: A deeper understanding of your thoughts, emotions, and behaviors.

Improved Stress Management: Effective techniques for handling stress and pressure.

Enhanced Coping Mechanisms: Tools and strategies for navigating challenging situations.

Greater Self-Esteem and Confidence: A more positive and empowering self-image.

Stronger Relationships: Improved communication and conflict-resolution skills.

Increased Productivity and Focus: Enhanced ability to concentrate and achieve goals.

Greater Life Satisfaction: A more fulfilling and meaningful life.

Conclusion

A mental health wellness coach can be an invaluable resource for anyone seeking to enhance their mental wellbeing. They provide support, guidance, and practical tools to help you navigate life's challenges and achieve your goals. By investing in your mental health, you're investing in a happier, healthier, and more fulfilling life. Take the first step today and explore the possibilities.

mental health wellness coach: A Guide to Coaching and Mental Health Andrew Buckley, Carole Buckley, 2012-11-12 It is vital that coaches have the ability to recognise mental health problems in their clients, enabling them to make an informed decision about whether coaching is appropriate. A Guide to Coaching and Mental Health provides an indispensable introduction to the assessment of psychological issues in the context of coaching. Divided into three sections, the book covers all the legal, ethical and practical considerations. Section one, Working on the Boundary, starts by exploring the distinction between normal and abnormal behaviour. In section two, What's Being Said, the authors introduce fictional case studies, which cover a range of possible mental health issues from mild depression and anxiety, through to psychoses and potentially life threatening problems. Section three, Categories of Mental Illness, guides the reader through the definition and management of the more common mental health problems. This accessible and jargon-free guide to identifying mental illness will prove invaluable for coaches and other related professionals, whatever their level of experience.

mental health wellness coach: Rock Steady Ellen Forney, 2018 Rock Steady: Brilliant Advice From My Bipolar Life is the eagerly awaited sequel/ companion book to Forney's 2012 best-selling graphic memoir, Marbles: Mania, Depression, Michelangelo, and Me. mental health wellness coach: Masterful Health and Wellness Coaching Michael Arloski, 2021-08 In Masterful Health & Wellness Coaching Dr. Arloski focuses on advancing the reader's understanding of the process of coaching in the health and wellness setting and guides the reader to a comprehensive level of expertise. Honing the craft as wellness coaches is the goal. Masterful Health & Wellness Coaching offers tools to become a true master of the history, research, scholarship, and techniques of wellness coaching at its highest level. Masterful Health & Wellness Coaching is divided into three parts, beginning with a foundation that great coaching is about transformation. Changing behavior needs to be viewed not through a unitary lens, but in the context of growth and development. Arloski reveals how this can be done for the client, for the coach, and for the growing profession of wellness coaching. The second part focuses on How to Be, that is, a coaches presence and way of being in the world and with a client, and the powerful effect this has upon the coaching process. Part Three takes a deeper dive into the craft of wellness coaching. Throughout Dr. Arloski references what can be learned from relevant theory and research. Masterful Health & Wellness Coaching is tailored to coaches who want to go beyond the basics of SMART Goals and accountability, beyond tracking calories and sit-ups. It is for: - Coaches who want to become scholars of coaching. - Coaches who want to develop a greater understanding of the process of behavioral change. - Coaches who want to learn more about wellness. - Coaches who want to master what the entire field of health promotion has discovered about being well. - Coaches who want to become skilled craftspeople. - Coaches who want to meet their clients with understanding, empathy, and non-judgment. Dr. Arloski believes that coaching isn't about all the things a client is doing wrong and how grim their situation is. It's about what is needed to ensure a successful future.

