onlime business communication bezen: Motivation in Online Education Maggie Hartnett, 2016-03-08 This work explores and explicates learner motivation in online learning environments. More specifically, it uses a case-study approach to examine undergraduate students' motivation within two formal and separate online learning contexts. In doing so, it recognizes the mutually constitutive relationship of the learner and the learning environment in relation to motivation. This is distinctive from other approaches that tend to focus on designing and creating motivating environments or, alternatively, concentrate on motivation as a stable learner characteristic. In particular, this book identifies a range of factors that can support or undermine learner motivation and discusses each in detail. By unraveling the complexity of learner motivation in such environments, it provides useful guidelines for teachers, instructional designers and academic advisors tasked with building and teaching within online educational contexts.

onlime business communication bezen: The Science of Citizen Science Katrin Vohland, Anne Land-zandstra, Luigi Ceccaroni, Rob Lemmens, Josep Perelló, Marisa Ponti, Roeland Samson, Katherin Wagenknecht, 2021 This open access book discusses how the involvement of citizens into

scientific endeavors is expected to contribute to solve the big challenges of our time, such as climate change and the loss of biodiversity, growing inequalities within and between societies, and the sustainability turn. The field of citizen science has been growing in recent decades. Many different stakeholders from scientists to citizens and from policy makers to environmental organisations have been involved in its practice. In addition, many scientists also study citizen science as a research approach and as a way for science and society to interact and collaborate. This book provides a representation of the practices as well as scientific and societal outcomes in different disciplines. It reflects the contribution of citizen science to societal development, education, or innovation and provides an overview of the field of actors as well as on tools and guidelines. It serves as an introduction for anyone who wants to get involved in and learn more about the science of citizen science.

online business communication bezen: Renegades Adrian Weale, 2014-11-12 At the end of the Second World War, nearly 200 British citizens were under investigation for assisting Nazi Germany. Some have remained notorious, such as William Joyce (Lord Haw-Haw) and John Amery who went to the gallows for High Treason, but as this meticulously researched study shows, men like Joyce and Amery are only the visible part of a much larger and more intriguing story below the surface. *Renegades* is drawn entirely from original documentary material, eyewitness accounts and intelligence files. Adrian Weale traces the course of treason in the Second World War from its roots in Oswald Mosley's British Union of Fascists, through the war and subsequent investigations by MI5, up to the trial, imprisonment and in some cases execution of the traitors. Since *Renegades* was first published in 1994, many files previously restricted by privileged access have been released into the Public Records Office, and a number of other files, including several from MI5, have become available. Adrian Weale has revised his book, incorporating this new material, making *Renegades* a more comprehensive and authoritative study. Much here will be new to historians, including the first complete account of the British Free Corps - the Waffen-SS unit composed entirely of British subjects - and the identity of all its members, some of whom have been interviewed for this book. Also revealed is the extraordinary career of the conman who joined the Special Air Service and who, after capture by the Germans, informed on his POW camp comrades before volunteering to fight with the Waffen-SS on the Russian front; and in France, the story of the middle-aged British spinster who joined the Gestapo. Though regarded as highly dangerous at the time, German efforts to cultivate traitors in British ranks were for the most part stunningly unsuccessful - not least, as this book reveals, because much of that effort was entrusted to a British Fascist turned double agent at work in the heart of the Third Reich.

online business communication bezen: Graveyard Clay Máirtín Ó Cadhain, 2016-03-28 In critical opinion and popular polls, Máirtín Ó Cadhain's *Graveyard Clay* is invariably ranked the most important prose work in modern Irish. This bold new translation of his radically original *Cré na Cille* is the shared project of two fluent speakers of the Irish of Ó Cadhain's native region, Liam Mac Con Iomaire and Tim Robinson. They have achieved a lofty goal: to convey Ó Cadhain's meaning accurately and to meet his towering literary standards. *Graveyard Clay* is a novel of black humor, reminiscent of the work of Synge and Beckett. The story unfolds entirely in dialogue as the newly dead arrive in the graveyard, bringing news of recent local happenings to those already confined in their coffins. Avalanches of gossip, backbiting, flirting, feuds, and scandal-mongering ensue, while the absurdity of human nature becomes ever clearer. This edition of Ó Cadhain's masterpiece is enriched with footnotes, bibliography, publication and reception history, and other materials that invite further study and deeper enjoyment of his most engaging and challenging work.

