the sniper questions and answers: *The Cellist of Sarajevo* Steven Galloway, 2009-02-24 This brilliant novel with universal resonance tells the story of three people trying to survive in a city rife with the extreme fear of desperate times, and of the sorrowing cellist who plays undaunted in their midst. One day a shell lands in a bread line and kills twenty-two people as the cellist watches from a window in his flat. He vows to sit in the hollow where the mortar fell and play Albinoni's Adagio once a day for each of the twenty-two victims. The Adagio had been re-created from a fragment after the only extant score was firebombed in the Dresden Music Library, but the fact that it had been rebuilt by a different composer into something new and worthwhile gives the cellist hope. Meanwhile, Kenan steels himself for his weekly walk through the dangerous streets to collect water for his family on the other side of town, and Dragan, a man Kenan doesn't know, tries to make his way towards the source of the free meal he knows is waiting. Both men are almost paralyzed with fear, uncertain when the next shot will land on the bridges or streets they must cross, unwilling to talk to their old friends of what life was once like before divisions were unleashed on their city. Then there is "Arrow," the pseudonymous name of a gifted female sniper, who is asked to protect the cellist from a hidden shooter who is out to kill him as he plays his memorial to the victims. In this beautiful and unforgettable novel, Steven Galloway has taken an extraordinary, imaginative leap to create a story that speaks powerfully to the dignity and generosity of the human spirit under extraordinary duress.

"An amazingly detailed account of fighting in Iraq--a humanizing, brave story that's extremely readable." —PATRICIA CORNWELL, New York Times Book Review Jaw-dropping...Undeniably riveting. —RICHARD ROEPER, Chicago Sun-Times From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. the sniper questions and answers: *I Am Your Judge* Nele Neuhaus, 2016-01-12 *I am Your Judge*, the latest Pia Kirchhoff and Oliver von Bodenstein novel from internationally bestselling author Nele Neuhaus, is tightly plotted, and delivers surprise twists at every turn with a story that is ripped from the headlines. Police Detective Pia Kirchhoff is about to leave on her long-delayed honeymoon when she receives a phone call from police headquarters: An elderly woman has been shot and killed while walking her dog. Neither her grieving daughter nor any of her acquaintances have an explanation for the horrifying murder. Ingeborg Rohlehder was well-liked and a generous, loving woman. A short while later, another murder is committed and the modus operandi is eerily similar — a woman is executed by a precisely aimed bullet to the head that smashes through her kitchen window while she is baking cookies . . . and in both cases the same weapon fired the shot from a distance only a trained sniper could manage. Two more murders follow in short order. None of the victims had enemies and no one knows why they were singled out. As fear of the Taunus Sniper grows among the local residents, the pressure rises on Detective Kirchhoff. She and her partner, Oliver von Bodenstein, search feverishly for a suspect who appears to murder at will, but soon realize that "The Judge," as the sniper calls himself, seems to have a mission—a mission that has not reached its conclusion yet. As the investigation progresses, the police officers uncover a human tragedy that will shake them to the core.

the sniper questions and answers: *23 Days of Terror* Angie Cannon, 2010-06-15 In October 2002, a nation still recovering from the 9/11 attacks found itself under siege once more -- by an unseen, unknown, and seemingly unstoppable enemy. For 23 days, the area around Washington, D.C., was the hunting ground for a pair of serial snipers who struck at random, killing from afar, only to vanish time and time again. With each attack, they raised the stakes, taunting the authorities to try to stop them -- until their luck ran out. Here, from veteran reporter Angie Cannon and the staff of U.S. News & World Report, comes the complete story of one of the most heinous crimes in American history -- a chronicle of the harrowing days in October that took ten innocent lives and wounded three others; the means and methods used by law enforcement -- and their mistakes; the suspects' backgrounds and possible motives; and the fear that gripped a region of five million people and the effect these shocking acts of terror continue to have on American society.

