Save an Angel's Pet Wellness & Spay/Neuter Clinic: Your Compassionate Partner in Pet Care

Are you searching for a vet clinic that combines exceptional care with a genuine commitment to animal welfare? Look no further than Save an Angel's Pet Wellness & Spay/Neuter Clinic. This post will delve into what makes us unique, exploring our services, our philosophy, and why we're the perfect choice for your beloved companion. We'll cover everything from routine wellness checks to crucial spay/neuter procedures, providing you with the information you need to make informed decisions about your pet's health.

Our Mission: More Than Just a Clinic

At Save an Angel's Pet Wellness & Spay/Neuter Clinic, we believe that every animal deserves a happy and healthy life. We're not just a veterinary clinic; we're a sanctuary of compassion, dedicated to providing high-quality, affordable care to pets in need. Our mission is rooted in the belief that preventative care and responsible pet ownership are crucial for a thriving animal community. We strive to be a beacon of hope for both pets and their loving owners.

Comprehensive Wellness Services: Keeping Your Pet Thriving

We offer a comprehensive range of wellness services designed to keep your furry, feathered, or scaled friend in tip-top shape. These include:

Annual Wellness Exams: These are the cornerstone of preventative care. During these checkups, our experienced veterinarians conduct thorough physical examinations, assess your pet's overall health, and discuss any concerns you may have. We tailor a preventative care plan to your pet's individual needs, age, and breed.

Vaccinations: Protecting your pet from preventable diseases is paramount. We administer core and non-core vaccines, ensuring your companion is shielded from common illnesses. We use only high-quality, safe vaccines.

Parasite Prevention: Fleas, ticks, heartworms – these parasites can pose serious health risks to your pet. We offer a range of preventative medications to keep these unwelcome guests at bay. We'll help you choose the best option for your pet's lifestyle and environment.

Dental Care: Dental health is often overlooked, but it's crucial for overall well-being. We offer professional teeth cleaning and address any dental issues that may arise.

Diagnostic Testing: Should your pet exhibit any signs of illness, we utilize state-of-the-art diagnostic equipment to quickly and accurately identify the problem. We offer blood work, urinalysis, and other diagnostic tools to ensure your pet receives the most appropriate treatment.

Spay/Neuter Services: Responsible Pet Ownership

Spaying or neutering your pet is one of the most impactful things you can do for its health and well-being, and for the wider animal community. At Save an Angel's, we understand the importance of these procedures and offer affordable spay/neuter services for dogs and cats of all ages and breeds. We perform these surgeries with the utmost care and precision, employing the latest techniques to minimize discomfort and ensure a smooth recovery.

Our spay/neuter program also plays a vital role in controlling pet overpopulation, a significant concern for animal shelters and rescues. By making these services accessible, we contribute to a healthier and more responsible pet population.

Beyond the Basics: Specialized Care

While our core focus is on preventative care and spay/neuter services, we also offer specialized care for a range of conditions. This includes:

Senior Pet Care: We understand the unique needs of senior pets and provide tailored care to address age-related health issues.

Nutritional Counseling: Proper nutrition is essential for a healthy pet. We provide guidance on choosing the best food for your pet's specific needs.

Behavioral Consultations: We can help you address behavioral issues your pet may be experiencing.

Our Commitment to Affordable Care

We firmly believe that quality veterinary care should be accessible to everyone. That's why we offer competitive pricing and work with various organizations to provide financial assistance to those in need. No pet should go without the care it deserves due to financial constraints.

The Save an Angel's Difference: Compassion and Expertise Combined

What truly sets Save an Angel's apart is our commitment to compassionate care. Our team is comprised of highly skilled and dedicated veterinarians and veterinary technicians who are passionate about animal welfare. We treat each pet as an individual, providing personalized attention and unwavering support throughout their journey with us. We believe in building strong relationships with our clients, fostering open communication and transparency in all aspects of care.

save an angels pet wellness spay neuter clinic: *The Humane Economy* Wayne Pacelle,

2016-04-19 A major new exploration of the economics of animal exploitation and a practical roadmap for how we can use the marketplace to promote the welfare of all living creatures, from the renowned animal-rights advocate Wayne Pacelle, President/CEO of the Humane Society of the United States and New York Times bestselling author of *The Bond*. In the mid-nineteenth century, New Bedford, Massachusetts was the whaling capital of the world. A half-gallon of sperm oil cost approximately \$1,400 in today's dollars, and whale populations were hunted to near extinction for profit. But with the advent of fossil fuels, the whaling industry collapsed, and today, the area around New Bedford is instead known as one of the best places in the world for whale watching. This transformation is emblematic of a new sort of economic revolution, one that has the power to transform the future of animal welfare. In *The Humane Economy*, Wayne Pacelle, President/CEO of the Humane Society of the United States, explores how our everyday economic decisions impact the survival and wellbeing of animals, and how we can make choices that better support them. Though most of us have never harpooned a sea creature, clubbed a seal, or killed an animal for profit, we are all part of an interconnected web that has a tremendous impact on animal welfare, and the decisions we make—whether supporting local, not industrial, farming; adopting a rescue dog or a shelter animal instead of one from a “puppy mill”; avoiding products that compromise the habitat of wild species; or even seeing Cirque du Soleil instead of Ringling Brothers—do matter. *The Humane Economy* shows us how what we do everyday as consumers can benefit animals, the environment, and human society, and why these decisions can make economic sense as well.