online business communication bezen: Reflexivity Linda Finlay, Brendan Gough, 2008-04-15 *Reflexivity* is a popular tool used to analyse personal, intersubjective and social processes which shape research projects. It enables researchers, particularly within the qualitative

tradition, to acknowledge their role and the situated nature of their research. In the current climate, which sees the popularity of qualitative methods coupled with increased public and professional scrutiny of research, reflexivity provides a means of bolstering greater transparency and quality in research. This book recognises the considerable value of reflexivity to researchers, and provides a means to navigate this field. The book is foremost a practical guide which examines reflexivity at different stages of the research process. The editors and contributors offer candid approaches to the subject, which supply readers with diverse strategies on how to do reflexivity in practice. Features *

- * Provides an accessible, practical guide to reflexive research processes, methods and outcomes
- * Encompasses both the health and social science fields
- * Includes contributions from international researchers

The book is aimed at postgraduate and final year students of health and social sciences. Interested clinicians will also find useful insights in the text.

online business communication bezen: Cultural Memories Peter Meusbürger, Michael Heffernan, Edgar Wunder, 2011-05-11 The revival of interest in collective cultural memories since the 1980s has been a genuinely global phenomenon. Cultural memories can be defined as the social constructions of the past that allow individuals and groups to orient themselves in time and space. The investigation of cultural memories has necessitated an interdisciplinary perspective, though geographical questions about the spaces, places, and landscapes of memory have acquired a special significance. The essays in this volume, written by leading anthropologists, geographers, historians, and psychologists, open a range of new interpretations of the formation and development of cultural memories from ancient times to the present day. The volume is divided into five interconnected sections. The first section outlines the theoretical considerations that have shaped recent debates about cultural memory. The second section provides detailed case studies of three key themes: the founding myths of the nation-state, the contestation of national collective memories during periods of civil war, and the oral traditions that move beyond national narrative. The third section examines the role of World War II as a pivotal episode in an emerging European cultural memory. The fourth section focuses on cultural memories in postcolonial contexts beyond Europe. The fifth and final section extends the study of cultural memory back into premodern tribal and nomadic societies.

We're pleased to welcome you to the 8th Migration Conference. The Migration Conference 2020 is held online via Microsoft Teams platform due to COVID-19 Pandemic restrictions. We have as usual covering a wide array of topics in this year's edition too. There are about 350 presentations and debates running over 4 days from 8th to 11th September 2020. We have tried to address the time zone differences by moving sessions towards mid-day and grouping presentations, where possible, according to time zones. However, we believe this is not perfect to accommodate hundreds of colleagues from Brazil to Japan, and Australia to Canada. PLEASE NOTE all times are GMT+1 British Summer Time (BST). MS Teams will normally show the times according to your computers local time. Our all-women keynote speakers line up this year features Nissa Finney, Jelena Dzankic, Martina Cvajner, Elli Heikkilä, Agnes Igoye, and Helén Nilsson. Although the main language of the conference is English, this year we will have linguistic diversity as usual and there will also be some sessions in Spanish and Turkish. We thank all participants, invited speakers and conference committees for their efforts and contribution. We are particularly grateful to hundreds of colleagues who served as reviewers and helped the selection process.

A New York Times bestseller! JOSEF is a Jewish boy living in 1930s Nazi Germany. With the threat of concentration camps looming, he and his family board a ship bound for the other side of the world... ISABEL is a Cuban girl in 1994. With riots and unrest plaguing her country, she and her family set out on a raft, hoping to find safety in America... MAHMOUD is a Syrian boy in 2015. With his homeland torn apart by violence and

destruction, he and his family begin a long trek toward Europe... All three kids go on harrowing journeys in search of refuge. All will face unimaginable dangers -- from drownings to bombings to betrayals. But there is always the hope of tomorrow. And although Josef, Isabel, and Mahmoud are separated by continents and decades, shocking connections will tie their stories together in the end. As powerful and poignant as it is action-packed and page-turning, this highly acclaimed novel has been on the New York Times bestseller list for more than four years and continues to change readers' lives with its meaningful takes on survival, courage, and the quest for home.

