studio 17 cosmetics wellness: *Women, Wellness, and the Media* Margaret C. Wiley, Barbara Barnett, 2009-05-27 As a former nurse and someone who now teaches Women's Studies, I have long been interested in the politics of health care. Today, most Americans would agree that our health care system is broken. We pay more for health care than any nation in the world, yet in 2007, the World Health Organization ranked us as 37th in quality of health care. Forty-six million Americans are now without health insurance. What is happening here? And just where are all these dollars going? In *Women, Wellness, and the Media*, thirteen scholars from a wide range of disciplines examine the relationship between media stereotypes and women's health. They look at several images of women: the perfect mom; the straight, bikini-clad sixteen-year old blond who has been air-brushed to perfection; the wild black Jezebel who struts her stuff; and the shriveled up menopausal crone. The writers point out that these images are making millions of dollars for all sorts of businesses ranging from the pharmaceutical industry to women's magazines. Scholars have long noted that stereotypes disempower women; in *Women Wellness and the Media* we see how these stereotypes actually harm women's health while turning millions in corporate profits.

Das Herz Sarajevos ist seit Jahrhunderten die osmanisch geprägte Altstadt; ihr schließt sich das wichtigste Einkaufsviertel an, das wie Klein-Österreich anmutet. Die Hauptstadt von Bosnien und Herzegowina präsentiert sich heute als eine moderne, lebendige Universitätsstadt mit einem überraschend reichen Kultur- und Nachtleben, aus dem die zahlreichen international renommierten Festivals herausragen. Vor den Toren der Stadt liegen ausgedehnte Bergketten, die unter anderem zum Wandern und Skifahren einladen. Dieser Reiseführer führt in Stadtpaziergängen durch alle Viertel Sarajevos und bezieht die etwas außerhalb gelegenen Sehenswürdigkeiten und die stadtnahen Berge mit ein. Zusätzlich bietet das Buch eine ausführliche Einführung in die Geschichte und die aktuelle Situation des Landes.

studio 17 cosmetics wellness: Ugly Anita Bhagwandas, 2023-02-16 We've all had those moments. The ones where you look in the mirror and nothing feels ok. For Anita Bhagwandas, this started when she was a child and it created an enduring internal torment about her looks. We're all told that this is just part of growing up, but it stays with us, evolving as we age. The internet tells us we should love ourselves, whilst bombarding us with images of airbrushed perfection, upholding centuries-old beauty standards which we can't always see. Our beauty rituals are so often based around things we think we need to fix, grow and develop - sometimes tipping into dangerous obsession. So, what seismic shift does it take to break free from this mentality? In Ugly, Anita uncovers where these beauty standards started, unpicks why they've been perpetuated and unmask the structures that continue to support them. From the ever-growing cosmetic surgery industry, to the hidden pitfalls of 'pretty privilege', it is time to finally break free from those limiting beauty standards, because feeling ugly should have nothing to do with how we look, and everything to do with who wants us to feel lacking.

studio 17 cosmetics wellness: UnMarketing Scott Stratten, Alison Stratten, 2016-10-10 UnMarket to build trust and make lifelong customers! In 2009, Scott Stratten and Alison Stratten wrote the bestselling UnMarketing: Stop Marketing, Start Engaging and began a journey that would take them around the world sharing their message of engagement with corporations, entrepreneurs, and students. They are now back with this second edition, because Everything has Changed and Nothing is Different, with all the brilliance of the first edition, plus new content and commentary to reflect the rapidly changing landscape we all live, buy, and work in today. For generations, marketing has been hypocritical. We've been taught to market to others in ways we hate being marketed to (cold-calling, flyers, ads, etc.). So why do we still keep trying the same stale marketing moves? UnMarketing shows you how to unlearn the old ways and consistently attract and engage the right customers. You'll stop just pushing out your message and praying that it sticks somewhere. Potential and current customers want to be listened to, validated, and have a platform to be heard-especially online. With UnMarketing, you'll create a relationship with your customers, and make yourself the logical choice for their needs. We know you've been told to act like other people, talk like other people, and market like all the people, but it is time for you to unlearn everything and start to UnMarket yourself. UnMarketing includes the latest information on: Idea Creation, Viral Marketing and Video, Marketing to Millennials, Authenticity, Transparency and Immediacy, Ethics and Affiliates, Social Media Platforming, UnPodcasting, Word of Mouth, Customer Service, Consumer Advocacy and Leadership. With examples of what to do, and what not to do, from small business right up to worldwide corporations in areas such as real estate, travel, service, retail, and B2B.

studio 17 cosmetics wellness: Editing the Soul Everett Hamner, 2017-09-28 Personal genome testing, gene editing for life-threatening diseases, synthetic life: once the stuff of science fiction, twentieth- and twenty-first-century advancements blur the lines between scientific narrative and scientific fact. This examination of bioengineering in popular and literary culture shows that the influence of science on science fiction is more reciprocal than we might expect. Looking closely at the work of Margaret Atwood, Richard Powers, and other authors, as well as at film, comics, and serial television such as *Orphan Black*, Everett Hamner shows how the genome age is transforming both the most commercial and the most sophisticated stories we tell about the core of human personhood. As sublime technologies garner public awareness beyond the genre fiction shelves, they inspire new literary categories like "slipstream" and shape new definitions of the human, the animal, the natural, and the artificial. In turn, what we learn of bioengineering via popular and literary culture prepares the way for its official adoption or restriction—and for additional representations. By imagining the connections between emergent gene testing and editing capacities and long-standing conversations about freedom and determinism, these stories help build a cultural zeitgeist with a sharper, more balanced vision of predisposed agency. A compelling exploration of the interrelationships among science, popular culture, and self, *Editing the Soul* sheds vital light on what the genome age means to us, and what's to come.
