ayr wellness goshen ohio: Being and Becoming Franklyn Sills, 2008-09-23 Being and Becoming is a wide-ranging analysis of the nature of being and selfhood. The book presents an original, integrated paradigm with the aim of creating a comprehensive overview of the human condition—and finding ways to alleviate suffering. In essence, the book explores the question, “What does it mean to be?” Being and Becoming begins with fresh interpretations of the work of Martin Heidegger and Buddhist, Taoist, and Christian writings as they relate to this question. Most of Being and Becoming, however, is about the nature of self and selfhood as a process of “I-am-this,” “my becoming” rather than “my being.” Author Franklyn Sills interweaves concepts from object relations theories, psychodynamics, pre- and perinatal psychology, and Buddhist self-psychology, along with his own rich experience as a Buddhist monk, somatic therapist, and psychotherapist, into his inquiry. The works of Fairbairn and Winnicott are discussed in depth, as are Winnicott and Stern’s insights into the nature of the early holding environment, the infant-mother relational field, and early perceptual dynamics. A thoughtful guide for psychologists, therapists, counselors, and other health professionals, the book is also ideal for Buddhists and anyone looking for alternative therapy models.

ayr wellness goshen ohio: Hetty Charles Slack, 2011-04-05 This acclaimed biography of the Gilded Age's Queen of Wall Street is "a must-read for all aspiring moguls" (Regina Herzlinger, Harvard Business School). When J. P. Morgan called a meeting of New York's financial leaders after the stock market crash of 1907, Hetty Green was the only woman in the room. The Guinness Book of World Records memorialized her as the World's Greatest Miser, and, indeed, this unlikely robber baron—who parlayed a comfortable inheritance into a fortune that was worth about 1.6 billion in today's dollars—was frugal to a fault. But in an age when women weren't even allowed to vote, never mind concern themselves with interest rates, she lived by her own rules. In Hetty, Charles Slack reexamines her life and legacy, giving us, at long last, a splendidly "nuanced portrait" (Newsweek) of one of the greatest—and most eccentric—financiers in American history. This P.S. edition features an extra 16 pages of insights into the book, including author interviews, recommended reading, and more. "[Hetty's] wry wit and colorful personality bring humor and pathos to this story. . . . [R]eaders cannot help from cheering for her at every turn." —Booklist "An exemplary retelling for a new generation." —Kirkus Reviews "Entertaining. . . . Slack . . . concentrates on telling a good story and telling it well." —Publishers Weekly "Wonderfully detailed." —Forbes "Page-turning." —Richmond Times-Dispatch "Fascinating." —New York Post

ayr wellness goshen ohio: Herding Donkeys Ari Berman, 2010-09-28 After the 2004 election, the Republican Party held the White House, both houses of Congress, twenty-eight governorships, and a majority of state legislatures. One-party rule, it seemed, was here to stay. *Herding Donkeys* tells the improbable tale of the grassroots resurgence that transformed the Democratic Party from a lonely minority to a sizable majority. It chronicles the inside story of Howard Dean's visionary yet deeply controversial fifty-state strategy, charting his unpredictable journey from insurgent presidential candidate, to front-running flameout, to chairman and conscience of the Democratic Party in an unexpected third act. Ari Berman reveals how the Obama campaign built upon Dean's strategy when others ridiculed it, expanding the ranks of the party and ultimately laying the groundwork for Obama's historic electoral victory—but also sowing the seeds of dissent that would lead to legislative stalemate and intraparty strife. Revelatory and entertaining, in the vein of Timothy Crouse's *The Boys on the Bus* and Rick Perlstein's *Nixonland*, *Herding Donkeys* combines fresh reportage with a rich and colorful cast of characters. It captures the untold stories of the people and places that reshaped the electoral map, painting a vivid portrait of a shifting country while dissecting the possibility and peril of a new era in American politics.

ayr wellness goshen ohio: Kumba Africa Sampson Ejike Odum, 2020-11-03 'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.

ayr wellness goshen ohio: The Day Lincoln Was Shot Jim Bishop, 2013-10-22 *The Day Lincoln Was Shot* is a gripping, minute-by-minute account of April 14, 1865: the day President Abraham Lincoln was tragically assassinated. It chronicles the movements of Lincoln and his assassin John Wilkes Booth during every movement of that fateful day. Author and journalist Jim Bishop has fashioned an unforgettable tale of tragedy, more gripping than fiction, more alive than

any newspaper account. First published in 1955, *The Day Lincoln Was Shot* was a huge bestseller, and in 1998 it was made into a TNT movie, with Rob Morrow as Booth.

ayr wellness goshen ohio: Yvain Chrétien de Troyes, 1987-09-10 The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, *Yvain*, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. *Yvain* is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

ayr wellness goshen ohio: Out Of Africa Isak Dinesen, 2014-06-03 In *Out of Africa*, author Isak Dinesen takes a wistful and nostalgic look back on her years living in Africa on a Kenyan coffee plantation. Recalling the lives of friends and neighbours—both African and European—Dinesen provides a first-hand perspective of colonial Africa. Through her obvious love of both the landscape and her time in Africa, Dinesen's meditative writing style deeply reflects the themes of loss as her plantation fails and she returns to Europe. ayr wellness goshen ohio: Cultural Minds Giyoo Hatano, James V. Wertsch, 2001-01-01 This special issue proposes an alternative to traditional individualistic approaches to the development of mind, that might generally be called sociocultural approaches and focus on the institutional, cultural, and historical specificity of mental functioning rather than on universals. All socioculturalists agree that (a) interaction with other people and artifacts plays an important role in learning and in the development of mind, and (b) what occurs in the micro-environment in which individual learning is observed is affected by larger contexts, both at community and global levels. This publication offers some theoretical and empirical discussion about the constitution of culture in mind. Developmentalists belonging to the mainstream will profit from this special issue as well as those who have found sociocultural approaches interesting but who are yet to embody their inspiration into research enterprise.
