monarch womens wellness chesapeake: Relationship-Rich Education Peter Felten, Leo M. Lambert, 2020-11-03 A mentor, advisor, or even a friend? Making connections in college makes all the difference. What single factor makes for an excellent college education? As it turns out, it's pretty simple: human relationships. Decades of research demonstrate the transformative potential and the lasting legacies of a relationship-rich college experience. Critics suggest that to build connections with peers, faculty, staff, and other mentors is expensive and only an option at elite institutions where instructors have the luxury of time with students. But in this revelatory book brimming with the voices of students, faculty, and staff from across the country, Peter Felten and

Leo M. Lambert argue that relationship-rich environments can and should exist for all students at all types of institutions. In *Relationship-Rich Education*, Felten and Lambert demonstrate that for relationships to be central in undergraduate education, colleges and universities do not require immense resources, privileged students, or specially qualified faculty and staff. All students learn best in an environment characterized by high expectation and high support, and all faculty and staff can learn to teach and work in ways that enable relationship-based education. Emphasizing the centrality of the classroom experience to fostering quality relationships, Felten and Lambert focus on students' influence in shaping the learning environment for their peers, as well as the key difference a single, well-timed conversation can make in a student's life. They also stress that relationship-rich education is particularly important for first-generation college students, who bring significant capacities to college but often face long-standing inequities and barriers to attaining their educational aspirations. Drawing on nearly 400 interviews with students, faculty, and staff at 29 higher education institutions across the country, *Relationship-Rich Education* provides readers with practical advice on how they can develop and sustain powerful relationship-based learning in their own contexts. Ultimately, the book is an invitation—and a challenge—for faculty, administrators, and student life staff to move relationships from the periphery to the center of undergraduate education.

monarch womens wellness chesapeake: *The Picky Eagle* Richard W. Maass, 2020-05-15 The *Picky Eagle* explains why the United States stopped annexing territory by focusing on annexation's domestic consequences, both political and normative. It describes how the US rejection of further annexations, despite its rising power, set the stage for twentieth-century efforts to outlaw conquest. In contrast to conventional accounts of a nineteenth-century shift from territorial expansion to commercial expansion, Richard W. Maass argues that US ambitions were selective from the start. By presenting twenty-three case studies, Maass examines the decision-making of US leaders facing opportunities to pursue annexation between 1775 and 1898. US presidents, secretaries, and congressmen consistently worried about how absorbing new territories would affect their domestic political influence and their goals for their country. These leaders were particularly sensitive to annexation's domestic costs where xenophobia interacted with their commitment to democracy: rather than grant political representation to a large alien population or subject it to a long-term imperial regime, they regularly avoided both of these perceived bad options by rejecting annexation. As a result, US leaders often declined even profitable opportunities for territorial expansion, and they renounced the practice entirely once no desirable targets remained. In addition to offering an updated history of the foundations of US territorial expansion, *The Picky Eagle* adds important nuance to previous theories of great-power expansion, with implications for our understanding of US foreign policy and international relations.

Boost student success by reversing your perspective on college readiness The national conversation asking Are students college-ready? concentrates on numerous factors that are beyond higher education's control. *Becoming a Student-Ready College* flips the college readiness conversation to provide a new perspective on creating institutional value and facilitating student success. Instead of focusing on student preparedness for college (or lack thereof), this book asks the more pragmatic question of what are colleges and universities doing to prepare for the students who are entering their institutions? What must change in an institution's policies, practices, and culture in order to be student-ready? Clear and concise, this book is packed with insightful discussion and practical strategies for achieving your ambitious student success goals. These ideas for redesigning practices and policies provide more than food for thought—they offer a real-world framework for real institutional change. You'll learn: How educators can acknowledge their own biases and assumptions about underserved students in order to allow for change New ways to advance student learning and success How to develop and value student assets and social capital Strategies and approaches for creating a new student-focused culture of leadership at every level To truly become student-ready, educators must make difficult decisions, face the pressures of accountability, and address their preconceived notions about student success head-on. *Becoming a Student-Ready College* provides a reality check based on today's higher education environment.