online business communication bezen: Nutrient Requirements of Dairy Cattle National Research Council, Board on Agriculture and Natural Resources, Committee on Animal Nutrition, Subcommittee on Dairy Cattle Nutrition, 2001-02-09 This widely used reference has been updated and revamped to reflect the changing face of the dairy industry. New features allow users to pinpoint nutrient requirements more accurately for individual animals. The committee also provides guidance on how nutrient analysis of feed ingredients, insights into nutrient utilization by the animal, and formulation of diets to reduce environmental impacts can be applied to productive management decisions. The book includes a user-friendly computer program on a compact disk, accompanied by extensive context-sensitive Help options, to simulate the dynamic state of animals. The committee addresses important issues unique to dairy science--the dry or transition cow, udder edema, milk fever, low-fat milk, calf dehydration, and more. The also volume covers dry matter intake, including how to predict feed intake. It addresses the management of lactating dairy cows, utilization of fat in calf and lactation diets, and calf and heifer replacement nutrition. In addition, the many useful tables include updated nutrient composition for commonly used feedstuffs.

online business communication bezen: The Dirty Dust Máirtín Ó Cadhain, 2015-03-01 Máirtín Ó Cadhain's irresistible and infamous novel *The Dirty Dust* is consistently ranked as the most important prose work in modern Irish, yet no translation for English-language readers has ever before been published. Alan Titley's vigorous new translation, full of the brio and guts of Ó Cadhain's original, at last brings the pleasures of this great satiric novel to the far wider audience it deserves. In *The Dirty Dust* all characters lie dead in their graves. This, however, does not impair their banter or their appetite for news of aboveground happenings from the recently arrived. Told entirely in dialogue, Ó Cadhain's daring novel listens in on the gossip, rumors, backbiting, complaining, and obsessing of the local community. In the afterlife, it seems, the same old life goes on beneath the sod. Only nothing can be done about it--apart from talk. In this merciless yet comical portrayal of a closely bound community, Ó Cadhain remains keenly attuned to the absurdity of human behavior, the lilt of Irish gab, and the nasty, deceptive magic of human connection.

After a brief review of the research background and of the project itself, successive chapters describe the specific practices which teachers found fruitful and the underlying ideas about learning that these developments illustrate. Later chapters discuss the problems that teachers encountered when implementing the new practices in their classroom and give guidance for school management and LEAs about promoting and supporting the changes. --from publisher description

online business communication bezen: Social Media in Academia George Veletsianos, 2016-01-08 Social media and online social networks are expected to transform academia and the scholarly process. However, intense emotions permeate scholars' online practices and an increasing number of academics are finding themselves in trouble in networked spaces. In reality, the evidence describing scholars' experiences in online social networks and social media is fragmented. As a result, the ways that social media are used and experienced by scholars are not well understood.

Social Media in Academia examines the day-to-day realities of social media and online networks for scholarship and illuminates the opportunities, tensions, conflicts, and inequities that exist in these spaces. The book concludes with suggestions for institutions, individual scholars, and doctoral students regarding online participation, social media, networked practice, and public scholarship.

online business communication bezen: NorFor - Harald Volden, 2011-10-05 NorFor is a semi-mechanistic feed evaluation system for cattle, which is used by advisors in Denmark, Iceland, Norway and Sweden. This book describes in detail the system and it covers five main sections. The first is concerned with information on feed characteristics, feed analysis and feed digestion methods. The second section describes the digestion and metabolism in the gastrointestinal tract and the supply and requirement of energy and metabolizable amino acids. The third section considers the prediction of feed intake and physical structure of the diet. The fourth section focuses on model evaluation and the final section provides information on the IT solutions and feed ration formulation by a non-linear economical optimization procedure. This book will be of significant interest to researchers, students and advisors of cattle nutrition and feed evaluation.

online business communication bezen: Demonization in International Politics Linn Normand, 2016-06-08 This book investigates demonization in international politics, particularly in the Middle East. It argues that while demonization's origins are religious, its continued presence is fundamentally political. Drawing upon examples from historical and modern conflicts, this work addresses two key questions: Why do leaders demonize enemies when waging war? And what are the lasting impacts on peacemaking? In providing answers to these inquiries, the author applies historical insight to twenty-first century conflict. Specific attention is given to Israel and Palestine as the author argues that war-time demonization in policy, media, and art is a psychological and relational barrier during peace talks.

