metagenics mens wellness essentials: Important Artifacts and Personal Property from the Collection of Lenore Doolan and Harold Morris, Including Books, Street Fashion, and Jewelry

Leanne Shapton, 2009-02-03 A love story told in the form of an auction catalog. Auction catalogs can tell you a lot about a person -- their passions and vanities, peccadilloes and aesthetics; their flush years and lean. Think of the collections of Jacqueline Kennedy Onassis, Truman Capote, the Duke and Duchess of Windsor. In Leanne Shapton's marvelously inventive and invented auction catalog, the 325 lots up for auction are what remain from the relationship between Lenore Doolan and Harold Morris (who aren't real people, but might as well be). Through photographs of the couple's personal effects -- the usual auction items (jewelry, fine art, and rare furniture) and the seemingly worthless (pajamas, Post-it notes, worn paperbacks) -- the story of a failed love affair vividly (and cleverly) emerges. From first meeting to final separation, the progress and rituals of intimacy are revealed through the couple's accumulated relics and memorabilia. And a love story, in all its tenderness and struggle, emerges from the evidence that has been left behind, laid out for us to appraise and appreciate. In an earlier work, *Was She Pretty?*, Shapton, a talented artist and illustrator, subtly explored the seemingly simple yet powerfully complicated nature of sexual jealousy. In *Important Artifacts and Personal Property from the Collection of Lenore Doolan and Harold Morris*—a very different yet equally original book—she invites us to contemplate what is truly valuable, and to consider the art we make of our private lives.

metagenics mens wellness essentials: Hair Like a Fox Danny Roddy, 2013 While it is often

stated with great confidence that pattern baldness is the result of defective genes and male androgenic hormones (e.g., testosterone, DHT), the theory is physiologically unsound. As a family physician for over 30 years and #1 New York Times bestselling author Joel Fuhrman, M.D. will tell you that doctors and medications cannot grant you excellent health or protection from disease and suffering. The most effective health-care is proper self-care and that starts with changing the way we eat. *Eat for Life* delivers a science-backed nutrition-based program that prevents and even reverses most medical problems within three to six months. This is a bold claim but the science and the tens of thousands who have tried this approach back it up. The truth is: you simply do not have to be sick. Most Americans are deficient in the vitamins, minerals and

phytonutrients found in plants (micronutrients), and consume too many fats, proteins, carbohydrates (macronutrients). The results of this standard diet is that we are not only shortening our lives but damaging our energy, vitality, and daily health by eating packaged and processed foods, excessive meat and dairy, and unsustainable amounts of salt and sugar. What we need is to consume foods rich in phytonutrients such as greens, beans, onions, mushrooms, berries, and seeds. These delicious and abundant foods contain the largest assortment of micronutrients and when consumed in adequate quantities they prevent and reverse diabetes and heart-disease, lower cholesterol and blood pressure, and reduce hunger and food cravings. metagenics mens wellness essentials: Keto-Adapted Maria Emmerich, 2013-12-09 A ketogenic diet isn't something new that has been recently formulated; people have been on a ketogenic diet for virtually three million years in which our brains were nurtured and evolved. Now the human brain is not only shrinking, but brain atrophy is the norm as we age and get plagued with diseases such as dementia, Alzheimer's disease and Parkinson's disease. People mistakenly think

that they need to eat less and exercise more to create a calorie deficit in order to lose weight. This is not how diet and exercise helps with weight loss. A well-formulated keto-adapted diet along with proper exercise builds muscle and muscle builds mitochondria. It is in the mitochondria where fat is oxidized so you can keep your cells and liver insulin sensitized. Weight loss and health is about healthy mitochondria and about controlling hormones and specifically insulin. This is not a diet, it is a lifestyle. By eating this way, you will begin to heal your cells and will keep evolving your body into the happy and healthy person you want to be. This book is filled with the most impeccable nutrition information to fuel your cells. Maria's passion goes beyond explaining the 'why', she is a master in the kitchen and loves food. Her keto-adapted recipes at the end of the book tie all the nutrition together so you can become keto-adapted faster than ever.

The good news is that many autoimmune conditions can be reversed through a targeted protocol designed to heal the autoimmune system, 70 percent of which is located in the gut. The Autoimmune Fix includes two comprehensive 3-week plans: In the first 3 weeks, you'll follow a Paleo-inspired diet during which you cut out gluten, sweets, and dairy--the three primary culprits behind autoimmunity. Incidence of Lyme disease is skyrocketing. If caught early, antibiotics can often successfully treat it, but more often than not, Lyme is asymptomatic and evades diagnosis until it is a full-blown, chronic condition that requires a multi-faceted treatment plan. In Rising Above Lyme Disease, renowned naturopath and Lyme-literate doctor Julia Greenspan presents a Comprehensive and Alternative Medicine (CAM) approach for recovery for those who have been suffering with this disease for weeks, months, years, or even decades. Operating from the front lines of the epidemic in New England, she gives hope to those who thought there was none, or feel unheard by all those around them. Dr. Greenspan's integrative treatment plan addresses not only the body, but the mind as well, and includes: Standard protocols such as antibiotic and probiotic care, which can be essential to long-term healing (despite fears) Detoxing and dietary changes that help get proven results Therapies such as yoga, massage, earthing, and qi gong

Therapies that dig deeper (when nothing else seems to be working) and focus on removing obstacles to healing, such as past trauma, negative beliefs about self, unhealthy lifestyle choices, genetics, hormone imbalance, environmental toxins, and other infections—all of which have a very real, and often overlooked, effect on recovery Through this comprehensive approach that focuses on the whole person and the very personal ways in which the disease may affect one's life, it is possible to find relief, become your best advocate, and ultimately, rise above Lyme.
