mint wellness biscayne blvd: Miami and the Beaches , 2011-10-25 Miami is one of the great destinations of the world. Gerald Hoberman, the widely acclaimed, award winning, master photographer, author and designer took to the air over Miami in a romantic helium-filled blimp. What better way to capture the vibrant sunny disposition of Miami and the beaches, that sparkling jewel of Florida's coastline on camera? Hoberman then comes down to earth so to speak, camera at the ready and in an extraordinary display of further photographic and artistic virtuosity, incisively captures the very spirit and essence of Miami as never before. Each impactful image will leave the reader spellbound from cover to cover. Accompanied by well researched, informative and entertaining text, it also has some typical Hoberman serendipity thrown in for good measure to add spice to the gingerbread. This book, one of a kind, will provide many fascinating hours of riveting

reading. It is a must have for travelers planning a journey there. It is a wonderful memento for those who have already visited and deserves a special pride of place, in the homes and libraries of the people who proudly call Miami home.

mint wellness biscayne blvd: Advances in Radiation Oncology Jeffrey Y.C. Wong, Timothy E. Schultheiss, Eric H. Radany, 2017-04-20 This book concisely reviews important advances in radiation oncology, providing practicing radiation oncologists with a fundamental understanding of each topic and an appreciation of its significance for the future of radiation oncology. It explores in detail the impact of newer imaging modalities, such as multiparametric magnetic resonance imaging (MRI) and positron emission tomography (PET) using fluorodeoxyglucose (FDG) and other novel agents, which deliver improved visualization of the physiologic and phenotypic features of a given cancer, helping oncologists to provide more targeted radiotherapy and assess the response. Due consideration is also given to how advanced technologies for radiation therapy delivery have created new treatment options for patients with localized and metastatic disease, highlighting the increasingly important role of image-guided radiotherapy in treating systemic and oligometastatic disease. Further topics include the potential value of radiotherapy in enhancing immunotherapy thanks to the broader immune-stimulatory effects, how cancer stem cells and the tumor microenvironment influence response, and the application of mathematical and systems biology methods to radiotherapy.

mint wellness biscayne blvd: We Believe You Annie E. Clark, Andrea L. Pino, 2016-04-12 From young activists at the forefront of the movement to end sexual assault on college campuses, a collection of survivor stories that will connect with students and inform and inspire us all Across the U.S. student activists are exposing a pervasive cover-up of sexual assault on college campuses. Every day more survivors come forward. But other survivors choose not to. We Believe You elevates the stories the headlines about this issue have been missing--more than 30 experiences of trauma, healing and everyday activism, representing a diversity of races, economic and family backgrounds, gender identities, immigration statuses, interests, capacities and loves. More than 1 in 5 women and 5 percent of men are sexually assaulted at college, a shocking status quo that might have stayed largely hidden and unaddressed but for the two authors of We Believe You. In 2013, Annie E. Clark and Andrea L. Pino, then 23 and 20, building on the work of earlier activists, outed themselves as assault survivors and filed a federal complaint against the University of North Carolina (Chapel Hill) for mishandling such crimes; within a month, the U.S. government began to investigate UNC. Within a year, dozens of colleges were under federal investigation. But Clark and Pino rightly see themselves as two among many. Students from every kind of college and university--large and small, public and private, highly selective and less so--are sounding alarms and staking claims to justice by

filing complaints, by pressing charges, and by simply living beyond the effects of assault and the betrayals of their schools. A sampling of their voices speak out in this book--

mint wellness biscayne blvd: *Take Me with You* Carlos Frias, 2008-11-18 An evocative and unforgettable memoir from award-winning journalist Carlos Frías about his journey to Cuba where he retraces his family's history and encounters the realities of Cuba under Fidel Castro's rule. Carlos Frías, an award-winning journalist and the American-born son of Cuban exiles, grew up hearing about his parents' homeland only in parables. Their Cuba, the one they left behind four decades ago, was ethereal. It existed, for him, only in their anecdotes, and in the family that remained in Cuba—merely ghosts on the other end of a telephone. Until Fidel Castro fell ill. Sent to Cuba by his newspaper as the country began closing to foreign journalists in August 2006, Frías begins the secret journey of a lifetime—twelve days in the land of his parents. That experience led to this evocative, spectacular, and unforgettable memoir. *Take Me With You* is written through the unique eyes of a first-generation Cuban-American seeing the forbidden country of his ancestry for the first time. Frías provides a fresh view of Cuba, devoid of overt political commentary, focusing instead on the gritty, tangible lives of the people living in Castro's Cuba. Frías takes in the island nation of today and attempts to reconstruct what the past was like for his parents, retracing their footsteps, searching for his roots, and discovering his history. The story creates lasting and unexpected ripples within his family on both sides of the Florida Straits—and on the author himself.