Reece, 1977 This political history of modern Brittany focuses on the social, cultural, and economic factors underlying Breton nationalism. Brittany is characterized by small land holdings, poverty, and the social afflictions that accompany chronically depressed areas. Reece describes the formulation in 1898 of the Union Regionaliste Bretonne and the subsequent movements toward nationalism, autonomy, and separatism. Originally published in 1977. A UNC Press Enduring Edition -- UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original, and are presented in affordable paperback formats, bringing readers both historical and cultural value.

online business communication bezen: *Financing Terrorism* Michael Freeman,

2016-04-15 Without money, terrorists cannot function as organizations and cannot conduct attacks. Yet the questions remain, how vulnerable are terrorists to financial disruptions? Can governments put pressure on their finances in meaningful ways or are they too resilient and adaptive to be affected by state actions? These and other questions about terrorism financing are vigorously debated by scholars and policymakers, particularly since the attacks of September 11th 2001. While there is a growing literature on policy issues, strategies, and countermeasures, states must first understand their enemies before developing strategies to defeat them. So, instead of focusing on the state response, this book asks a more foundational question: How do different terrorist groups actually raise money? What are their budgets? What do their portfolios look like? How have they changed over time? What are the advantages and disadvantages of different sources of financing? The book includes case studies of 11 different terrorist groups or sets of groups within a country. It is clear that each group has a different portfolio tailored to their needs and their environment and this makes countering terrorist financing more challenging for the state. This topical book will be required reading for all students and scholars interested in terrorism financing as well as those working in government agencies tasked with combating terrorist groups and their financial resources.

online business communication bezen: Open Gaza Michael Sorkin, Deen Sharp, 2020-12-29 Cutting-edge analysis on how to improve life inside the Gaza Strip through architecture and design, illustrated in full-color The Gaza Strip is one of the most beleaguered environments on earth. Crammed into a space of 139 square miles (360 square kilometers), 1.8 million people live under an Israeli siege, enforcing conditions that continue to plummet to ever more unimaginable depths of degradation and despair. Gaza, however, is more than an endless encyclopedia of depressing statistics. It is also a place of fortitude, resistance, and imagination; a context in which inhabitants go to remarkable lengths to create the ordinary conditions of the everyday and to reject their exceptional status. Inspired by Gaza's inhabitants, this book builds on the positive capabilities of Gazans. It brings together environmentalists, planners, activists, and scholars from Palestine and Israel, the US, the UK, India, and elsewhere to create hopeful interventions that imagine a better place for Gazans and Palestinians. Open Gaza engages the Gaza Strip within and beyond the logics of siege and warfare, it considers how life can be improved inside the limitations imposed by the Israeli blockade, and outside the idiocy of violence and warfare. online business communication bezen: The European Union's Brand of Peacebuilding Birgit Poopuu, 2020-08-16 "Conceptually and empirically, this is the most thoughtful analysis of the role of EU's peace missions I have read so far. It starts with the 'action for the sake of action' logic of CSDP development and offers a new interpretation of what CSDP could be, if just peace was part of its

political agenda. A rare gem in European studies.”— Xymena Kurowska, Associate Professor of International Relations at Central European University, Hungary “This impressive research monograph provides a critical account of EU’s peace missions by asking what these missions offer, how peace is built, and whom these missions serve. To address these important questions, Birgit Poopuu develops and employs an original and sophisticated discursive framework of telling and acting to conduct an in-depth investigation of EU peace missions Artemis in the DRC, EUFOR Althea in Bosnia-Herzegovina, and EULEX in Kosovo. This book’s ground-breaking exploration advances the study of the EU as a peacebuilder.”— Annika Björkdahl, Professor of Political Science, Lund University, Sweden, and Editor in Chief of Cooperation and Conflict This book critically explores the European Union’s brand of peacebuilding in the form of its Common Security and Defence Policy (CSDP). A contextually close reading of EU missions – using the fluid categories of telling and acting, stressing the dialogical ways of being, and taking heed of the concept of just peace as a particular guide to building peace – allows the book to tap into the specific meanings the EU has of peace, the ways in which it imagines its relationships with its varied partners, and perhaps most controversially, the way that being/becoming a global actor has been front and center of the CSDP. The analysis focuses on three core missions in the Democratic Republic of the Congo, Bosnia-Herzegovina, and Kosovo. One of the recurring themes that emerges from the empirical chapters is the significance attached to acting, and that acting per se constitutes success of a mission, without much thought given to its substance, or the outcome of the EU’s engagement. The imaginative force of this book rests on developing a set of context-sensitive analytical tools, encapsulated in the dialogical model of identity formation and the dynamic approach to analysing identity through telling and acting.

