the garden wellness club: We Are a Garden Lisa Westberg Peters, 2021-04-06 This lyrical and extremely timely picture book illuminates the many different migrants who have made their homes in North America through the centuries. Long ago a strong wind blew. It blew people, like seeds, to a new land. The wind blew in a girl and her clan, where herds of mammoths still wandered the frozen tundra. It later blew a boy and his family across frigid waters, and they spread across the new land. Over time, the wind continued to disperse newcomers from all directions. It blew in men who hoped to find gold, and slave ships, and immigrant families. And so it continued, for generations and generations. Here is a moving and tender picture book that beautifully examines centuries of North American history and its people.

He pulls no punches-- which is just how those rough-and-tumble Knights would like it. -- adapted from jacket

It covers national parks and protected areas and includes itineraries to suit all interests and budgets, plus details of around 1,000 hotels and restaurants. Madagascar is like nowhere else on earth. It is fascinating not only zoologically and botanically, but culturally, linguistically, historically and geologically. This vast island is the fourth largest in the world and also the oldest. Madagascar is also the only place where you can see wild lemurs. Almost a quarter of the world's 450-or-so primates exist only here. With Bradt's Madagascar you can visit tropical rainforest and seek out its incredible flora and fauna; explore the otherworldly eroded limestone spires, most famously at Tsingy de Bemaraha National Park - Madagascar's most striking landscape; discover the beach-fringed islands around Nosy Be with their fabulous scuba diving, snorkelling, kayaking, whale-watching and fishing opportunities; and make the most of a host of adventuring and sporting possibilities, including surfing, windsurfing, kitesurfing, rock climbing, tree climbing, caving, river trips, mountain biking, distance running, quad biking, trekking and hiking. Also covered are the UNESCO World Heritage Site of Ambohimanga; the renowned Avenue des Baobabs, one of the country's most photographed scenes, and information on the best birdwatching spots: Madagascar has almost 300 avian species, with a high proportion of endemics, including five whole endemic families.
