Unlocking Secrets: The Basics of Handwriting Analysis

Introduction:

Have you ever been captivated by someone's unique script? Beyond mere legibility, handwriting holds a fascinating window into personality, emotions, and even subconscious thoughts. This comprehensive guide delves into the basics of handwriting analysis, also known as graphology, providing you with the foundational knowledge to decipher the nuances of written communication. We'll explore key elements, from letter size and slant to spacing and pressure, enabling you to interpret handwriting with greater accuracy and understanding. Get ready to unlock the secrets hidden within the strokes of a pen!

1. Understanding the Fundamentals: What is Graphology?

Graphology is the study of handwriting to assess personality traits, emotional states, and cognitive patterns. It's not about predicting the future or diagnosing psychological disorders; instead, it's a tool for gaining insightful perspectives on individuals based on their unique writing style. It's important to approach graphology with a critical and nuanced perspective, understanding its limitations and using it as one piece of a larger puzzle of understanding human behavior.

2. Analyzing the Size and Shape of Letters: A Window to Self-Perception

The size of your letters reveals a lot about your self-perception and how you present yourself to the world.

Large Letters: Often indicate extroversion, confidence, and a desire for attention. Individuals with large handwriting might be assertive and enjoy being the center of attention.

Small Letters: Can suggest introversion, shyness, and a preference for quiet observation. These individuals may be detail-oriented and prefer working independently.

Uniform Letter Size: Suggests consistency, balance, and a well-organized approach to life.

Varying Letter Size: Can point to adaptability, spontaneity, and a willingness to embrace change.

The shape of letters also provides valuable information. Angular letters often reflect a logical and analytical mind, while rounded letters may indicate a more emotional and creative personality. Observe the overall consistency in letter shapes. Are they consistently rounded, angular, or a mix? Inconsistency can suggest a lack of focus or emotional volatility.

3. Deciphering the Slant: Uncovering Emotional Expression

The slant of your handwriting reveals much about your emotional expression and approach to interactions.

Rightward Slant: Generally associated with extroversion, enthusiasm, and a willingness to engage emotionally. These individuals tend to be expressive and readily share their feelings.

Leftward Slant: Often indicates introversion, reservedness, and a tendency to keep emotions private. These individuals might be more analytical and less outwardly expressive.

Vertical Slant: Suggests balance, objectivity, and a controlled emotional expression. They are often seen as calm, rational, and reserved.

Variable Slant: A fluctuating slant can indicate emotional instability, inconsistency, or a lack of self-awareness.

The degree of slant is also important. A pronounced slant reveals stronger emotional tendencies, while a slight slant indicates more subtle emotional expression.

4. Exploring Spacing: Understanding Relationships and Boundaries

Spacing in handwriting offers insights into interpersonal relationships and personal boundaries.

Word Spacing: Wide spacing between words often indicates independence, a need for personal space, and a desire for freedom. Close spacing might suggest a need for closeness and connection.

Line Spacing: Wide spacing between lines suggests an organized and deliberate approach, while close spacing might indicate a tendency to be rushed or overwhelmed.

Margin Spacing: Large margins usually point to creativity and a broad perspective. Narrow margins often suggest a focus on details and a need for structure.

The consistency or inconsistency of spacing reveals much about a person's ability to manage space both literally and figuratively in their lives. Notice if the spacing is even or erratic, hinting at either a balanced personality or one susceptible to mood swings.

5. Pressure and Stroke: Unraveling Energy Levels and Confidence

The pressure applied to the pen reveals insights into energy levels and self-confidence.

Heavy Pressure: Often indicates strong emotions, determination, and a forceful personality. These individuals are often passionate and driven.

Light Pressure: May suggest sensitivity, a delicate nature, and a tendency to avoid conflict.

Variable Pressure: Fluctuating pressure often points to emotional instability or inconsistent energy levels.

Examine the stroke itself. Are the lines smooth and continuous, or are they shaky and hesitant? Smooth strokes suggest confidence and control, while shaky lines might indicate nervousness or anxiety.

6. Connecting Letters: Unveiling Thought Processes

The way letters connect to each other reveals aspects of one's thought processes and cognitive style.

Connected Letters: Usually indicates a fluid, spontaneous, and associative thinking process.

Disconnected Letters: Often suggests a more deliberate, analytical, and methodical approach to thinking.

Analyze the fluency of the connections. Are they smoothly connected, or are there abrupt breaks? Smooth connections point to an easy flow of ideas, while abrupt changes might indicate a fragmented or interrupted thought process.

7. Beyond the Basics: Advanced Graphological Concepts

While this guide covers the fundamentals, graphology encompasses a much wider range of elements, including:

Signature Analysis: A separate and often more revealing analysis focusing on the conscious self-presentation.

Zone Analysis: Analyzing the upper, middle, and lower zones of writing to understand different aspects of personality (intellectual, emotional, and instinctive).

Individual Letter Analysis: A deeper dive into the specific shapes and formations of individual letters.

These advanced aspects require more in-depth study and practice.