online business communication bezen: Eu-Turkey Relations Özge Zihnioğlu, 2021-09-30 This book focuses on the hidden but ever-present civil society dimension of the EU’s policies towards Turkey and uncovers the pitfall of EU-Turkey relations. It establishes the growing depoliticization of Turkish civil society (in contrast to what the EU’s policies aimed for) and engages with the questions of why and how Turkish civil society depoliticized. It discusses how Turkey’s retreating democracy, and the intense polarization in Turkish political and social life make rights-based activism more difficult. Finally, this book investigates what implications Turkish civil society’s depoliticization bears for EU-Turkey relations, reveals the diminishing leverage of the EU’s policies and discusses how this reflects on Turkey’s already closing civic space. It explains why and how EU-Turkey relations deteriorated over the last decade, examines the current stalemate, and discusses why civil society matters. This text will be of key interest to scholars and students in the field of EU-Turkey relations, Turkish studies and civil society studies as well as more broadly to NGOs, European studies and politics, and International Relations.

Harrison, Aurélie Joubert, 2018-11-11 This edited volume presents an analysis of the evolution of French language policies and their impact on French regional languages and their communities. It gathers studies on language revitalisation from several territorial minority languages (Breton, Alsatian, Catalan, Occitan, Basque, Corsican, Francoprovençal, Picard, Reunionese) and evaluates the challenges and opportunities that they face in the 21st century. The chapters tackle different aspects of language endangerment and language planning and adopt varied theoretical and methodological approaches. The first section of the book reconsiders the difficulties in establishing linguistic boundaries and classification for some regional languages. The second section examines the important theme of the

new generation of speakers with issues of transmission and identity formation and the changes they can bring to traditional communities. The third section highlights new developments in the context of new technologies and the heightened visibility of regional languages. Finally, the last section presents an overview of the contemporary situation of minority language revitalisation in France and synthesises the key trends identified in this volume: from the educational domain to the European Charter for Minority and Regional languages. This book will appeal to students and scholars of the sociology of language, sociolinguistics, language policy, minority languages and language endangerment.

This book focuses on the Middle East, where many nations are part of this global phenomenon as both home, transit and/or host country. *Refugee Governance, State and Politics in the Middle East* examines the patterns of legal, political and institutional responses to large-scale Syrian forced migration. It analyses the motivations behind neighbouring countries' policy responses, how their responses change over time and how they have an impact on regional and global cooperation. Looking in particular at Turkey, Lebanon and Jordan, three of the world's top refugee hosting countries, this book explores how refugee governance differs across countries and why they diverge. To theorize variations, the book introduces multi-pattern and multi-stage refugee governance models as two complementary analytical frameworks. The book further argues that each of these three states' refugee responses is constructed based on three main factors: internal political interests, economic-development related concerns, and foreign policy objectives as well as interactions among them. The book's categorizations and models (on policy fields, actors, stages, patterns and driving forces) provide analytical tools to researchers for comparative analyses. Scholars and students of Comparative Politics, International Relations, Refugee Studies, Global Governance and Middle Eastern Studies will find this book a useful contribution to their fields.

online business communication bezen: *Shooting Up* Vanda Felbab-Brown, 2009-12-01 Most policymakers see counterinsurgency and counternarcotics policy as two sides of the same coin. Stop the flow of drug money, the logic goes, and the insurgency will wither away. But the conventional wisdom is dangerously wrongheaded, as Vanda Felbab-Brown argues in *Shooting Up*. Counternarcotics campaigns, particularly those focused on eradication, typically fail to bankrupt belligerent groups that rely on the drug trade for financing. Worse, they actually strengthen insurgents by increasing their legitimacy and popular support. Felbab-Brown, a leading expert on drug interdiction efforts and counterinsurgency, draws on interviews and fieldwork in some of the world's most dangerous regions to explain how belligerent groups have become involved in drug trafficking and related activities, including kidnapping, extortion, and smuggling. *Shooting Up* shows vividly how powerful guerrilla and terrorist organizations — including Peru's Shining Path, the FARC and the paramilitaries in Colombia, and the Taliban in Afghanistan — have learned to exploit illicit markets. In addition, the author explores the interaction between insurgent groups and illicit economies in frequently overlooked settings, such as Northern Ireland, Turkey, and Burma. While aggressive efforts to suppress the drug trade typically backfire, *Shooting Up* shows that a laissez-faire policy toward illicit crop cultivation can reduce support for the belligerents and, critically, increase cooperation with government intelligence gathering. When combined with interdiction targeting major traffickers, this strategy gives policymakers a better chance of winning both the war against the insurgents and the war on drugs.