Masterful Health & Wellness Coaching gives you the tools to start your client on the path to success and to coach him or her until their healthy-living skills are second nature. The root of the word coach can be traced to a village in Hungary, Kocs, where carriages were made in the 1500's. Coaches love metaphors and what is better than this one: A coach takes you from where you are at to where you want to go. Perfect. The client is the one with the reins and it is the coaching process that facilitates the journey.

mental health wellness coach: *Wellness Coaching for Lasting Lifestyle Change* Michael Arloski, 2014 Arloski blends the wisdom of the wellness field with the proven processes of the coaching profession to create an easy-to-use training tool. mental health wellness coach: Lifestyle Wellness Coaching James Gavin, Madeleine Mcbrearty, 2018-11-07 Lifestyles have changed dramatically over the past quarter century. Along with these changes come exciting opportunities, including new career paths in the professional domain of health and wellness coaching. Centered on an evidence-based process for guiding change, *Lifestyle Wellness Coaching, Third Edition With Web Resource*, offers a systematic approach to helping clients achieve enduring changes in their personal health and wellness behaviors through a supportive and forward-moving coaching relationship. *Lifestyle Wellness Coaching* has been thoroughly revised and updated to keep pace with the rapidly evolving field of wellness coaching. It is complemented by discussions, case studies, reflective opportunities, and practical aids and engages readers through multiple approaches to learning: The reader is encouraged to gauge comprehension and application of the content by reflecting on personal experiences within the context of coaching. Sample dialogues offer real-world examples of coaching situations and strategies. The International Coach Federation's 11 core competencies are thoroughly examined to prepare readers for certification in the profession of coaching. A new web resource houses easy-to-use forms, plans, and assessments that professionals can use immediately with clients. *Lifestyle Wellness Coaching* examines real coaching conversations to assess key considerations, such as the types of questions to ask, how to provide feedback effectively, and how to facilitate action planning. The text presents communication strategies to motivate, guide, inform, and support clients' processes toward personal change with a holistic approach. It addresses boundaries of care and advice appropriate to coaching relationships. Other issues explored include developing a trusting relationship, creating goals that are aligned with coaching processes, unblocking clients' energy and discovering resources for change, and generating forward movement through the skillful use of the International Coach Federation's 11 core competencies. *Lifestyle Wellness Coaching* introduces readers to models that clearly identify clients' progress through the stages of change. First, the text explores the popular transtheoretical model (TTM) of health-related behavior change and its delineation of six stages of clients' readiness to change. The discussion of TTM includes strategies appropriate to clients in various stages of readiness to change. The text also presents the learning-through-change model (LCM), revealing the deep layers beneath each phase of client movement toward change. Readers are offered a map for coaching clients toward goal achievement. The authors' unique flow model of coaching illustrates how professional coaches can help clients navigate the sometimes turbulent events of a person's life in order to change habitual patterns of behavior. The companion web resource offers a complete kit of assessment tools to help establish a strong framework for successful coaching. A welcome packet, coaching readiness index, introductory session form, and between-sessions questionnaire benefit both the professional and client in laying the groundwork. Other supplemental resources, such as a social and emotional intelligence assessment and a goal setting form, support the journey. *Lifestyle Wellness Coaching*,

Third Edition, is the definitive resource for those seeking to embrace wellness coaching and propel clients to healthy, effective change.

mental health wellness coach: Coaching Psychology Manual Margaret Moore, Erika Jackson, Bob Tschannen-Moran, 2015-09-02 This second edition of the Coaching Psychology Manual helps health, wellness, lifestyle, positive psychology, and personal coaches work with clients to achieve their health, well-being, and life goals. mental health wellness coach: Mindfulness and Acceptance in Social Work Matthew S. Boone, 2014-05 Social work focuses on serving the most vulnerable members of society, and social workers must often address the contextual forces that contribute to human problems. Mindfulness and acceptance are powerful tools for this practice. By offering interventions like dialectical behavior therapy (DBT), mindfulness-based stress reduction (MBSR), and acceptance and commitment therapy (ACT), social workers can help their clients become more aware and take effective action. In *Mindfulness and Acceptance in Social Work*, editor and social worker Matthew S. Boone brings together contributions from emerging voices in social work, such as Elana Rosenbaum, Yuk-Lin Renita Wong, and Diana Coholic, along with ACT pioneers Kirk Strosahl, Patricia Robinson, and others. This book focuses not only on mindfulness-based interventions for direct practice, but also on the intersection of mindfulness and social work education, cultural diversity, and macro social work. It includes a framework for moving past culturally-informed biases, and for how to best utilize mindfulness interventions for both individuals and the community at large.

