ECPPM 2006* Manuel Martinez, Raimar Scherer, 2006-08-24 The task of structuring information on built environment has presented challenges to the research community, software developers and the industry for the last 20 years. Recent work has taken advantage of Web and

industry standards such as XML, OWL, IFC and STEP. Another important technology for the fragmented AEC industry is digital communication. Wired or wireless, it brings together architects, engineers and construction site workers, enabling them to exchange information, communicate and work together. Virtual enterprise organization structures, involving mobile teams over distance, are highly compatible with the needs of the construction industry.

You're determined to get it published, but you just can't seem to do it by yourself. You need an ally. You need a champion. You need an agent. Enter Rick Frishman and Robyn Freedman Spizman, with this second volume in the AUTHOR 101 series. In *Bestselling Secrets from Top Agents*, writing gurus Rick and Robyn reveal what makes a good agent, what a good agent will and won't do for you, and how to find the right type of agent-not just for your first book, but for your entire career.

xpress wellness ardmore ok: Pediatric and Adolescent Obstetrics and Gynecology J.P. Lavery, J.S. Sanfilippo, 2012-12-06 This book covers a broad area-the problems associated with female development-from the appearance of gender abnormalities in the delivery room, through the trials of pubescence, early maturation, and precocious child bearing. Experts from many diverse fields of scholarship have contributed chapters covering a wide range of subjects. The contributors have concentrated on their areas of expertise. The broad range of this book is unique; no other textbook covers as many areas. The diversity of subjects covered will help the reader (gynecologist, pediatrician, nurse, health counselor, social worker, or psychologist) to understand both the physical and psychological problems which beset the female, from birth to adolescence. Because of the wealth of information presented, we hope that this volume will serve as a reference source and as a basis for further in-depth studies. The editors wish to express sincere thanks for the efforts above and beyond the call of duty on the part of many members of our staff. A special thank you to Carrie Marcell R.N., our research nurse and University of Louisville coordinator for this project, for her time and effort in putting up with the vagaries of the editors; and to Betty Jones and Linda Gear for their fine secretarial work. Special recognition is due Sue Koenig, whose patience with us in adapting the text to our word processor made our job a great deal easier.

xpress wellness ardmore ok: Visionary Parenting: Capture a God-Sized Vision for Your Family Rob Rienow, 2009-09-01 The author gives encouragement and insight into life-changing action that will impact generations to come. Parents will be inspired to build faith and character in the heart of their kids. Topics covered include: the God-filled normal life, impacting a thousand generations, creating a home of unity, the noble calling of fatherhood and motherhood, the blessing of family worship, and discipline that disciplines.

xpress wellness ardmore ok: The Humane Economy Wayne Pacelle, 2016-04-19 A major new exploration of the economics of animal exploitation and a practical roadmap for how we can use

the marketplace to promote the welfare of all living creatures, from the renowned animal-rights advocate Wayne Pacelle, President/CEO of the Humane Society of the United States and New York Times bestselling author of *The Bond*. In the mid-nineteenth century, New Bedford, Massachusetts was the whaling capital of the world. A half-gallon of sperm oil cost approximately \$1,400 in today's dollars, and whale populations were hunted to near extinction for profit. But with the advent of fossil fuels, the whaling industry collapsed, and today, the area around New Bedford is instead known as one of the best places in the world for whale watching. This transformation is emblematic of a new sort of economic revolution, one that has the power to transform the future of animal welfare. In *The Humane Economy*, Wayne Pacelle, President/CEO of the Humane Society of the United States, explores how our everyday economic decisions impact the survival and wellbeing of animals, and how we can make choices that better support them. Though most of us have never harpooned a sea creature, clubbed a seal, or killed an animal for profit, we are all part of an interconnected web that has a tremendous impact on animal welfare, and the decisions we make—whether supporting local, not industrial, farming; adopting a rescue dog or a shelter animal instead of one from a “puppy mill”; avoiding products that compromise the habitat of wild species; or even seeing Cirque du Soleil instead of Ringling Brothers—do matter. *The Humane Economy* shows us how what we do everyday as consumers can benefit animals, the environment, and human society, and why these decisions can make economic sense as well.

xpress wellness ardmore ok: **Probiotic Foods Vs Commercial Probiotics** Becky Plotner, 2019-05-08 We live in a world where everyone is sick. Our intestinal flora has taken a beating and our health symptoms show the suffering. Rebuilding that flora is done by supporting the microbiome in a manner specific to what each person needs. Using commercial probiotics and food-based probiotics is becoming commonplace, knowing which one to use when and how to use each, is a different story. Finding the answers can be like finding a penny in a pond, it's there but if you don't know where to look, you could be wasting a lot of time and money. The market is getting flooded with commercial probiotics. Some are amazingly healthy, but others are filled with ingredients which feed the pathogens, something we want to avoid. Learn the tricks manufacturers are using to make sales instead of healthy customers. It makes no sense to spend nearly a hundred dollars on a product that is supposed to feed the good gut flora when it contains filler ingredients which act as antibiotics. Taking a probiotic at the same time you take an antibiotic is a waste of money. Learn what to look for and how to know what ingredients to avoid. The money you save will be remarkable. In this well cited book *Probiotic Foods vs Commercial Probiotics* learn which probiotics are the strongest, what order they should be taken in and how to properly dose each one. Learn how to become your own best health advocate knowing which fits your situation at each given time, commercial brand probiotics or food-based probiotics. Learn what to do in each situation you encounter including MRSA, eczema, STAPH, C.diff., the common cold or the yearly flu. Your health deserves it! Health is not about spinning your wheels, wasting time waiting around and missing school or work. It's about listening to your body and supporting it correctly, because when you support your body correctly, it can repair itself. Take charge of your health and learn what to do to support your system. There is no excuse, feeling bad isn't something that just happens, it's something we just need to know how to handle.

xpress wellness ardmore ok: *I Got Magic in My Bow* Keoki Cooper-Anderson, 2021-12-20

xpress wellness ardmore ok: **This Wooden 'O'** Barry Day, 1998 The story of one man's dream fulfilled, *This Wooden O* tells of American actor Sam Wanamake's efforts to reconstruct Shakespeare's Globe Theater. A tale of intrigue and bitter rivalry, it reads more like a political thriller than a slice of recent theatrical history. -Time Out (London) ...an extraordinary document of

human endeavor. When I got to the final pages I found there were tears running down my face.

-Rosemary Harris

xpress wellness ardmore ok: Electric Line Construction , 1945

xpress wellness ardmore ok: Megahoax Gale Cooper, 2010-05-21 This huge book exposes and spoofs the biggest historic-forensic hoax ever perpetrated. Fabricating that Sheriff Pat Garrett had not shot Billy the Kid, but had killed an innocent victim for his grave, the hoaxers went on an exhumation rampage. The hoaxers were a seated governor, his major political donor, sheriffs and deputies, a university professor, a U.S. Marshals Service employee, and a nationally known forensic expert - all ignoring actual historians. The hoaxers were after publicity. The governor thought it would help his 2008 presidential bid; and his donor got the hijacked history as weird pay-to-play. The author was the hoaxers' nightmare: an M.D. forensic consult, and a Billy the Kid expert willing to fight. The book has the hoaxbusting story, as well as hoax documents and a bibliography of investigative sources.