Here he seeks to elevate the naval battles between the French and British to a central place in the history of the American Revolution. He succeeds, marvelously.--The New York Times Book Review The thrilling story of the year that won the Revolutionary War from the New York Times bestselling author of *In the Heart of the Sea* and *Mayflower*. In the concluding volume of his acclaimed American Revolution series, Nathaniel Philbrick tells the thrilling story of the year that won the Revolutionary War. In the fall of 1780, after five frustrating years of war, George Washington had come to realize that the only way to defeat the British Empire was with the help of the French navy. But coordinating his army's movements with those of a fleet of warships based thousands of miles away was next to impossible. And then, on September 5, 1781, the impossible happened. Recognized today as one of the most important naval engagements in the history of the world, the Battle of the Chesapeake—fought without a single American ship—made the subsequent victory of the Americans at Yorktown a virtual inevitability. A riveting and wide-ranging story, full of dramatic, unexpected turns, *In the Hurricane's Eye* reveals that the fate of the American Revolution depended, in the end, on Washington and the sea.

monarch womens wellness chesapeake: *When My Brother Was an Aztec* Natalie Diaz, 2012-12-04 I write hungry sentences, Natalie Diaz once explained in an interview, because they want more and more lyricism and imagery to satisfy them. This debut collection is a fast-paced tour of Mojave life and family narrative: A sister fights for or against a brother on meth, and everyone from Antigone, Houdini, Huitzilopochtli, and Jesus is invoked and invited to hash it out. These darkly humorous poems illuminate far corners of the heart, revealing teeth, tails, and more than a few dreams. I watched a lion eat a man like a piece of fruit, peel tendons from fascia like pith from rind, then lick the sweet meat from its hard core of bones. The man had earned this feast and his own deliciousness by ringing a stick against the lion's cage, calling out Here, Kitty Kitty, Meow! With one swipe of a paw much like a catcher's mitt with fangs, the lion pulled the man into the cage, rattling his skeleton against the metal bars. The lion didn't want to do it— He didn't want to eat the man like a piece of fruit and he told the crowd this: I only wanted some goddamn sleep . . . Natalie Diaz was born and raised on the Fort Mojave Indian Reservation in Needles, California. After playing professional basketball for four years in Europe and Asia, Diaz returned to the states to complete her MFA at Old Dominion University. She lives in Surprise, Arizona, and is working to preserve the Mojave language.

monarch womens wellness chesapeake: *Red Ink* Drew Lopenzina, 2012-03-01 The Native peoples of colonial New England were quick to grasp the practical functions of Western literacy.

Their written literary output was composed to suit their own needs and expressed views often in resistance to the agendas of the European colonists they were confronted with. *Red Ink* is an engaging retelling of American colonial history, one that draws on documents that have received scant critical and scholarly attention to offer an important new interpretation grounded in indigenous contexts and perspectives. Author Drew Lopenzina reexamines a literature that has been compulsively corrected and overinscribed with the norms and expectations of the dominant culture, while simultaneously invoking the often violent tensions of contact and the processes of unwitnessing by which Native histories and accomplishments were effectively erased from the colonial record. In a compelling narrative arc, Lopenzina enables the reader to travel through a history that, however familiar, has never been fully appreciated or understood from a Native-centered perspective.

monarch womens wellness chesapeake: Love and Hate in Jamestown David A. Price, 2007-12-18 A New York Times Notable Book and a San Jose Mercury News Top 20 Nonfiction Book of 2003 In 1606, approximately 105 British colonists sailed to America, seeking gold and a trade route to the Pacific. Instead, they found disease, hunger, and hostile natives. Ill prepared for such hardship, the men responded with incompetence and infighting; only the leadership of Captain John Smith averted doom for the first permanent English settlement in the New World. The Jamestown colony is one of the great survival stories of American history, and this book brings it fully to life for the first time. Drawing on extensive original documents, David A. Price paints intimate portraits of the major figures from the formidable monarch Chief Powhatan, to the resourceful but unpopular leader John Smith, to the spirited Pocahontas, who twice saved Smith's life. He also gives a rare balanced view of relations between the settlers and the natives and debunks popular myths about the colony. This is a superb work of history, reminding us of the horrors and heroism that marked the dawning of our nation.

monarch womens wellness chesapeake: Psychoanalysis of Technoscience Hub Zwart, 2019 This book presents a psychoanalysis of technoscience. Basic concepts and methods developed by Freud, Jung, Bachelard and Lacan are applied to case histories (palaeoanthropology, classical conditioning, virology). Rather than by disinterested curiosity, technoscience is driven by desire, resistance and the will to control. Moreover, psychoanalysis focusses on primal scenes (Dubois' quest for the missing link, Pavlov's discovery of the conditioned reflex) and opts for triangulation: comparing technoscience to different scenes provided by novels, so that Dubois's work is compared to missing link novels by Verne and London and Pavlov's experiments with Skinner's *Walden Two*, while virology is studied through the lens of viral fiction.

