revive health and wellness: The Journey from Illness to Wellness (I to WE) Debi Prasad Acharjya, 2019-08-27 Are you ready to transform your current thoughts, beliefs and assumptions? Are you ready to optimize your health and energy, amplify your physical strength and create outrageous results in every single area of your life? Humans possess an innate self-healing potential, an 'inner wisdom of the body'. Accessing this self-healing system is the primary goal of the healing arts. And addressing the cause of any illness is the first step towards accessing the body's own healing potential. Too much health emphasis today is on the magic bullets (introduced every other day) to fix sickness. Even with drugs, the body does the healing. The medical profession will openly admit that they do not have a cure for any autoimmune disease and can only treat to offer relief to victims. Which is why natural, non-pharmaceutical measures should generally be the first approach - not the last resort! Both in the Indian system of Ayurveda and even in modern medicine, there have been attempts to stress the role of the mind in disease. William Harvey so graphically described the role of the mind in disease when he wrote in 1648 AD, "When in anger, the pupils contract, in infamy and shame, the cheeks blush, in lust does the member gets distended and erected in no time!"

revive health and wellness: Switchwords For Health & Weight Loss Miracles: The Subtle Art Of Giving A F*ck About The Words You Speak! Monika Pavlickova, 2020-03-18 Apply the power of MAGICAL WORDS to improve your health and lose weight fast. WARNING! Cookie-cutter weight loss advice is at epidemic proportions. Case in point: The world is fatter than ever before, despite the books shelves bulging with diet advice! Most guys have no idea that a major obstacle to you having a slim and toned body is in what you think, speak and eat. This problem is made 100X worse by all the fad diets and crash weight loss programs out there - low carb, ketogenic, etc. This is a huge problem because everybody responds to nutrition differently. Odds are 90% that any particular program will only make you flabbier and pastier. I created a simple combination of MAGICAL WORDS called SWITCHWORDS that will solve this problem. The words we speak, our beliefs, actions, visions contribute to the reality we create. If you would like a different reality, then you have to start by changing the WORDS you speak every day. Let me briefly tell you my story... My ex-boyfriend was a tall, handsome ex-air force military who became a devil's advocate. He sold his soul to a devil to become a movie star. He was willing to do anything possible to become one of the movie stars. He was a gym junkie and control freak. As a result of that, he was pushing me to lose weight and be in shape too. I tried every diet on the planet, joined the gym, took slimming pills but nothing really worked for me. My partner used to put too much pressure on me regarding my weight and appearance. My self-esteem went down the hole and my depression was getting worse and worse. I didn't feel good and beautiful enough anymore. I was in my 20s and spent most of my time fighting my own nature. I was trying to be just like every superstar that I admired, killing myself in the process. For several years, my mantra was: Massive ACTION solves every problem! Which was just incredibly stupid, because MASSIVE action without a great strategy, only gives you more problems. Your efforts create work that is unfocused and dissipates your energy. I spent thousands of hours sweating in the gym, throwing money out of the window by trying every diet on the planet and getting more fat and ill during the process. I constantly put myself in situations where my greatest strengths got shoved in the closet, and my weaknesses were on display for all to see, including my increased weight, all day long. I had nobody to turn to so I turned to alcohol and junk food for help to soothe the pain. I went through a mental breakdown and wanted to commit suicide many times. I had no hope and didn't know how to get out of the black magic spell. One morning when I woke up in pain and covered in blood and emotionally, spiritually and physically depleted with broken glass on the floor I knew something is gotta change NOW! I couldn't get up and passed

out. I started to see the light at the end of the tunnel when I saw the flashing light of the ambulance. Who did that? I DID. Who does that? YOU DO. Up to your eyeballs in debt, overweight and bleeding HEART. Just to tell your family you are in a relationship and own a business. The Bloodsucking Monster, my ex-fiance gave me a red DIAMOND ring. I called it a blood diamond. Because I knew every bit of the blood, sweat, and tears it took to be in that relationship. He would twist that ring around my finger the whole time he leered at me and talked down to you. His stone face, a steely glare that could kill a spider on the spot. I lived with my neck under the Monster's boot until the day I discovered and applied the secrets mentioned in this book SWITCHWORDS for Health and Weight Loss and my other books REALITY CREATION SECRETS and SWITCHWORDS MIRACLES. Spending thousands of pounds on the weight loss diets did not work. Applying ancient knowledge from my books and choosing my own preferred reality did work. In 21 days I went from 100-pound GORILLA to Cinderella with a little effort and easy strategy. I started applying SWITCHWORDS.