8. Ethical Considerations in Graphology

It is crucial to remember that graphology is not a definitive or predictive tool. It should be used ethically and responsibly, acknowledging its limitations. Never use graphological analysis to make critical judgments about someone without their informed consent.

9. Practice Makes Perfect: Developing Your Graphological Skills

Mastering the basics of handwriting analysis requires practice and observation. Analyze various

handwriting samples, compare your findings with the personalities of the writers (if known), and refine your skills through continued study and exposure.

Book Outline: "Unlocking the Secrets of Script: A Beginner's Guide to Handwriting Analysis"

I. Introduction: What is Graphology? Its history and limitations.

II. Fundamental Elements:

Letter Size and Shape

Slant Analysis

Spacing: Word, Line, and Margin

Pressure and Stroke: Heavy, Light, and Variable

Connecting Letters: Connected vs. Disconnected

III. Interpreting Patterns: Combining elements for a holistic analysis.

IV. Advanced Concepts:

Signature Analysis

Zone Analysis

Individual Letter Analysis

V. Ethical Considerations and Responsible Practice

VI. Practical Exercises and Case Studies

VII. Conclusion: Continuing your graphology journey.

(Detailed explanation of each point in the outline would follow here, mirroring the content already provided in the main article. This would significantly increase the word count beyond the 1500-word requirement.)

FAQs:

1. Is graphology a scientifically proven method? While graphology has a long history, its scientific validity is debated. Its accuracy depends heavily on the skill and experience of the analyst.

1. Can graphology predict the future? No, graphology does not predict the future. It analyzes personality traits and patterns based on existing handwriting.

1. What are the limitations of graphology? Graphology can be subjective; results vary among

analysts. It shouldn't be used in isolation for making significant decisions.

1. How long does it take to learn graphology? Basic understanding can be achieved quickly, but mastering the art takes time, practice, and continued learning.
1. Can I use graphology to assess children's handwriting? While possible, interpreting children's handwriting requires special consideration, as their writing style is still developing.
1. Can I learn graphology online? Yes, many online resources, courses, and books teach the basics and advanced concepts of graphology.
1. Is graphology used in forensic science? While not a primary tool, graphology might be used as supplementary evidence in some forensic investigations.
1. Is there a certification for graphologists? Several organizations offer certifications, but there's no universally recognized standard.
1. Can I use graphology in my career? Graphology can be a valuable tool in fields like human resources, counseling, and personal development, but its use should be ethical and informed.

basics of handwriting analysis: Reading Between the Lines P. Scott Hollander, 1991 Read and follow the procedures in this book and you will come away with the ability to take any sample of handwriting and do a complete analysis of character and personality. You may even go forward to use the skill as a professional tool, or as the basis for a profession. This self-teaching textbook teaches how to analyze handwriting, how to counsel others, and how best to use the subject once learned.

basics of handwriting analysis: Handwriting Analysis Karen Kristin Amend, Mary Stanbury Ruiz, 2000-06-19 Learn the many ways handwriting can reveal personality traits in this comprehensive introduction to graphology. In Handwriting Analysis, graphology expert Karen Kristin Amend offers a fresh approach to the principles of graphology. Covering all aspects of

handwriting, from size and spacing to pace and form quality, this book is designed to help readers learn the skills of whole-person profiling. Amend demonstrates how to determine various personality traits ranging from mood to moral character, self-confidence, and emotional needs. She also shows how to detect emotional disturbance or mental illness. With new material for understanding the significance of the writing rhythm, this volume also provides handwriting samples of famous people.

basics of handwriting analysis: Handwriting Analysis Andrea McNichol, Jeffrey A. Nelson, 1994-09-22 Shows how to analyze handwriting traits, including slant, spacing, baseline, and connecting strokes, and discusses practical uses.

basics of handwriting analysis: **Handwriting Analysis** Chris Morgan, 1996-03 A step-by-step approach to learning the secrets of handwriting analysis with over 100 handwriting samples individually examined.

basics of handwriting analysis: **The Definitive Book of Handwriting Analysis** Marc Seifer, 2008-11-01 The Definitive Book of Handwriting Analysis is a must for all serious students of graphology. —Iris Hatfield, Professional Graphologist, HuVista International The complete guide to graphology from the winner of Flandrin-Michon AHAF President's Lifetime Achievement Award by the American Handwriting Analysis Foundation The ability to write by hand is a pinnacle of human achievement. As a form of self-expression, handwriting reflects a person's thoughts about the self and reveals aspects of a person's personality. Written in a step-by-step fashion, The Definitive Book of Handwriting Analysis begins with the history of the field and then teaches you how to analyze any handwriting, starting with objective criteria, including variables such as organization, speed, size, shape, slant, and symbolic features. Then you learn how to combine these variables to create a full personality profile. There are more than 100 handwriting samples, including those from Paul Newman, Bill Clinton, Marlon Brando, Donald Trump, Sigmund and Anna Freud, Thomas Edison, Osama bin Laden, Jacqueline Kennedy, Bruce Springsteen, Benito Mussolini, Napoleon, Michael Jackson, Robert Redford, Barak Obama, and Charles Darwin. Part II discusses how handwriting is organized by the brain and includes many examples of the link between handwriting and various illnesses and brain disorders, from dyslexia and epilepsy to stroke and coma. It ends with a discussion of the link between different personality types, their brain organization, and their handwriting. Part III is an in-depth look at the field of questioned documents, including such topics as free-hand forgeries, tracing, disguised handwriting, and anonymous notes. It features an in-depth discussion of how forgeries are created and how they are detected. If you are interested in any aspect of this topic, The Definitive Book of Handwriting Analysis is definitely the book you need!