With recollection and reportage, Michael Pearson re-creates the Bronx of the 1950s and 1960s, an Irish Catholic culture filled with light and shadows. Pearson renders time and place vividly through his lyrical narrative voice and his generous spirit toward his characters. The driving force behind Pearson's story is its people—an enigmatic father, a steadfast mother, an eccentric and influential writing teacher, the boys and girls who shared his neighborhood, the high school girl who shared his vision and his life—and the books that made escape and return seem possible. Few writers go home again as successfully as Michael Pearson. When he literally and imaginatively revisits the all-but-unrecognizable Bronx of his youth, longing for its intense life, he concedes it was “close to paradise.” We understand perfectly.

monarch womens wellness chesapeake: *Interpreting Islam in China* Kristian Petersen, 2018 During the early modern period, Muslims in China began to embrace the Chinese characteristics of their heritage. Several scholar-teachers incorporated tenets from traditional Chinese education into their promotion of Islamic knowledge. As a result, some Sino-Muslims established an educational network which utilized an Islamic curriculum made up of Arabic, Persian, and Chinese works. The corpus of Chinese Islamic texts written in this system is collectively labeled the Han Kitab. *Interpreting Islam in China* explores the Sino-Islamic intellectual tradition through the works of some its brightest luminaries. Three prominent Sino-Muslim authors are used to illustrate transformations within this tradition, Wang Daiyu, Liu Zhi, and Ma Dexin. Kristian Petersen puts these scholars in dialogue and demonstrates the continuities and departures within this tradition. Through an analysis of their writings, he considers several questions: How malleable are religious categories and why are they variously interpreted across time? How do changing historical circumstances affect the interpretation of religious beliefs and practices? How do individuals navigate multiple sources of authority? How do practices inform belief? Overall, he shows that these authors presented an increasingly universalistic portrait of Islam through which Sino-Muslims were encouraged to participate within the global community of Muslims. The growing emphasis on performing the pilgrimage to Mecca, comprehensive knowledge of the Qur'an, and personal knowledge of Arabic stimulated communal engagement. Petersen demonstrates that the integration of Sino-Muslims within a growing global environment, where international travel and communication was increasingly possible, was accompanied by the rising self-awareness of a universally engaged Muslim community.

monarch womens wellness chesapeake: *Making Feminist Media* Elizabeth Groeneveld, 2016-08-30 *Making Feminist Media* provides new ways of thinking about the vibrant media and craft cultures generated by Riot Grrrl and feminism's third wave. It focuses on a cluster of feminist publications—including BUST, Bitch, HUES, Venus Zine, and Rockrgrrl—that began as zines in the 1990s. By tracking their successes and failures, this book provides insight into the politics of feminism's recent past. *Making Feminist Media* brings together interviews with magazine editors, research from zine archives, and analysis of the advertising, articles, editorials, and letters to the editor found in third-wave feminist magazines. It situates these publications within the long history of feminist publishing in the United States and Canada and argues that third-wave feminist magazines share important continuities and breaks with their historical forerunners. These publishing lineages challenge the still-dominant—and hotly contested—wave metaphor categorization of feminist culture. The stories, struggles, and strategies of these magazines not only represent contemporary feminism, they create and shape feminist cultures. The publications provide a feminist counter-public sphere in which the competing interests of editors, writers, readers, and advertisers can interact. *Making Feminist Media* argues that reading feminist magazines is far more than the consumption of information or entertainment: it is a profoundly intimate and political activity that shapes how readers understand themselves and each other as feminist thinkers.

Assuming countless forms, it is deeply associated both with life and death, body and soul, purity and pollution, creation and destruction. *The Concept of Water* seeks to bring together the various aspects of our deeply ambiguous relationship with water, providing a systematic account of its symbolic and philosophical significance. This involves looking at how water has been conceived and the role it has played in everyday thought, mythology, literature, religion, philosophy, politics and science, both across cultures and through history. R. D. V. Glasgow was born in Sheffield and currently lives in Zaragoza. His previous books are *Madness, Masks and Laughter* (1995), *Split Down the Sides* (1997), and *The Comedy of Mind* (1999).