The editors also address the impact the COVID-19 pandemic has made on the travel industry, which has motivated them to bring together major players, renowned authors, practitioners, and researchers to create this book to help prepare the medical tourism market to not only recover from the devastating effects of the pandemic but also to provide tools and cases that will help to structure successful destinations for medical travel. From chapters on branding to assessing accreditation and post-care quality metrics, Drs. DeMicco, Poorani, and their fellow contributors take the reader through the critical phases of the medical travel journey: pre-visit, travel, on-site care, discharge and follow-up care. The authors address critical issues facing medical, health, and wellness travel from both macro and micro perspectives. Presentations of best practices and strategies demonstrate how some destinations have built, renewed, or engaged various stakeholders to construct or enhance their medical tourism destination. *Medical Travel: Hospitality Bridging Healthcare (H2H)* © also showcases best practices and innovative ways of designing and operating a profitable and entrepreneurial practice. Quality issues, aesthetics, and legal issues related to inbound and outbound medical tourism are also presented. The book explores the evolving nature of hospital design and the complex relationship between people and medicine as manifested in the relationship of hospital aesthetics to patient satisfaction. Importantly, the book also includes a chapter addressing medical health travel during the pandemic which describes how the pandemic has revolutionized telehealth and the medical travel industry, which can leverage the advances made in digital health and telemedicine. This volume will be an important resource for the four main players at the center of medical travel: medical travelers themselves, government agencies, intermediaries, and health and wellness providers. revive health and wellness: *The Mindfulness Workbook for Addiction* Rebecca E. Williams, Julie S. Kraft, 2012-08-01 Most addictive behavior is rooted in some type of loss, be it the death of a loved one, coming to terms with limitations set by chronic health problems, or the end of a relationship. By turning to drugs and alcohol, people who have suffered a loss can numb their grief. In the process, they postpone their healing and can drive themselves further into addiction. The Mindfulness Workbook for Addiction offers readers an effective program for working through their addiction and grief with cognitive behavior therapy (CBT), dialectical behavior therapy (DBT), and acceptance and commitment therapy (ACT). Created by a psychologist who works for the Department of Veterans Affairs and a marriage and family therapist who works for Sharp Mesa Vista Hospital, this mindfulness training workbook is effective for treating the emotion dysregulation, stress, depression, and grief that lie at the heart of addiction. No matter the loss, the mindfulness skills in this workbook help readers process their grief, determine the function their addiction is serving, and replace the addiction with healthy coping behaviors.

revive health and wellness: The Fulfilling Workplace Ronald J. Burke, 2016-03-09 It is very easy for organizations to ignore or overlook the impact of social and commercial change-of increased pressure to deliver profit (above all else) and of transformation in the ways in which we are now working-on the mental health and, consequently, the performance of their employees. And yet there is plenty of evidence that in many workplaces, performance is down, stress is up and professional employees are struggling to balance their home and work lives. This collection, while looking at individuals, places the spotlight on organizational initiatives to support the development of attitudes, values, character and behaviors in employees. The aim of these initiatives is to increase our resilience to those experiences and events which impact on performance. There is a particular focus on managerial and professional jobs where employee discretion and commitment are critical. The Fulfilling Workplace extends the themes developed in early titles in the Psychological and Behavioral Aspects of Risk Series deeper into organizations; to explore the organization's role in coming to grips both with human frailties and toxic workplaces-both destructive to individual and organizational health.