mental health wellness coach: ADHD Coaching Frances F. Prevatt, Abigail Levrini, 2015 People with ADHD often struggle with time management, staying organized, maintaining relationships, and other life skills. Professional coaching can help them overcome these obstacles and regain confidence in their own problem-solving abilities. This book is an A-Z guide for mental health professionals who want to develop or expand their ADHD Coaching skills. Drawing on over a decade of research and clinical work with ADHD clients, Frances Prevatt and Abigail Levrini have established an empirically-based model for ADHD Coaching. Their approach uses elements of cognitive behavioral theory and psycho-education to target executive functioning deficits, and focuses on clients' key impairments. This book describes the underlying principles as well as the nuts and bolts of ADHD Coaching. Step-by-step details for gathering information, conducting the intake, establishing goals and objectives, and working through all stages of coaching are included, along with helpful forms and a detailed list of additional resources. The practicalities of setting up a practice, as well as professional issues are covered, and five richly detailed case studies illustrate how to help adults, college students, and adolescents who present with a variety of ADHD symptoms.

mental health wellness coach: *Re-Imagining the End of Life* Janet Booth, 2019-04-18 What does it mean to be prepared for the last part of our lives? One of the many lessons author and end-of-life nurse coach Janet Booth learned at the bedside of dying people is how painful it is to come unprepared to the end of life, whether it is our own or that of our loved ones. Much of the suffering we experience seems to come from our unfamiliarity with the journey at end of life and our not knowing how to prepare for it. So there is a need for a different kind of conversation about serious illness and dying in our country. Nurses are trusted professionals who are present with people through all of life's transitions. How might they take more leadership in these conversations? The purpose of this handbook is to provide nurses, coaches, and other health care professionals with opportunities for reflection and inspiration in their work. As nurses and health care professionals, many of us have seen firsthand that the process of navigating serious illness and death within our complex health care system is often confusing, isolating, crisis-driven, and dis-heartening. What outcomes might be possible if instead: * we reimagined the end of life as a vital, purposeful stage of human development? * practices of healing - forgiveness, gratitude, and letting go - became essential parts of our care plans? * wisdom instead of fear informed our challenging decision points? * we prepared for death in order to live more fully the time that we have? * the hard work of caregiving was sustainable and meaningful for both family and professional caregivers? In this book you will find fresh ideas, tools, and reflective practices that encourage you to explore your personal beliefs and values about aging, advanced illness, and dying. It is intended to inspire you to reimagine the end of life as a vital part of how we become fully human - a time of life that holds value, meaning, and purpose.

mental health wellness coach: *Behavioral Coaching* Suzanne Skiffington, Perry Zeus, 2003-08-30 The first published book to detail a model of behavioural coaching and how to apply it. Behavioral Coaching is a universal and scientific model, resulting in validated, measurable, sustained learning and change in individuals and organisations. Both of the authors are leaders in their fields. Their books sell well internationally and they have an established reputation as coaching authorities. This book follows on from the first two books; The Complete Guide to Coaching at Work was a general introduction to definitions and applications of coaching. Behavioral Coaching provides a model of practice for the coaching applications in The Complete Guide to Coaching at Work and the tools and techniques described in The Coaching at Work Toolkit. This book presents a coherent definition and model of behavioural coaching based upon scientific, validated behavioural principles.

mental health wellness coach: *Life Coaching* Michael Neenan, Windy Dryden, 2013-06-26 The way we think profoundly influences the way we feel, so learning to think differently can enable

us to feel and act differently. The first edition of Life Coaching successfully showed how to tackle self-defeating thinking and replace it with a problem-solving outlook, providing clear and helpful advice on: Dealing with troublesome emotions Overcoming procrastination Becoming assertive Tackling poor time management Persisting at problem solving Handling criticism constructively Taking risks and making better decisions. The new edition retains the key features, while offering a brand new chapter on the emerging topic of resilience as well updates throughout. It will continue to be invaluable to all those who are interested in becoming more personally effective in their everyday lives, and also to counsellors in practice and training.

