answer me 1997 drama: Transgression in Korea Juhn Young Ahn, 2018-02-26 Since the turn of the millennium South Korea has continued to grapple with transgressions that shook the nation to its core. Following the serial killings of Korea's raincoat killer, the events that led to the dissolution of the United Progressive Party, the criminal negligence of the owner and also the crew members of the sunken Sewol Ferry, as well as the political scandals of 2016, there has been much public debate about morality, transparency, and the law in South Korea. Yet, despite its prevalence in public discourse, transgression in Korea has not received proper scholarly attention. Transgression in Korea challenges the popular conceptions of transgression as resistance to authority, the collapse of morality, and an attempt at self-empowerment. Examples of transgression from premodern, modern, and contemporary Korea are examined side by side to underscore the possibility of reading transgression in more ways than one. These examples are taken from a devotional screen from medieval Korea, trickster tales from the late Chosŏn period, reports about flesh-eating humans, newspaper articles about same-sex relationships from colonial Korea, and films about extramarital affairs, wayward youths, and a vengeful vigilante. Bringing together specialists from various disciplines such as history, art history, anthropology, premodern literature, religion, and film studies, the context-sensitive readings of transgression provided in this book suggest that transgression and authority can be seen as forming something other than an antagonistic relationship.

answer me 1997 drama: Making Publics in Early Modern Europe Bronwen Wilson, Paul Yachnin, 2011-07-21 The book looks at how people, things, and new forms of knowledge created publics in early modern Europe, and how publics changed the shape of early modern society. The focus is on what the authors call making publics — the active creation of new forms of association that allowed people to connect with others in ways not rooted in family, rank or vocation, but rather founded in voluntary groupings built on the shared interests, tastes, commitments, and desires of individuals. By creating new forms of association, cultural producers and consumers challenged dominant ideas about just who could be a public person, greatly expanded the resources of public life for ordinary people in their own time, and developed ideas and practices that have helped create the political culture of modernity. Coming from a number of disciplines including literary and cultural studies, art history, history of religion, history of science, and musicology, the contributors develop analyses of a range of cases of early modern public-making that together demonstrate the rich inventiveness and formative social power of artistic and intellectual publication in this period.

answer me 1997 drama: VAMPIRE HUSBAND and THE AMERICAN JUSTICE Paru Shiva, 2014-05 This book is about a woman who had come to America from Kashmir India. She had no knowledge about American culture or American Justice System. She was married in India and her husband brought her to America. In America her husband started abusing her. Being culturally abound, she kept taking abuse on daily basis and kept lying about her bruises and cuts to those who were asking her questions about her injuries. Abuse got worst to the extent that one day her husband tried to kill her. She gained her consciousness after couple of hours when her husband decided to dump her body in the park. Somehow in the morning she managed to escape with her two children. She went to a woman's shelter where she lived for six months. In the shelter they insisted that she had to go to the court to get restraining order for her safety. In that process, her children were taken by the court and were given to that abusive man from whom they had a narrow escape. She was forced to pay child support when she had not taken even a one cent from her home or from her husband after she left. Her two children were given to their father because she was going to school. Judge punished her and her two children for trying to establish their life. Her Children suffered the most because of the Justice System. I wrote this book for two reasons One reason is to tell my children especially my son that I am very sorry for taking my case to American Justice System because his father has kept him in fear. Even my son is adult now but his father is still treating my son like he was treating me and my son is kept in a lot of fear, stress and extreme tension. His father didn't let him complete his education. If he had encouraged my son to complete his education, then he wouldn't be able to control my son's life. That is tearing my heart every day. And second reason is that I want to help a Battered Woman and their children by telling them my story. I was a very private person but that didn't help me. Every battered woman of this country should know that when a man hit his wife is not love. It is a danger sign figure out on time about safety zones for self and for children. My story will guide them to be strong enough to help their children.

answer me 1997 drama: Good Will Hunting Ben Affleck, Matt Damon, 1997-12-25 As director Gus Van Sant observes in the introduction to Matt Damon's and Ben Affleck's screenplay Good Will Hunting, the two young actors somewhat resemble the characters they play in the film: they're best friends, and Affleck (who plays Chuckie) habitually chauffeurs Damon (Will), who doesn't drive. Van Sant says we can see how badly Damon drives by watching the film's last scene, in which he is actually driving the car with the camera mounted on it. But Damon and company write better than he drives; this script contains some of the boldest, best monologues since Pulp Fiction. Van Sant and cast member Robin Williams helped the young actors tame the tigers in their cranial tanks, trimming the script into a precision instrument. Though the stills from the film are not perfectly matched to their places in the script, this story remains as much a joy to read as it is to watch on the big screen.

answer me 1997 drama: American Documentary Filmmaking in the Digital Age Lucia Ricciardelli, 2014-11-20 American Documentary Filmmaking in the Digital Age examines the recent challenges to the conventions of realist documentary through the lens of war documentary films by Ken Burns, Michael Moore, and Errol Morris. During the twentieth century, the invention of new technologies of audiovisual representation such as cinema, television, video, and digital media have transformed the modes of historical narration and with it forced historians to assess the impact of new visual technologies on the construction of history. This book investigates the manner in which this contemporary Western crisis in historical narrative is produced by a larger epistemological shift in visual culture. Ricciardelli uses the theme of war as depicted in these directors' films to focus her study and look at the model(s) of national identity that Burns, Morris, and Moore shape through their depictions of US military actions. She examines how postcolonial critiques of historicism and the advent of digitization have affected the narrative structure of documentary film and the shaping of historical consciousness through cinematic representation.
