wellness coach certification california: Re-Imagining the End of Life Janet Booth, 2019-04-18
What does it mean to be prepared for the last part of our lives? One of the many lessons author and end-of-life nurse coach Janet Booth learned at the bedside of dying people is how painful it is to come unprepared to the end of life, whether it is our own or that of our loved ones. Much of the suffering we experience seems to come from our unfamiliarity with the journey at end of life and our not knowing how to prepare for it. So there is a need for a different kind of conversation about serious illness and dying in our country. Nurses are trusted professionals who are present with people through all of life's transitions. How might they take more leadership in these conversations? The purpose of this handbook is to provide nurses, coaches, and other health care professionals with opportunities for reflection and inspiration in their work. As nurses and health care professionals, many of us have seen firsthand that the process of navigating serious illness and death within our complex health care system is often confusing, isolating, crisis-driven, and disheartening. What outcomes might be possible if instead: * we reimagined the end of life as a vital, purposeful stage of human development? * practices of healing - forgiveness, gratitude, and letting go - became essential parts of our care plans? * wisdom instead of fear informed our challenging decision points? * we prepared for death in order to live more fully the time that we have? * the hard work of caregiving was sustainable and meaningful for both family and professional caregivers? In this book you will find fresh ideas, tools, and reflective practices that encourage you to explore your personal beliefs and values about aging, advanced illness, and dying. It is intended to inspire you to reimagine the end of life as a vital part of how we become fully human - a time of life that holds value, meaning, and purpose.

SUGAR IS TAKING OVER OUR LIVES. But why? And is it only those sweet, refined white

crystals that are causing us problems, or could there be more to the story? Let's be honest: The problem isn't just sugar itself. It's the refined, nutrient-poor carbohydrates that carry tons of calories, but no real nutrition. In our world, these are the easiest foods to grab on the go, but they leave us fat, sick, tired, and downright unhappy. The effect that sugar, hidden carbs, and refined, processed foods have on our bodies goes far beyond our waistlines. We can't focus, we can't sleep, we have irrational mid-afternoon cravings, and we can't even make it through the day without wanting—or needing—to prop up our energy levels with caffeine or even more sugar! What can we do to break free from this cycle? The 21-Day Sugar Detox is here to help. The 21-Day Sugar Detox is a clear-cut, effective, whole-foods-based nutrition action plan that will reset your body and your habits! Tens of thousands of people have already used this groundbreaking guide to shatter the vicious sugar stronghold. Now it's your turn! Use the easy-to-follow meal plans and more than 90 simple recipes in this book to bust a lifetime of sugar and carb cravings in just three weeks. Three levels of the program make it approachable for anyone, whether you're starting from scratch or from a gluten-free, grain-free, and/or Paleo/primal lifestyle. The 21-Day Sugar Detox even includes special modifications for athletes (endurance, CrossFit, HIIT-style, and beyond), pregnant/nursing moms, pescetarians, and people with autoimmune conditions. What you'll experience on this program will be different from a lot of other diet programs out there that promote extremely restricted eating; encourage you to consume only shakes, juices, or smoothies; or rely heavily on supplements and very-low-calorie or very-low-fat diets to ensure success. The goal of any detox program should be to support your body in naturally cleansing itself of substances that create negative health effects—and that's exactly what The 21-Day Sugar Detox does. By focusing on quality protein, healthy fats, and good carbs, this program will help you change not only the foods you eat, but also your habits around food, and even the way your palate reacts to sweet foods. You'll likely complete the program and continue eating this way much of the time thereafter because you'll feel so amazing. After changing your everyday eating habits, you will begin to gain a new understanding of how food works in your body—and just how much nutrition affects your entire life. There's no reason to wait!