mint wellness biscayne blvd: *Hip-Hop Architecture* Sekou Cooke, 2021-03-25 “This book is not for you. It is not for architectural academic elites. It is not for those who have gentrified our neighborhoods, overly intellectualized the profession, and ignored all contemporary Black theory within the discipline. You have made architecture a symbol of exclusion, oppression, and domination rather than expression, aspiration, and inspiration. This book is not for conformists-Black, White, or other.” As architecture grapples with its own racist legacy, *Hip-Hop Architecture* outlines a powerful new manifesto-the voice of the underrepresented, marginalized, and voiceless within the discipline. Exploring the production of spaces, buildings, and urban environments that embody the creative energies in hip-hop, it is a newly expanding design philosophy which sees architecture as a distinct part of hip-hop's cultural expression, and which uses hip-hop as a lens through which to provoke new architectural ideas. Examining the present and the future of *Hip-Hop Architecture*, the book also explores its historical antecedents and its theory, placing it in a wider context both within architecture and within Black and African American movements. Throughout, the work is illustrated with inspirational case studies of architectural projects and creative practices, and interspersed with interludes and interviews with key architects, designers, and academics in the field. This is a vital and provocative work that will appeal to architects, designers, students, theorists, and anyone interested in a fresh view of architecture, design, race and culture. Includes Foreword by Michael Eric Dyson.

mint wellness biscayne blvd: Museums and Public Art? Cher Krause Knight, Harriet F.

Senie, 2018-06-11 While many museums have ignored public art as a distinct arena of art production and display, others have – either grudgingly or enthusiastically – embraced it. Some institutions have partnered with public art agencies to expand the scope of special exhibitions; other museums have attempted to establish in-house public art programs. This is the first book to contextualize the collaborations between museums and public art through a range of essays marked by their coherence of topical focus, written by leading and emerging scholars and artists. Organized into three sections it represents a major contribution to the field of art history in general, and to those of public art and museum studies in particular. It includes essays by art historians, critics, curators, arts administrators and artists, all of whom help to finally codify the largely unwritten history of how museums and public art have and continue to intersect. Key questions are both addressed and offered as topics for further discussion: Who originates such public art initiatives, funds them, and most importantly, establishes the philosophy behind them? Is the efficacy of these initiatives evaluated in the same way as other museum exhibitions and programs? Can public art ever be a “permanent” feature in any museum? And finally, are the museum and public art ultimately at odds, or able to mutually benefit one another?

Brett Sokol, 2019-02-15 Forget the jokes about late '70s South Beach being the Yiddish-speaking section of “God’s Waiting Room”; yes, upwards of 20,000 elderly Jews made up nearly half of its population in those days — all crammed into an area of barely two square miles like a modern-day shtetl, the small, tightly knit Eastern European villages that defined so much of pre-World War II Jewry. But these New York transplants and Holocaust survivors all still had plenty of living, laughing and loving to do, as strikingly portrayed in *Shtetl in the Sun*, which features previously unseen photographs documenting South Beach’s once-thriving and now-vanished Jewish world — a project that American photographer Andy Sweet (1953–82) began in 1977 after receiving his MFA from the University of Colorado at Boulder, and a driving passion until his tragic death--Publisher's description.