monarch womens wellness chesapeake: *Jewish Bodylore* Amy K. Milligan, 2018-12-27 *Jewish Bodylore: Feminist and Queer Ethnographies of Folk Practices* explores the Jewish body and its

symbolology as a space for identity communication, applying the tools of bodylore (the folkloric study of the body) to the Jewish body in ways that are in line both with feminist and queer theory. The text centers a feminist folkloric approach to embodiment while simultaneously recognizing its overlaps with the study of Jewish bodies and symbols. It investigates Jewish embodiment with a keen eye to that which breaks from tradition. Consideration is given to the ways in which bodies intersect with time and space in the synagogue, within religious movements, in secular culture, and in childhood ritual. Representing a unique approach to contemporary Jewish Studies, this book argues that Jewish bodies and the intersections they represent are at the core of understanding the contemporary Jewish experience. Rather than abandoning or dismissing Judaism, many contemporary Jews use their bodies as a canvas, claiming space for themselves, demonstrating a deliberate and calculated navigation of Jewish law, and engaging a traditionally patriarchal symbol set which, in its feminist use, amplifies their voices in a context which might otherwise silence them. Through these actions and choices, contemporary Jews demonstrate a nuanced understanding of their public identities as gendered and sexed bodies and a commitment to working towards increased inclusivity within the larger Jewish and secular communities. In the end, this book is a foray into the world of Jewish bodies, how they can be conceptualized using folkloristics, and how feminist methodologies of the body can be applied fairly to Jewish bodies, celebrating the multitude of ways in which the body can be conceptualized and experienced.

monarch womens wellness chesapeake: A Mathematical Nature Walk John Adam, 2011-09-12 How heavy is that cloud? Why can you see farther in rain than in fog? Why are the droplets on that spider web spaced apart so evenly? If you have ever asked questions like these while outdoors, and wondered how you might figure out the answers, this is a book for you. An entertaining and informative collection of fascinating puzzles from the natural world around us, *A Mathematical Nature Walk* will delight anyone who loves nature or math or both. John Adam presents ninety-six questions about many common natural phenomena--and a few uncommon ones--and then shows how to answer them using mostly basic mathematics. Can you weigh a pumpkin just by carefully looking at it? Why can you see farther in rain than in fog? What causes the variations in the colors of butterfly wings, bird feathers, and oil slicks? And why are large haystacks prone to spontaneous combustion? These are just a few of the questions you'll find inside. Many of the problems are illustrated with photos and drawings, and the book also has answers, a glossary of terms, and a list of some of the patterns found in nature. About a quarter of the questions can be answered with arithmetic, and many of the rest require only precalculus. But regardless of math background, readers will learn from the informal descriptions of the problems and gain a new appreciation of the beauty of nature and the mathematics that lies behind it.

monarch womens wellness chesapeake: The Complete Lyrics of Oscar Hammerstein II Oscar Hammerstein II, 2008-11-25 From every "beautiful mornin'" to "some enchanted evening," the songs of Oscar Hammerstein II are part of our daily lives, his words part of our national fabric. Born into a theatrical dynasty headed by his grandfather and namesake, Oscar Hammerstein II breathed new life into the moribund art form of operetta by writing lyrics and libretti for such classics as *Rose-Marie* (music by Rudolf Friml), *The Desert Song* (Sigmund Romberg), *The New Moon* (Romberg) and *Song of the Flame* (George Gershwin). Hammerstein and Jerome Kern wrote eight musicals together, including *Sweet Adeline*, *Music in the Air*, and their masterpiece, *Show Boat*. The vibrant *Carmen Jones* was Hammerstein's all-black adaptation of the tragic opera by Georges Bizet. In 1943, Hammerstein, pioneer in the field of operetta, joined forces with Richard Rodgers, who had for the previous twenty-five years taken great strides in the field of musical comedy with his longtime writing partner, Lorenz Hart. The first Rodgers and Hammerstein work, *Oklahoma!*, merged the two styles into a completely new genre—the musical play—and simultaneously launched the most successful partnership in American musical theater. Over the next seventeen years, Rodgers and Hammerstein wrote eight more Broadway musicals: *Carousel*, *Allegro*, *South Pacific*, *The King and I*, *Me and Juliet*, *Pipe Dream*, *Flower Drum Song*, and *The Sound of Music*. They also wrote a movie musical (*State Fair*) and one for television (*Cinderella*). Collectively their works have

earned dozens of awards, including Pulitzers, Tonys, Oscars, Grammys, and Emmys. Throughout his career, Hammerstein created works of lyrical beauty and universal feeling, and he continually strove—sometimes against fashion—to seek out the good and beautiful in the world. “I know the world is filled with troubles and many injustices,” he once said. “But reality is as beautiful as it is ugly . . . I just couldn’t write anything without hope in it.” All of his lyrics are here—850, more than a quarter published for the first time—in this sixth book in the indispensable Complete Lyrics series that has also brought us the lyrics of Cole Porter, Lorenz Hart, Ira Gershwin, Irving Berlin, and Frank Loesser. From the young scribe’s earliest attempts to the old master’s final lyric—“Edelweiss”—we can see, read, and, yes, sing the words of a theatrical and lyrical genius.