the sniper questions and answers: *Kill Zone* Craig Roberts, 2014-01-11 In 1997, former U.S. Marine sniper Craig Roberts, a seasoned veteran of the Vietnam war, stood for the first time at the 6th floor sniper's nest window of the Texas School Book Depository. As he looked down into what the U.S. Government maintains was the kill zone used by Lee Harvey Oswald, he immediately knew that the Warren Commission's verdict--that Lee Harvey Oswald, acting alone from that position, fired three shots in 5.6 seconds from a bolt-action rifle, with the fatal head shot being the last fired--was a lie. Why? Because Roberts, a combat experienced marksman, knew that he could not have duplicated Oswald's supposed feat--even if armed with the much more modern sniper rifle he used with devastating accuracy in Vietnam. At that moment, Roberts, a 20 year veteran police officer, investigator, and recognized authority on sniping, began an investigation that would last six years, take him into the shadow world of clandestine intelligence operations--and beyond--to discover the existence of a sinister organization that resides far above the CIA, KGB, the Mafia, and even government itself. An entity so powerful that, the elimination of a country's leader was little more than business as usual.

the sniper questions and answers: *God Has a Name* John Mark Comer, 2024-10-15 What you believe about God sets the foundation of the person you will become. In *God Has a Name*, pastor and New York Times bestselling author John Mark Comer invites you to rethink many of the prevalent myths and misconceptions about God and weigh them against what God actually tells us about himself. After all, what you believe about God will ultimately shape the type of person you become. We all live at the mercy of our ideas, and nowhere is this more true than our ideas about God. The problem is many of our ideas about God are wrong. Not all wrong, but wrong enough to form our souls in detrimental and disheartening ways. *God Has a Name* is a simple yet profound guide to understanding God in a new light--focusing on what God says about himself in the Bible. This one shift has the potential to radically alter how you relate to God, not as a doctrine, but as a relational being who responds to you in an elastic, back-and-forth way. John Mark Comer takes you line by line through Exodus 34:6-8--Yahweh's self-revelation on Mount Sinai, one of the most quoted passages in the Bible. Along the way, Comer addresses some of the most profound questions he came across as he studied these noted lines in Exodus, including: Why do we feel this gap between us and God? Could it be that a lot of what we think about God is wrong? Not all wrong, but wrong enough to mess up how we relate to him? What if our God is really a projection of our own identity, ideas, and desires? What if the real God is different, but far better than we could ever imagine? No matter where you are in your spiritual journey, *God Has a Name* invites you to step into a fresh and biblically rooted vision of who God is that has the potential to alter your life with God and shape who you become.

From the sharpshooters of the American Civil War to Navy SEAL Chris Kyle, military snipers are legendary for their marksmanship and effectiveness in battle. The

Focusing on the British and German sniping war on the western front, Pegler also looks at how snipers operated at Gallipoli, Salonika, and on the Eastern Front. He also covers sniper training, fieldcraft, and counter-sniping measures in detail. Sniping in the Great War includes a full reference section detailing the sniping rifles of the period and assessing their effectiveness in combat. the sniper questions and answers: Bulletins from Dallas Bill Sanderson, 2016-11-01 An in-depth look at one of the twentieth century's star reporters and his biggest story. Thanks to one reporter's skill, we can fix the exact moment on November 22, 1963 when the world stopped and held its breath: At 12:34 p.m. Central Time, UPI White House reporter Merriman Smith broke the news that shots had been fired at President Kennedy's motorcade. Most people think Walter Cronkite was the first to tell America about the assassination. But when Cronkite broke the news on TV, he read from one of Smith's dispatches. At Parkland Hospital, Smith saw President Kennedy's blood-soaked body in the back of his limousine before the emergency room attendants arrived. Two hours later, he was one of three journalists to witness President Johnson's swearing-in aboard Air Force One. Smith rightly won a Pulitzer Prize for the vivid story he wrote for the next day's morning newspapers. Smith's scoop is journalism legend. But the full story of how he pulled off the most amazing reportorial coup has never been told. As the top White House reporter of his time, Smith was a bona fide celebrity and even a regular on late-night TV. But he has never been the subject of a biography. With access to a trove of Smith's personal letters and papers and through interviews with Smith's family and colleagues, veteran news reporter Bill Sanderson will crack open the legend. Bulletins from Dallas tells for the first time how Smith beat his competition on the story, and shows how the biggest scoop of his career foreshadowed his personal downfall. Skyhorse Publishing, as