mental health wellness coach: Forward-Facing® Professional Resilience J. Eric Gentry, Ph.D, Jeffrey Jim Dietz, M.D., 2020-03-05 A Mission To Help Others Heal. A mission to help others heal and regain productive lives is likely what led you to pursue a career in professional caregiving. But what happens when all the accumulated suffering and trauma that you have witnessed and the pain that you have experienced starts to cause problems in your own personal and professional life? Insidious and often steeped in shame, compassion fatigue burnout and traumatic stress are very real issues that members of the caregiving community are not only at risk for but will inevitably confront at some point in their careers. The key is not to fight against or run away from these consequences of caregiving, but to recognize their normalization, origination, and the applicable steps available to heal your existing stress and build resilience for the future. In Forward-Facing® Professional Resilience: Prevention and Resolution of Burnout, Toxic Stress and Compassion Fatigue, trauma and compassion fatigue expert Dr. J. Eric Gentry and medical director and practitioner of emergency medicine Dr. Jeffrey “Jim” Dietz combine over seventy years’ worth of experience treating patients and caregivers to present a two-part text that first examines the cause of compassion fatigue, followed by a proven, simple five-step solution for healing and a renewed sense of mission. Drawing from their Professional Resilience workshop that has been attended by over 100,000 international participants, Drs. Gentry and Dietz address these issues with their readers in ways that are candid, heartfelt, insightful, and most of all—filled with hope.

mental health wellness coach: ROAR Stacy T. Sims, PhD, Selene Yeager, 2016-07-05 “Dr. Sims realizes that female athletes are different than male athletes and you can’t set your race schedule around your monthly cycle. ROAR will help every athlete understand what is happening to her body and what the best nutritional strategy is to perform at her very best.”—Evie Stevens, Olympian, professional road cyclist, and current women’s UCI Hour record holder Women are not small men. Stop eating and training like one. Because most nutrition products and training plans are designed for men, it’s no wonder that so many female athletes struggle to reach their full potential. ROAR is a comprehensive, physiology-based nutrition and training guide specifically designed for active women. This book teaches you everything you need to know to adapt your nutrition, hydration, and training to your unique physiology so you can work with, rather than against, your female physiology. Exercise physiologist and nutrition scientist Stacy T. Sims, PhD, shows you how to be your own biohacker to achieve optimum athletic performance. Complete with goal-specific meal plans and nutrient-packed recipes to optimize body composition, ROAR contains personalized nutrition advice for all stages of training and recovery. Customizable meal plans and strengthening exercises come together in a comprehensive plan to build a rock-solid fitness foundation as you build lean muscle where you need it most, strengthen bone, and boost power and endurance. Because women’s physiology changes over time, entire chapters are devoted to staying strong and active through pregnancy and menopause. No matter what your sport is—running, cycling, field sports, triathlons—this book will empower you with the nutrition and fitness knowledge you need to be in the healthiest, fittest, strongest shape of your life.

mental health wellness coach: The Campus Cure Marcia Morris, 2018-01-02 Did you know that one of four college students was diagnosed with a mental health disorder in the last year? College students are experiencing anxiety, depression, alcohol abuse, and other mental health issues at alarming rates in a landscape of growing academic, social, and financial pressures. As a college mental health psychiatrist for over two decades and a mother of two twenty-somethings, Marcia Morris has witnessed the ways problems can derail students from their goals, while parent interventions at critical junctures can help get students back on track. *The Campus Cure: A Parent Guide to Mental Health and Wellness for College Students* is a first aid guide to your child's emotional health, preparing you to handle the mental health problems and emotional ups and downs many young adults experience in college. With anecdotes and the latest scientific literature, this book will increase your awareness of common problems, pressures, and crises in college; illustrate how you can support your child and collaborate with campus resources; and provide stories of hope to parents who often feel alone and overwhelmed when their child experiences a mental health problem. While you have the passion to help your child, this book will provide you with the tools to guide your child toward health and happiness in the college years.