Amy K. Milligan, 2014-09-24 Hair, Headwear, and Orthodox Jewish Women comments on hair covering based on an ethnographic study of the lives of Orthodox Jewish women in a small non-metropolitan synagogue. It brings the often overlooked stories of these women to the forefront and probes questions as to how their location in a small community affects their behavioral choices, particularly regarding the folk practice of hair covering. A kallah, or bride, makes the decision as to whether or not she will cover her hair after marriage. In doing so, she externally announces her religious affiliation, in particular her commitment to maintaining an Orthodox Jewish home. Hair covering practices are also unique to women’s traditions and point out the importance of examining the women, especially because their cultural roles may be marginalized in studies as a result of their lack of a central role in worship. This study questions their contribution to Orthodoxy as well as their concept of Jewish identity and the ways in which they negotiate this identity with ritualized and traditional behavior, ultimately bringing into question the meaning of tradition in a modern world.

Greg Anderson, 2018-03-29 Featuring a sweeping array of essays from scholars of state formation and development, this book presents an overview of approaches to studying the history of the state. Focusing on the question of state formation, this volume takes a particular look at the beginnings, structures, and constant reforming of state power. Not only do the contributors draw upon both modernist and postmodernist theoretical perspectives, they also address the topic from a global standpoint, examining states from all areas of the world. In their diverse and thorough exploration of state building, the authors cross the theoretical, geographic, and chronological boundaries that traditionally shape this field in order to rethink the customary macro and micro approaches to the study of state building and make the case for global histories of both pre-modern and modern state formations.

monarch womens wellness chesapeake: The Path of Humility Anne H. Muraoka, 2015 The Path of Humility: Caravaggio and Carlo Borromeo establishes a fundamental relationship between the Franciscan humility of Archbishop of Milan Carlo Borromeo and the Roman sacred works of Caravaggio. This is the first book to consider and focus entirely upon these two seemingly anomalous personalities of the Counter-Reformation. The import of Caravaggio's Lombard artistic heritage has long been seen as pivotal to the development of his sacred style, but it was not his only source of inspiration. This book seeks to enlarge the discourse surrounding Caravaggio's style by placing him firmly in the environment of Borromean Milan, a city whose urban fabric was transformed into a metaphorical Via Crucis. This book departs from the prevailing preoccupation - the artist's experience in Rome as fundamental to his formulation of sacred style - and toward his formative years in Borromeo's Milan, where humility reigned supreme. This book is intended for a broad, yet specialized readership interested in Counter-Reformation art and devotion. It serves as a critical text for undergraduate and graduate art history courses on Baroque art, Caravaggio, and Counter-Reformation art.

monarch womens wellness chesapeake: Blackout Joan Grossman, 2009-07 History is marked by catastrophic events that defy meaning and understanding. The 20th century was a century of prosperity and progress; it was also history's bloodiest. The death toll from war and genocide reached 140 million people. Trauma of this magnitude poses grave challenges to memory and thought. This work explores failures of memory and cognition - the blackout - as a condition that plagues history, and is particularly problematic in an era of media, in which memory is increasingly disembodied and virtualized, undermined by a Generalized Media Disorder. Technologies of media and war are creating a condition in which the virtual world is displacing the ethical world. BLACKOUT traces this phenomenon through a century of upheaval - from World War I, which exceeded all previous notions of destruction, to the War on Terror, a perpetual war in a realm of perpetual media. World War II is particularly significant in its deployment of previously unfathomable technologies of disappearance - extermination, nuclear weapons, and the massive incineration of cities in Germany and Japan. The blackout is a space of memory and thinking that collapses with catastrophe and falls into a stupor. Our humanity has been nearly extinguished by the tremendous violence it has enacted, pushing philosophy, language and ethics to their limits. Joan Grossman is an award-winning documentary filmmaker and video artist, based in Brooklyn, New York. Her work has been shown in more than 20 countries. She also teaches media theory and production, and received her doctorate in Media Philosophy from the European Graduate School in Switzerland.