the sniper questions and answers: *House of Leaves* Mark Z. Danielewski, 2000-03-07 “A novelistic mosaic that simultaneously reads like a thriller and like a strange, dreamlike excursion into the subconscious.” —The New York Times Years ago, when *House of Leaves* was first being passed around, it was nothing more than a badly bundled heap of paper, parts of which would occasionally surface on the Internet. No one could have anticipated the small but devoted following this terrifying story would soon command. Starting with an odd assortment of marginalized youth -- musicians, tattoo artists, programmers, strippers, environmentalists, and adrenaline junkies -- the book eventually made its way into the hands of older generations, who not only found themselves in those strangely arranged pages but also discovered a way back into the lives of their estranged children. Now this astonishing novel is made available in book form, complete with the original colored words, vertical footnotes, and second and third appendices. The story remains unchanged, focusing on a young family that moves into a small home on Ash Tree Lane where they discover something is terribly wrong: their house is bigger on the inside than it is on the outside. Of course, neither Pulitzer Prize-winning photojournalist Will Navidson nor his companion Karen Green was prepared to face the consequences of that impossibility, until the day their two little children wandered off and their voices eerily began to return another story -- of creature darkness, of an ever-growing abyss behind a closet door, and of that unholy growl which soon enough would tear through their walls and consume all their dreams.

Hadjiyska, Igor Pavlov, 2021-01-29 Height 1079 was the name of the mountain where the nine members of the Dyatlov trekking group perished in 1959. The bizarre circumstances of their death and the ensuing frenzy surrounding the incident brought to attention the original name given to the place by the local Mansi people - Kholat Syakhl, or Dead (Barren) Mountain. Until now, there has been no plausible explanation of what actually happened on that fateful night of February 1, 1959. This book offers a startling new theory, based on well-documented evidence rather than wild speculations, that finally ties together all of known facts about the Dyatlov mystery into a credible sequence of causes and effects. the sniper questions and answers: Tower Sniper Monte Akers, Nathan Akers, 2016-07-15 On August 1, 1966, University of Texas engineering student Charles Whitman went to the top of the 307-foot campus tower. Over the next 96 minutes he shot and killed 15 people and wounded 31. Tower Sniper: The Terror of America's First Campus Active Shooter, by Monte Akers, Nathan Akers, and Dr. Roger Friedman, explores the history and personal experience of this seminal tragedy, enriches public memory, and advances our understanding of mass shootings that continue to haunt America. The authors vigilantly examine the details leading up to the event, the shootings, and their half-century legacy in stark detail. In doing so the authors correct various myths that have been part of the public narrative for decades, such as a brain tumor having motivated Whitman's actions, that he intentionally targeted certain victims, and that he attempted to make it appear that multiple snipers were active. Witness interviews, examination of primary sources, and handwriting analysis reveal information overlooked until now, including the factors that actually contributed to Whitman's predatory behavior and how his death and autopsy were mishandled. Employing the expertise of a clinical psychologist who was best friend to one of the shooter's young victims, the book contrasts current understandings of trauma with the approach taken at the time, documents the long-term traumatic legacy of mass shootings, and describes how individuals and communities can successfully cope with traumatic memories. The release of this book coincides with the unveiling of the newly expanded memorial for the victims of this tragedy on the University of Texas campus, August 1, 2016, the 50th Anniversary of the shooting.