wellness coach certification california: Mastering Diabetes Cyrus Khambatta, PhD, Robby Barbaro, MPH, 2020-02-18 The instant New York Times bestseller. A groundbreaking method to master all types of diabetes by reversing insulin resistance. Current medical wisdom advises that anyone suffering from diabetes or prediabetes should eat a low-carbohydrate, high-fat diet. But in this revolutionary book, Cyrus Khambatta, PhD, and Robby Barbaro, MPH, rely on a century of research to show that advice is misguided. While it may improve short-term blood glucose control, such a diet also increases the long-term risk for chronic diseases like cancer, high blood pressure, high cholesterol, chronic kidney disease, and fatty liver disease. The revolutionary solution is to eat a low-fat plant-based whole-food diet, the most powerful way to reverse insulin resistance in all types of diabetes: type 1, type 1.5, type 2, prediabetes, and gestational diabetes. As the creators of the extraordinary and effective Mastering Diabetes Method, Khambatta and Barbaro lay out a step-by-step plan proven to reverse insulin resistance—the root cause of blood glucose variability—while improving overall health and maximizing life expectancy. Armed with more than 800 scientific references and drawing on more than 36 years of personal experience living with type 1 diabetes themselves, the authors show how to eat large quantities of carbohydrate-rich whole foods like bananas, potatoes, and quinoa while decreasing blood glucose, oral medication, and insulin requirements. They also provide life-changing advice on intermittent fasting and daily exercise and offer tips on eating in tricky situations, such as restaurant meals and family dinners. Perhaps best of all: On the Mastering Diabetes Method, you will never go hungry. With more than 30 delicious, filling, and nutrient-dense recipes and backed by cutting-edge nutritional science, Mastering Diabetes will help you maximize your insulin sensitivity, attain your ideal body weight, improve your digestive health, gain energy, live an active life, and feel the best you've felt in years.

wellness coach certification california: Self Coaching 101 Brooke Castillo, 2008-11 Self coaching is about feeling better. It really is that simple. Everything we do in our lives is because we want to feel better. When we give-it feels good. When we help others-it feels good. When we accomplish something-it feels good. Whenever we feel bad-we are usually seeking a way to feel good. The reason we want to feel good, is because it is our true nature. Alignment with our spirit-our true essence-the God within us feels good. It feels peaceful, joyous, honest, abundant and free. Through coaching ourselves we can feel good much more of the time. By coaching ourselves we find what is not working in our lives. We find that trying to change the external circumstances to change how we feel is impossible. We learn that fighting our emotions or trying to deny them only makes them bigger. We find that our thinking is the most important thing we can pay attention to in order to feel better now. By taking a peek into our own minds we can find the cause of all our suffering. We can see how we block our joy with outdated and untruthful thoughts and beliefs. By just being in this place of awareness we have aligned with our true nature and can observe the patterns of our lives. Hiring a coach can be an amazing experience. Having someone who is already outside of your mind give you a different perspective to consider is often the first step in change. But ultimately, it is the process of shifting your own perception with your own awareness that will create non-dependent freedom. This is why I feel so strongly about learning how to apply these simple self coaching tools in your own life and on your own mind. If you are willing to do the work now-it becomes a way of being. You will step into a life that is lived with awareness and consciousness because each time you feel any negative emotion you see it as a signal to coach yourself and realign with the true essence of you. Self coaching 101 teaches you the basics of how to do this. And the basics are enough.

wellness coach certification california: Make Some Noise Andrea Owen, 2021-08-31 A bold and unabashed guide to finding your voice, harnessing your true desires, and leading the life you really want. Women are tired of worrying that they are being too loud if they speak up and say what they believe, want, or need, and are ready to feel their power and make themselves heard. A certified life coach and author of the bestseller *How to Stop Feeling Like Shit*, Andrea Owen knows

that this is absolutely attainable if women can channel their righteous anger and desire. But she also knows that they'll need to disrupt a status quo in which women have been conditioned and socialized to remain on the sidelines and to put others before themselves. With all of the expertise of a veteran feminist and hell-raiser, and the relatability of a dear friend, *Make Some Noise* will push women to step outside of rigid societal expectations and show them how to take back control of their lives, and make them all their own. In *Make Some Noise*, Owen deconstructs common behavior patterns that sabotage our power as women, and instead suggests new behaviors for creating a life that truly serves our desires and needs. From unlearning the notion that women should stay quiet and take up little space to trusting your inner wisdom, *Make Some Noise* is a raw and honest guidebook, and, ultimately, a call to arms.