mental health wellness coach: Authentic Happiness Martin Seligman, 2011-01-11 In this important, entertaining book, one of the world's most celebrated psychologists, Martin Seligman, asserts that happiness can be learned and cultivated, and that everyone has the power to inject real joy into their lives. In *Authentic Happiness*, he describes the 24 strengths and virtues unique to the human psyche. Each of us, it seems, has at least five of these attributes, and can build on them to identify and develop to our maximum potential. By incorporating these strengths - which include kindness, originality, humour, optimism, curiosity, enthusiasm and generosity -- into our everyday lives, he tells us, we can reach new levels of optimism, happiness and productivity. *Authentic Happiness* provides a variety of tests and unique assessment tools to enable readers to discover and deploy those strengths at work, in love and in raising children. By accessing the very best in ourselves, we can improve the world around us and achieve new and lasting levels of authentic contentment and joy.

mental health wellness coach: Unconventional Medicine Chris Kresser, 2017-09-06 The world is facing the greatest healthcare crisis it has ever seen. Chronic disease is shortening our lifespan, destroying our quality of life, bankrupting governments, and threatening the health of future generations. Sadly, conventional medicine, with its focus on managing symptoms, has failed to address this challenge. The result is burned-out physicians, a sicker population, and a broken healthcare system. In *Unconventional Medicine*, Chris Kresser presents a plan to reverse this dangerous trend. He shows how the combination of a genetically aligned diet and lifestyle, functional medicine, and a lean, collaborative practice model can create a system that better serves the needs of both patients and practitioners. The epidemic of chronic illness can be stopped, if patients and practitioners can adapt.

mental health wellness coach: Thrive Arianna Huffington, 2014-03-25 In *Thrive*, Arianna Huffington makes an impassioned and compelling case for the need to redefine what it means to be successful in today's world. Arianna Huffington's personal wake-up call came in the form of a broken cheekbone and a nasty gash over her eye--the result of a fall brought on by exhaustion and lack of sleep. As the cofounder and editor-in-chief of the Huffington Post Media Group--one of the fastest growing media companies in the world--celebrated as one of the world's most influential women, and gracing the covers of magazines, she was, by any traditional measure, extraordinarily successful. Yet as she found herself going from brain MRI to CAT scan to echocardiogram, to find out if there was

any underlying medical problem beyond exhaustion, she wondered is this really what success feels like? As more and more people are coming to realize, there is far more to living a truly successful life than just earning a bigger salary and capturing a corner office. Our relentless pursuit of the two traditional metrics of success--money and power--has led to an epidemic of burnout and stress-related illnesses, and an erosion in the quality of our relationships, family life, and, ironically, our careers. In being connected to the world 24/7, we're losing our connection to what truly matters. Our current definition of success is, as Thrive shows, literally killing us. We need a new way forward. In a commencement address Arianna gave at Smith College in the spring of 2013, she likened our drive for money and power to two legs of a three-legged stool. They may hold us up temporarily, but sooner or later we're going to topple over. We need a third leg--a third metric for defining success--to truly thrive. That third metric, she writes in Thrive, includes our well-being, our ability to draw on our intuition and inner wisdom, our sense of wonder, and our capacity for compassion and giving. As Arianna points out, our eulogies celebrate our lives very differently from the way society defines success. They don't commemorate our long hours in the office, our promotions, or our sterling PowerPoint presentations as we relentlessly raced to climb up the career ladder. They are not about our resumes--they are about cherished memories, shared adventures, small kindnesses and acts of generosity, lifelong passions, and the things that made us laugh. In this deeply personal book, Arianna talks candidly about her own challenges with managing time and prioritizing the demands of a career and raising two daughters--of juggling business deadlines and family crises, a harried dance that led to her collapse and to her aha moment. Drawing on the latest groundbreaking research and scientific findings in the fields of psychology, sports, sleep, and physiology that show the profound and transformative effects of meditation, mindfulness, unplugging, and giving, Arianna shows us the way to a revolution in our culture, our thinking, our workplace, and our lives.