mint wellness biscayne blvd: *American Fix* Ryan Hampton, 2018-08-28 Nearly every American knows someone who has been affected by the opioid crisis. Addiction is a trans-partisan issue that impacts individuals from every walk of life. Millions of Americans, tired of watching their loved ones die while politicians ignore this issue. Where is the solution? Where is the hope? Where's

the outrage? Ryan Hampton is a young man who has made addiction and recovery reform his life's mission. Through the wildly successful non-profit organization Facing Addiction, Hampton has been rocketed to the center of America's rising recovery movement—quickly emerging as the de facto leader of the national conversation on addiction. He understands firsthand how easy it is to develop a dependency on opioids, and how destructive it can quickly become. Now, he is waging a permanent campaign to change our way of thinking about and addressing addiction in this country. In *American Fix*, Hampton describes his personal struggle with addiction, outlines the challenges that the recovery movement currently faces, and offers a concrete, comprehensive plan of action towards making America's addiction crisis a thing of the past.

mint wellness biscayne blvd: *Café Dolly* J.F. Willumsens museum, 2013 In the year of his 150th birthday, the Danish artist J.F. Willumsen (1863-1958) is on his way to becoming an artist's artist. Recognized for his merits as a modernist in the 1890s, his late works have long been regarded as commonplace, self-ironic, and kitschy in his home country, whereas his œuvre has remained largely unknown to an international public. In this way, the reception of Willumsen's late work resembles that of the figurative works from the thirties and forties by French artist Francis Picabia (1879-1951) before they were elevated to warrant sophisticated postmodernist reflection on painting in the late eighties. This book brings these two artists together with the American artist and film director Julian Schnabel and discusses the transhistorical similarities in their painterly strategies and explicit self-staging of their role as artists.

God loves each of us and He has already provided for us to be healed through those lashes that Jesus received in His body. Healing is God's Provision for all who will say it, believe it, and receive it. After you get healed go tell someone about it.

mint wellness biscayne blvd: Charley 05 Maurizio Cattelan, Massimiliano Gioni, Ali Subotnick, 2007-07 *Charley* is an approximately annual publication edited by Maurizio Cattelan, Massimiliano Gioni and Ali Subotnick, and designed by The Purtil Family Business. It is as visual as a magazine and as substantial as a book, but refuses to abide by either genre's rules. Following earlier editions on the 2001-2002 New York art season, on neglected artists from the 80s and early 90s, and on museum acquisitions, this new volume rounds up the stray dogs of contemporary art--*Charley 5* features artists who have remained forgotten, proudly secluded or just unnoticed, in spite of their visionary work. Its galleries of obsessions mix professionals and amateurs, cult figures and unknowns, unheard prophets, voluntary outcasts and great solitary masters and freaks, celebrating the extreme subjectivity of more than 50 voices and implicitly questioning accepted hierarchies in the process. The editors have said of their recent work, it's a way to say, look around...The latest issues of *Charley* are a lot about 'What ifs': what if there were many more artists than we actually speak about? What if our artist list was just partial and irrelevant? *Charley* is sponsored by the Deste Foundation, Athens, Greece, which supports artist's projects, exhibitions, and symposia that explore the relationship between contemporary art and culture.

mint wellness biscayne blvd: Assembled in Light Alastair Gordon, 2020-09-15 The first monograph illustrating the high-end contemporary residential design of Barnes Coy Architects. Throughout their twenty-five-year commitment to modern design, Barnes Coy Architects have specialized in one-of-a-kind dream houses designed for those who prefer to live in highly spatial and modern ways. *Assembled in Light* is the first exclusive look at this firm's previously unpublished body of high-end residential work. These leisure homes gleam in the sun like sleek, finely tuned machines. Everything has been custom designed, custom made, custom treated. The houses are tastefully furnished with one-of-a-kind artisanal pieces (by Wendell Castle, Chris Lehrecke, etc.) and museum-quality collections of contemporary art hanging on the walls (such as works by Anselm Kiefer, Barbara Kruger, Richard Prince, and Cindy Sherman). They feature infinity pools, outdoor and indoor kitchens, roof decks, temperature-controlled wine cellars, and numerous guest rooms, as well as ten-foot-high doorways and floor-to-ceiling swathes of tempered glass to better gaze out at the dunes and ocean views. The new photography beautifully captures the architects' attention to detail and love of specialized materials, whether it's Carrara marble from Italy or teak from Bali. While most of the houses are located in the Hamptons in New York, a few are found as far afield as Costa Rica, California, Georgia, and Westchester County. All but three homes were built on

commanding waterfront sites.