wellness coach certification california: *Brave Thinking* Mary Morrissey, 2015-01-20 BRAVE THINKING is the culmination of more than 40 years of study, and 30 years of teaching this technology of transformation. People struggle with relationships. They struggle with money. They struggle with health. I've been coaching first as a minister, then for the last decade as a trainer outside the church world. But teaching, studying, and working in this laboratory called life. I've been both a student, and I've been a trainer in this laboratory, helping people unlock what it is they would love to have, be, do, give in their life. And helping them understand their capacity to do this. To use brave thinking and tap into the field of infinite possibility, potentiality, and work with a particular dream vision for their lives, so they can begin to see the pattern. Because once you see the pattern of how thoughts become things and how you can take what looks like very little and translate it into something much more - it's as different as moving from simple addition to squaring in math. When you are working with simple addition, the only way to get to 25 is you must amass 25 ones. When you learn to multiply you find that you only need two 5's to get to that same result. It takes way less

effort and you have way more results. And when you move up the ladder of awareness a little bit further, you see you only need one 5. Brave Thinking will help people recognize that they have everything they need to live a life they love living, and a life that really has meaning and purpose and substance and significance. And I know how to do that. I know how to help them. BRAVE THINKING provides the code to a very different kind of thinking. Either one opens the doors to a potential that is something we are in love with, or something we fear. The purpose of this book is to provide very concrete direct clear simple understandings. Such as the world was flat or other kinds of commonplace thinking and help them recognize how much of that has governed their lives or the lives of people they know. It will show examples of people who dared to think beyond the boundaries of ordinary thinking and who dared to learn a new system of thinking. Rather than being condition based in a way of living life, they began to live a life that is vision-driven. And they came from a vision rather than living from circumstance. Most people think that when the circumstances change, i\$then I can make a new decision, "then I can have something" "then I can be something," "then I can do something." What if it's just the opposite? When you watch your television, and there are other common examples we'll use, when you turn on a TV, the picture you are seeing comes from the frequency that your tuner is tuned to. And when you go to a movie theater, the dancing images on the screen are simply reflections of the light passing through the film that's held before the projector.

wellness coach certification california: Keto-Adapted Maria Emmerich, 2013-12-09 A ketogenic diet isn't something new that has been recently formulated; people have been on a ketogenic diet for virtually three million years in which our brains were nurtured and evolved. Now the human brain is not only shrinking, but brain atrophy is the norm as we age and get plagued with diseases such as dementia, Alzheimer's disease and Parkinson's disease. People mistakenly think that they need to eat less and exercise more to create a calorie deficit in order to lose weight. This is not how diet and exercise helps with weight loss. A well-formulated keto-adapted diet along with proper exercise builds muscle and muscle builds mitochondria. It is in the mitochondria where fat is oxidized so you can keep your cells and liver insulin sensitized. Weight loss and health is about healthy mitochondria and about controlling hormones and specifically insulin. This is not a diet, it is a lifestyle. By eating this way, you will begin to heal your cells and will keep evolving your body into the happy and healthy person you want to be. This book is filled with the most impeccable nutrition information to fuel your cells. Maria's passion goes beyond explaining the 'why', she is a master in the kitchen and loves food. Her keto-adapted recipes at the end of the book tie all the nutrition together so you can become keto-adapted faster than ever.

wellness coach certification california: State of The Global Workplace Gallup, 2017-12-19 Only 15% of employees worldwide are engaged at work. This represents a major barrier to productivity for organizations everywhere – and suggests a staggering waste of human potential. Why is this engagement number so low? There are many reasons — but resistance to rapid change is a big one, Gallup's research and experience have discovered. In particular, organizations have been slow to adapt to breakneck changes produced by information technology, globalization of markets for products and labor, the rise of the gig economy, and younger workers' unique demands. Gallup's 2017 State of the Global Workplace offers analytics and advice for organizational leaders in countries and regions around the globe who are trying to manage amid this rapid change. Grounded in decades of Gallup research and consulting worldwide -- and millions of interviews -- the report advises that leaders improve productivity by becoming far more employee-centered; build strengths-based organizations to unleash workers' potential; and hire great managers to implement the positive change their organizations need not only to survive – but to thrive.