mental health wellness coach: *Organize Your Emotions, Optimize Your Life* Margaret Moore, Edward Phillips, M.D., John Hanc, 2016-09-06 From a top wellness coach and a Harvard Medical School professor, comes this revolutionary book that will show you how to identify and decode your nine most basic emotional needs—and coach yourself to a calmer, healthier, and happier life. The more you thrive, the better your brain functions, and you're able to perform at the best level. Your health improves. You enjoy life more. When you're thriving, your stress level is down, your confidence is up, and the internal frenzy is tamed by a poised, self-assured mind. But if you're like the majority of Americans, you may be, in psychological terms, languishing rather than flourishing—surviving instead of thriving. For many, feeling overwhelmed and out of balance has become normal, a consequence of overlooking basic emotional needs. The key to reaching a happy, healthy state is by tapping into, not tuning out, your distinct emotions, and listening to the inner monologue inside your mind. *Organize Your Brain, Optimize Your Life* combines the worlds of self-help, psychology, and medical science to guide you to a place of self-management and control. This insightful, approachable book will teach you how to identify, decode, and assess the nine most basic emotions that rule your brain and to recognize each of these voices and act accordingly to achieve a wide range of goals—from weight loss to career management. Coach your brain to gain deeper insight of your individual needs and live life to your maximum potential.

mental health wellness coach: *State of The Global Workplace* Gallup, 2017-12-19 Only 15% of employees worldwide are engaged at work. This represents a major barrier to productivity for organizations everywhere – and suggests a staggering waste of human potential. Why is this engagement number so low? There are many reasons — but resistance to rapid change is a big one, Gallup's research and experience have discovered. In particular, organizations have been slow to adapt to breakneck changes produced by information technology, globalization of markets for products and labor, the rise of the gig economy, and younger workers' unique demands. Gallup's 2017 State of the Global Workplace offers analytics and advice for organizational leaders in countries and regions around the globe who are trying to manage amid this rapid change. Grounded in decades of Gallup research and consulting worldwide -- and millions of interviews -- the report advises that leaders improve productivity by becoming far more employee-centered; build

strengths-based organizations to unleash workers' potential; and hire great managers to implement the positive change their organizations need not only to survive – but to thrive.

mental health wellness coach: Better Than Happy Jody Moore, 2021-09-15 Our unconscious thought patterns determine our relationships, our spiritual life and our connection to God to a much greater extent than we know. That's an alarming thought, because the subconscious mind is a mysterious realm that is really difficult to access and influence...right? No. It's really not! And it's the most urgent and impactful thing we can do. This book will show you how. How do I choose faith over fear when my loved ones are making poor choices? Why don't I feel happier if I'm reading and praying like I've been taught? How can I stop feeling like I'm just not good enough? What am I to do when my spouse is judgmental of me? How do I trust in Christ when everything seems to be falling apart? Get answers to these and other tough questions in the context of Christ-centered principles throughout this book. Jody Moore is a Master Certified Life Coach who has taught and coached tens of thousands of women through her in-person and online workshops and podcast. She brings her characteristic clarity, wisdom, humor and disarming honesty to this groundbreaking book. In *Better Than Happy*, Jody shows how a simple 5-step model she uses in every session with her clients can reveal the unconscious patterns of thoughts that keep us from deeper and healthier connection with ourselves, with our loved ones and with God. Jody then shows how, once we clear the debris of our unconscious patterns of thought, new streams of understanding of Christ's teachings begin to flow. I am a mother of 4, a member of The Church of Jesus Christ of Latter-Day Saints, and a woman trying to figure out how to minimize resentment, overwhelm and guilt, and replace them with happiness, gratitude and joy. Three years after getting married I found myself with two kids under age 2, a loving husband, and a lot of self-loathing. I struggled with the duties associated with being a mom and wife and then I felt guilty for feeling that way. After all, this was the life I thought I'd always wanted. I have a BA in Communications and an MA in Adult Education along with 15 years of experience as a Corporate Trainer and Leadership Coach, but what has helped me the most to overcome my struggles and to conquer all of my goals, are the tools I use now to coach my clients. Thanks to my extensive training with Brooke Castillo of The Life Coach School, I am now a Certified Life Coach, and I couldn't be more proud of the work I get to do in the world.
