Understanding the NewVue Philosophy: More Than Just Skin Deep

NewVue Dermatology Aesthetics Wellness isn't just another clinic; it's a sanctuary dedicated to your holistic well-being. We understand that skin health is intrinsically linked to overall health. Our approach is comprehensive, addressing both the internal and external factors that contribute to your appearance and self-esteem. We go beyond superficial treatments, focusing on preventative care, personalized solutions, and a nurturing environment designed to make you feel comfortable and cared for. We believe in empowering you with knowledge and providing you with the tools to maintain your results long-term.

Expert Dermatology Care at NewVue: Addressing Your Skin Concerns

Our expert dermatologists at NewVue offer a wide range of services to address all your skin concerns, from common issues to complex conditions. We provide comprehensive diagnostic evaluations, personalized treatment plans, and ongoing support to help you achieve and maintain healthy, vibrant skin. Our services include:

Medical Dermatology: Diagnosis and treatment of skin conditions like acne, eczema, psoriasis, rosacea, and skin cancer. We employ the latest medical advancements and techniques to provide effective and safe treatment options.

Cosmetic Dermatology: We offer a range of non-invasive cosmetic procedures to rejuvenate and enhance your appearance. This includes chemical peels, microdermabrasion, and laser treatments designed to address wrinkles, pigmentation, and texture concerns.

Skin Cancer Screening: Early detection is crucial in the fight against skin cancer. We offer thorough skin cancer screenings using advanced technology to identify any suspicious lesions and recommend appropriate treatment.

Elevate Your Beauty: Aesthetics Services at NewVue

At NewVue, we believe in enhancing your natural beauty, not masking it. Our aesthetic services are designed to subtly improve your features and boost your confidence. Our skilled aestheticians utilize advanced techniques and premium products to deliver exceptional results. Our services include:

Botox and Fillers: Reduce wrinkles and restore volume to your face with our expertly administered Botox and dermal filler treatments. We focus on achieving natural-looking results that enhance your features without appearing artificial.

Microneedling: Stimulate collagen production and improve skin texture with our microneedling treatments. This minimally invasive procedure helps reduce the appearance of scars, wrinkles, and acne marks.

Chemical Peels: Reveal brighter, smoother skin with our customized chemical peel treatments. We offer a variety of peel strengths to address different skin concerns and types.

Facials: Indulge in a luxurious facial tailored to your specific skin needs. Our facials incorporate high-quality products and techniques to cleanse, exfoliate, and hydrate your skin, leaving it feeling refreshed and rejuvenated.

Wellness Programs: The Foundation of Radiant Health

At NewVue, we understand that true beauty starts from within. That's why we offer wellness programs designed to support your overall health and well-being. These programs may include:

Nutritional Counseling: Learn how to optimize your diet to support healthy skin and overall wellness. Our nutrition experts can help you create a personalized eating plan to nourish your body from the inside out.

Lifestyle Coaching: Develop healthy habits that contribute to radiant skin and a more fulfilling life. Our coaches can guide you in areas such as stress management, sleep hygiene, and exercise.

Customized Skincare Plans: Receive personalized recommendations for skincare products and routines to address your unique skin concerns and achieve optimal results.

newvue dermatology aesthetics wellness: Dirty Looks Whitney Bowe, 2018-04-17

Internationally renowned dermatologist and research scientist Dr. Whitney Bowe presents, for the first time, the connection between a healthy gut and radiant, clear skin, with a 21-day program to maximize skin health and beauty. Every year, nearly 80 million Americans will consult their doctors about their skin. In fact, skin disorders beat out anxiety, depression, back pain, and diabetes as the number one reason Americans see their doctors. Unfortunately, however, the vast majority will receive only a surface-level treatment, leaving the underlying conditions at the root of their skin issues unresolved. Skin doesn't lie; it reflects overall health in unimaginable ways. In *The Beauty of Dirty Skin*, internationally renowned dermatologist and scientist Dr. Whitney Bowe shows readers that skin health is much more than skin deep. As a pioneering researcher on the cutting edge of the gut-brain-skin axis, she explains how the spectrum of skin disorders -- from stubborn acne and rosacea to psoriasis, eczema, and premature wrinkling -- are manifestations of irregularities rooted in the gut. Lasers, scalpels, creams, and prescription pads alone will not guarantee the consistently healthy, glowing skin we all seek. Instead, Dr. Bowe focuses on the microbiome -- where trillions of microbes speak to your skin via the brain -- and highlights the connection between sleep, stress,

diet, gastrointestinal health, and the health of your skin. With simple explanations of the science, do-it-yourself practical skincare strategies, and a life-changing 21-day program, *The Beauty of Dirty Skin* is your roadmap to great skin from the inside out and the outside in.

newvue dermatology aesthetics wellness: *Minimally Invasive Aesthetic Procedures* Adilson Da Costa, 2020-02-24 Minimally invasive aesthetic procedures are an important part of dermatologists' day-to-day clinical routine. However, plastic surgeons are also becoming more willing to explore them, and minimally invasive cosmetic and aesthetic procedures are now an established interdisciplinary topic. *Minimally Invasive Aesthetic Procedures - A Guide for Dermatologists and Plastic Surgeons* addresses the needs of both these specialties. It provides a comprehensive overview of the most relevant and widely used minimally invasive procedures, presented in a practical and straightforward style. Rather than a broad overview of the literature, it offers a step-by-step guide to clinical procedures. Each chapter explores a single clinical procedure, discussing the theoretical basis; the materials needed; the methods and techniques; clinical follow-up; before-and-after illustrations; as well as the side effects and complications and their management. It also includes a summary of tips and relevant references. With more than a hundred procedures presented and discussed in a clinically applicable format, *Minimally Invasive Aesthetic Procedures - A Guide for Dermatologists and Plastic Surgeons* is a practical manual for all dermatology and plastic surgery practitioners who are interested in aesthetic medicine.