save an angels pet wellness spay neuter clinic: Research Methods in Applied Settings Jeffrey A. Gliner, George A. Morgan, Nancy L. Leech, 2000-02 The authors of this unique text found that while most students can crunch the numbers quite easily and accurately with a calculator or computer, many have trouble seeing the big picture or seeing how research questions and design influence data analysis. As a result, the authors developed a semantically consistent framework that integrates traditional research approaches (experimental, quasi-experimental, comparative) into three basic kinds of research questions (difference, associational, and descriptive), which, in turn, lead to three kinds or groups of statistics with the same names. This text: *helps students become good consumers of research by demonstrating how to analyze and evaluate research articles; *offers a number of summarizing diagrams and tables that clarify confusing or difficult to learn topics; *points out the value of qualitative research and how it should lead quantitative researchers to be more flexible; *divides all quantitative research questions into five logically consistent categories that help students select appropriate statistics and understand their cause and effect; and *classifies design into three major types: between groups, within subjects, and mixed groups and shows that, although these three types use the same general type of statistics (e.g., ANOVA), the specific statistics in between-groups design are different from those in within-subjects and mixed groups.

save an angels pet wellness spay neuter clinic: **The Other End of the Leash** Patricia McConnell, Ph.D., 2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—*The Washington Post* An Applied Animal Behaviorist and dog trainer with more than twenty years' experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man's best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates

how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

save an angels pet wellness spay neuter clinic: Made for Each Other Meg Daley Olmert, 2009 Nothing turns a baby's head more quickly than the sight or sound of an animal. This fascination is driven by the ancient chemical forces that first drew humans and animals together. It is also the same biology that transformed wolves into dogs and skittish horses into valiant comrades that would carry us into battle. Made for Each Other is the first book to explain how this chemistry of attraction and attachment flows through--and between--all mammals to create the profound emotional bonds humans and animals still feel today. Drawing on recent discoveries from neuroscience, evolutionary biology, behavioral psychology, archeology, as well as her own investigations, Meg Daley Olmert explains why the brain chemistry humans and animals trigger in each other also has a profound effect on our mental and physical well being. This lively and original investigation asks what happens when the bond is severed. If thousands of years of caring for animals infused us with a biology that shaped our hearts and minds, do we dare turn our back on it? Daley Olmert makes a compelling and scientific case for what our hearts have always known, that we were, and always will be, made for each other.

save an angels pet wellness spay neuter clinic: Pit Bull Bronwen Dickey, 2016-05-10 The hugely illuminating story of how a popular breed of dog became the most demonized and supposedly the most dangerous of dogs—and what role humans have played in the transformation. When Bronwen Dickey brought her new dog home, she saw no traces of the infamous viciousness in her affectionate, timid pit bull. Which made her wonder: How had the breed—beloved by Teddy Roosevelt, Helen Keller, and Hollywood's "Little Rascals"—come to be known as a brutal fighter? Her search for answers takes her from nineteenth-century New York City dogfighting pits—the cruelty of which drew the attention of the recently formed ASPCA—to early twentieth-century movie sets, where pit bulls cavorted with Fatty Arbuckle and Buster Keaton; from the battlefields of Gettysburg and the Marne, where pit bulls earned presidential recognition, to desolate urban neighborhoods where the dogs were loved, prized—and sometimes brutalized. Whether through love or fear, hatred or devotion, humans are bound to the history of the pit bull. With unfailing thoughtfulness, compassion, and a firm grasp of scientific fact, Dickey offers us a clear-eyed portrait of this extraordinary breed, and an insightful view of Americans' relationship with their dogs.

save an angels pet wellness spay neuter clinic: Your Robot Dog Will Die Arin Greenwood, 2018-04-17 Fusing the heart of Julie of the Wolves with the imagination of Little Brother and Ship Breaker, this speculative YA is a must-read for any dog lover. When a global genetic experiment goes awry and canines stop wagging their tails, mass hysteria ensues and the species is systematically euthanized. But soon, Mechanical Tail comes to the rescue. The company creates replacements for "man's best friend" and studies them on Dog Island, where 17-year-old Nano Miller was born and raised. Nano's life has become a cycle of annual heartbreak. Every spring, she is given the latest robot dog model to test, only to have it torn from her arms a year later. But one day she makes a discovery that upends everything she's taken for granted: a living puppy that miraculously wags its tail. And there is no way she's letting this dog go.

