southern ct wellness milford ct: The Saints of Progress Carmen Kordick, 2019-01-29 A reshaping of traditional understandings of Costa Rica and its national identity *The Saints of Progress: A History of Coffee, Migration, and Costa Rican National Identity* chronicles the development of the Tarrazú Valley, a historically remote—although internationally celebrated—coffee-growing region. Carmen Kordick's work traces the development of this region from the early nineteenth century to the first decades of the twenty-first century to consider the nation-building process from the margins, while also questioning traditional scholarly works that have reproduced, rather than deconstructed, Costa Rica's exceptionalist national mythology, which hail Costa Rica as Central America's "white," democratic, nonviolent, and egalitarian republic. In this compelling political, economic, and lived history, Kordick suggests that Costa Rica's exceptionalist and egalitarian mythology emerged during the Cold War, as revolution, civil war, military dictatorship, and state violence plagued much of Central America. From the vantage point of Costa Rica's premier coffee-producing region, she examines local, national, and transnational processes. This deeply textured narrative details the inauguration of coffee capitalism, which heightened existing class divisions; a successful armed revolt against the national government, which forged the current political regime; and the onset of massive out-migration to the United States. Kordick's research incorporates more than one hundred oral histories and thousands of archival sources gathered in both Costa Rica and the United States to produce a human history of Costa Rica's past. Her work on the recent past profiles the experiences of migrants in the United States, mostly in New Jersey, where many undocumented Costa Ricans find low-paid work in the restaurant and landscaping sectors. The result is a fine-grained examination of Tarrazú's development from the 1820s to the present that reshapes traditional understandings of Costa Rica and its national past.

southern ct wellness milford ct: Promises of the Heart Nan Rossiter, 2020-02-04 The first novel in a new series from bestselling author Nan Rossiter tells the moving story of a couple struggling to start a family and the young foster girl with a heart condition who changes their lives forever. "A multi-leveled, beautifully written story that will glow in readers' hearts long after the last page is turned."—Kristan Higgins, New York Times bestselling author Can the course that they've set for the future handle a slight detour...? Macey and Ben Samuelson have much to be thankful for: great friends, a beautiful—if high-maintenance—Victorian house on idyllic Tybee Island, and a rock-solid marriage. The only thing missing is what they want the most. After her fifth miscarriage in six years, Macey worries that the family they've always dreamed of might be out of reach. Her sister suggests adoption, but Macey and Ben aren't interested in pursuing that path...until a three-legged golden retriever named Keeper wags his way into their home and their hearts. Harper Wheaton just got kicked out of another foster home and it won't be the last if she keeps losing her temper. She's not sure why she gets mad; maybe because no family seems to want a nine-year-old girl with a heart condition. She loves her social worker, Cora, but knows that staying with her forever isn't an option. Will she ever find a family to call her own? As a physician's assistant, Macey meets lots of kids. Harper Wheaton's a tough one, but Macey knows the little girl has already struggled more than most. It gets Macey and Ben to thinking about all the children who need homes. Then Harper goes missing, and one thing is suddenly crystal clear: life is complicated—but love doesn't have to be.
