riddles in spanish and answers: **The Language of Riddles** W. J. Pepicello, Thomas A. Green, 2015-12-18 For the folklorists and linguists who are serious students of what has been designated a minor genre, the riddle is, in fact, a complex linguistic and aesthetic structure that, when subjected to systematic and scientific study, reveals a great deal about the major human systems-such as language, culture, and art-with which it is inextricably bound up. Riddles conform to a model of communication made up of a code and an encoded message that is first transmitted and then decoded. As what Professors Pepicello and Green term a licensed artful communication, the riddle employs quite ordinary language in conventional ways to satisfy the demands placed upon it as the art form that it is. And as an art form, the riddle is subject to constraints that are semiotic (some primary graphic, aural, or other code), aesthetic (artistic conventions that are also semiotic), and grammatical (linguistic restrictions). The riddle operates, therefore, within a cultural framework that is entirely predetermined, and represents what Pepicello and Green designate a conventional performance. The signified of riddles is not easily defined; and indeed it is possible-perhaps even necessary-to distinguish several signata. All riddles, the authors point out, whether they are based on grammatical or metaphorical ambiguity or represent one of the transitional types they identify, are solvable within the confines of the culture in which they have been constructed and in which they are posed. But the signified of a riddle is not its answer. Nor is it an object or a situation. Rather it is the code employed by the riddle itself. Riddles are therefore metalinguistic: ways of using language to deal with language-ways of using language to gain mastery over language. W. J. Pepicello is director of humanities and social sciences in the School of Allied Health Professions at

Hahnemann University in Philadelphia. Thomas A. Green is associate professor of English at Texas A&M University.

riddles in spanish and answers: The Answer / La Respuesta (Expanded Edition) Sor Juana Inés de la Cruz, 2009-06-01 Defiant writing by the first feminist of the Americas—the Mexican nun Sor Juana Inés de la Cruz—in response to the church officials that tried to silence her. Known as the first feminist of the Americas, the Mexican nun Sor Juana Inés de la Cruz enjoyed an international reputation as one of the great lyric poets and dramatists of her time. The Answer/La Respuesta (1691) is Sor Juana's impassioned response to years of attempts by church officials to silence her. While earlier translators have ignored Sor Juana's keen awareness of gender, this volume brings out her own emphasis and diction, and reveals the remarkable scholarship, subversiveness, and even humor she drew on in defense of her cause. This expanded, bilingual edition combines new research and perspectives on an inspired writer and thinker. It includes the fully annotated primary text responding to the church officials; the letter that ultimately provoked the writing of The Answer; an expanded selection of poems; an updated bibliography; and a new preface.