save an angels pet wellness spay neuter clinic: The Dog Merchants Kim Gavin, 2016-05-03 In what promises to become an Omnivore's Dilemma for dog lovers—breed devotees and adoption advocates alike—The Dog Merchants is the first book to explain the complex and often surprisingly similar business practices that extend from the American Kennel Club to local shelters, from Westminster champions to dog auctions. Without judging dog lovers of any stripe, The Dog Merchants makes it clear that money spent among these dog merchants has real-world effects on people and canines. Gavin reveals how dog merchants create markets for dogs, often in defiance of the usual rules of supply and demand. She takes an investigative approach and meets breeders and rescuers at all levels, shedding much-needed light on an industry that most people don't even realize is an industry. Gavin's goal is to advance the conversation about how all dogs are treated, from puppy mills to high-kill shelters. She shows that a great deal can be improved by understanding the business practices behind selling dogs of all kinds. Instead of pitting rescue and purebred people against each other, The Dog Merchants shows how all dog lovers can come together, with one voice as consumers, on behalf of all our beloved companions.

save an angels pet wellness spay neuter clinic: Companion Animal Economics Sophie Hall, Luke Dolling, Katie Bristow, Ted Fuller, Daniel S Mills, 2016-12-05 Succinct, highly readable and thought provoking, this important new text is designed to raise awareness of the potential economic impact of companion animals in the UK. It discusses the potential benefits and costs of companion animals to the economy and highlights the need for this matter to be thoroughly researched, given the potential scale of impact and the potential costs of ignoring this matter. Inspired by the seminal Council for Science and Society (CSS) Report, Companion Animals in Society (1988), this work updates and extends its evaluation of the economic impact of companion animals on society and lays a benchmark for future development. This pivotal new book is important for policy makers at national and international levels and all those involved in animal welfare.

save an angels pet wellness spay neuter clinic: Off the Leash Matthew Gilbert, 2014-07-29 A heartwarming story about a man and his dog, and the first-ever book about dog parks and the part they play in the lives of both humans and canines. Off the Leash is a group portrait of dog people, specifically the strange, wonderful, neurotic, and eccentric dog people who gather at AmoryPark, overlooking Boston near Fenway Park. It's about author Matthew Gilbert's transformation into one of those dog people with fur on their jackets, squeaky toys in their hands, and biscuits in their pockets. Gilbert, longtime TV critic at The Boston Globe, describes his reluctant trip into the dog-park subculture, as the first-time owner of a stubbornly social yellow Lab puppy named Toby. Like many Americans, he was tethered to the digital leash. But the headstrong, play-obsessed Toby pulls him to Amory, and Amory becomes an exhilarating dose of presence for him. At the dog park, the dog owners go off the leash, too. Dog-park life can be tense. When dogs fight, their owners bare their teeth at each other, too. Amid the rollicking dog play, feelings tend to surface faster, inedited. Amory becomes, for the dog owners, an idyllic microcosm, the home of enduring friendships and romantic crushes. Meeting daily, a gathering of dog owners can be like group therapy. A charming narrative, Off the Leash will appeal to anyone who has ever enjoyed watching a puppy scamper through a park. Praise for Off the Leash "An admitted curmudgeon just a few steps away from Cruella de Vil, Gilbert sees his life change when he falls in love with a dog person and then falls in love with dogs. . . . Gilbert captures with great humor the world within the dog park. . . . Beyond the individual quirks, Gilbert finds community and the ability to empathize among people who on the surface have little in common." —Los Angeles Times "Gilbert's book is witty, sweet, and affirming." —The Boston Globe

save an angels pet wellness spay neuter clinic: My Old Dog Laura T. Coffey, 2015-09-18 "No Dog Should Die Alone" was the attention-grabbing — and heart-stirring — headline of journalist Laura T. Coffey's TODAY show website story about photographer Lori Fusaro's work with senior shelter pets. While generally calm, easy, and already house-trained, these animals often represent the highest-risk population at shelters. With gorgeous, joyful photographs and sweet, funny, true tales of "old dogs learning new tricks," Coffey and Fusaro show that adopting a senior can be even more rewarding than choosing a younger dog. You'll meet endearing elders like Marnie, the irresistible shih tzu who has posed for selfies with Tina Fey, James Franco, and Betty White; Remy, a soulful nine-year-old dog adopted by elderly nuns; George Clooney's cocker spaniel, Einstein; and Bretagne, the last known surviving search dog from Ground Zero. They may be slower moving and a tad less exuberant than puppies, but these pooches prove that adopting a senior brings immeasurable joy, earnest devotion, and unconditional love.