online business communication bezen: Constitutionalism and Democracy Richard Bellamy, 2017-07-05 Constitutionalism and democracy have been interpreted as both intimately related and intrinsically opposed. On the one hand constitutions are said to set out the rules of the democratic game, on the other as constraining the power of the demos and their representatives to rule themselves - including by reforming the very processes of democracy itself. Meanwhile, constitutionalists themselves differ on how far any constitution derives its authority from, and should itself be subject to democratic endorsement and interpretation. They also dispute whether constitutions should refer solely to democratic processes, or also define and limit democratic goals. Each of these positions produces a different view of judicial review, the content and advisability of a Bill of Rights and the nature of constitutional politics. These differences are not simply academic positions, but are reflected in the different types of constitutional democracy found in the United States, continental Europe, Britain and many commonwealth countries. The selected essays explore these issues from the perspectives of law, philosophy and political science. A detailed and informative introduction sets them in the context of contemporary debates about constitutionalism.

Irons, 2016-07-05 *The Courage of their Convictions* cites sixteen landmark civil liberties cases and the individuals who challenged laws that they felt impinged upon their personal freedom and who took their battles to the nation's highest court of law. "Thank goodness for the sixteen brave men and women who fought official intolerance all the way to the US Supreme Court. And thanks to the Peter Irons for presenting their moving personal reasons, in their own words, for questioning authority. Like Anthony Lewis's *Gideon's Trumpet*, this book presents constitutional law with a human face. It will be a classic." —Norman Dorsen, President, American Civil Liberties Union New York University Law School "A fascinating account of how complex, multi-faceted conduct by individual citizens is forced into narrow, legal categories for decision by our judicial system." —Thomas I. Emerson, Yale Law School

Particular attention is given to the role of these unique diasporas in the functioning of the six great European world maritime empires of the time - the Venetian, Spanish, Portuguese, Dutch, English and French. New material and argument is offered relating to the questions of diaspora formation, Sephardic social practices, crypto-Judaism, religious syncretism, cross-cultural brokerage, and the contribution of diasporas to European expansion.

online business communication bezen: *A History of Saudi Arabia* Madawi al-Rasheed, 2002-07-11 Saudi Arabia is a wealthy and powerful country which wields influence in the West and across the Islamic world. Yet it remains a closed society. Its history in the twentieth century is dominated by the story of state formation. After the collapse of the Ottoman Empire, Ibn Sa'ud fought a long campaign to bring together a disparate people from across the Arabian peninsula. In 1932 the Kingdom of Saudi Arabia was born. Madawi al-Rasheed traces its extraordinary history from the age of emirates in the nineteenth century, through the 1990 Gulf War, to the present day.

She fuses chronology with analysis, personal experience with oral histories, and draws on local and foreign documents to illuminate the social and cultural life of the Saudis. This is a rich and rewarding book which will be invaluable to students, and to all those trying to understand the enigma of Saudi Arabia.

online business communication bezen: Turkey's Kurdish Question Henri J. Barkey, 2000-01-01 The Kurds, one of the oldest ethnic groups in the Middle East, are reasserting their identity—politically and through violence. Divided mainly among Turkey, Iran, Iraq, and Syria, the Kurds have posed increasingly sharp challenges to all of these states in their quest for greater autonomy if not outright independence. Turkey's essentially democratic structure and civil society_ideal tools for coping with and incorporating minority challenge_have so far been suspended on this issue, which the government is treating almost exclusively as a security problem to be dealt with by force. For the West the situation in Turkey is particularly significant because of the country's importance in the region and because of the economic, political, and diplomatic damage that the conflict has caused. If Turkey fails to find a peaceful solution within its current borders, then the outlook is grim for ethnic and separatist challenges elsewhere in the region. This study explores the roots, dimensions, character, and evolution of the problem, offers a range of approaches to a resolution of the conflict, and draws broader parallels between the Kurdish question and other separatist movements worldwide.