basics of handwriting analysis: *Handwriting Psychology* Dr. Helmut Ploog, 2013-01-14 If you find yourself called on to judge people on a regular basis, you need all the tools at your disposal to do your job right. Handwriting psychology offers one practical method for helping you learn what you need to learn about your subject quickly. Whether you are a teacher, psychologist or manager, you can benefit from the guidance of Dr. Helmut Ploog, a handwriting expert. Learn what the size and width of handwriting can reveal about a person, as well as what more muted features—such as slant, spacing, and direction of lines—can make clear. Written in plain English, this guidebook presents pithy explanations of handwriting movements, which may be angular or round, long or short, heavy or light, high or deep below the base line. It also offers analyses of the handwriting of many well-known people, including Charles Darwin, Anne Frank, Paul Getty, Allen Ginsberg, Ernest Hemingway, Frida Kahlo, Somerset Maugham, Pablo Picasso, Pope Benedict, Vladimir Putin, Maurice Ravel, Carl Rogers, and Susan Sontag. Handwriting Psychology should never be used by itself to judge someone, but it can serve as an essential tool to make and confirm observations that could change your life, your career, and your approach to life.

Insurance Policy Money Can't Buy Trust is a very powerful thing. But in today's world, it can be hard to decide who you can trust and who you can't. Have you ever had nagging doubts when you left your car at the mechanic? Or wondered how responsible your child's babysitter really is? Do you ever wonder if you can really trust your friends, your co-workers... or the people you date? You already know how easy it can be to get hurt, taken advantage of, or used by people whom you thought you could trust - simply because it's so easy for people to lie and mislead you. But you don't have to put yourself (or your family) at risk anymore! There is an amazingly accurate way for you to discover people's TRUE character - within seconds - and protect yourself from trouble. And the best part is... No One Can Hide From This... Handwriting Analysis is one of the most effective and powerful ways for you to uncover someone's true character and find out their real personality. Within seconds you can look at anyone's handwriting and instantly know everything they think and everything they feel. You can uncover the dark little secrets they try to hide - and you can learn which people you can trust. Discover which friends you can always depend on... (and which friends you should never confide in!) Finally find an honest car mechanic, electrician, plumber, or contractor... (This will save you big money!) Learn about your child's teachers, babysitters, and care-giver's true personalities - and rest easy knowing you are surrounding your child with the best people possible. Know someone's true feelings and intentions before you start a relationship, accept a date, or get married. Find out the truth about the people you work with, the people in your community, and even your own neighbors. With this book, anyone can learn how to analyze handwriting. It's simple to get started and even easier to put it to work for you. If you're ready to give yourself the best insurance policy ever and start protecting yourself from all the wrong people... get this book today!

basics of handwriting analysis: Your Handwriting Can Change Your Life Vimala Rodgers, 2013-04-16 When we purposefully change our handwriting, we introduce attitudes that can improve our relationships, give us the impetus to achieve and take risks, and simply bring out the best in us. This is because our handwriting is a reflection of our innermost thoughts and feelings. When we fall in love, survive a serious illness, or change careers, our view of life is dramatically altered and, as a result, our handwriting patterns change. Conversely, desired transformations can result from intentionally changing the way specific letters are written: * Stick to that diet by changing the letter T. * Avoid being overlooked for that well-deserved promotion by changing the letter G. * Reduce stress and cease juggling too many things at once by changing the letter S. * Overcome shyness or stage fright by changing the letter A. Included is an enlightening assessment test that identifies those personality traits requiring attention. Your Handwriting Can Change Your Life profoundly reveals that the key to making dreams come true is as simple as putting pen to paper.

basics of handwriting analysis: *The Power of Handwriting Analysis* Pradnyaa Sourabh Parikh, 2016-11-27

basics of handwriting analysis: Huber and Headrick's Handwriting Identification Heidi H. Harralson, Larry S. Miller, 2017-12-14 Forensic document examination is the study of physical evidence and physical evidence cannot lie. Only its interpretation can err. Only the failure to find it, or to hear its true testimony can deprive it of its value.—Roy Huber This is a comprehensive update of Huber and Headrick's seminal work on handwriting examination. New coverage includes a review of forensic handwriting examination research, handwriting analysis training and proficiency, revised methods and procedures, an updated listing and clarification of terminology and electronic signatures, the analysis of digitized handwriting, and other related technological advances. The book includes updated photographs, several added illustrations, and advances in techniques based on the scientific research conducted in the area over the last 20 years. Features of the new edition include: The latest on electronic signatures, digital handwriting, automated handwriting verification, and the many advances in technology and research over the last two decades An overview of the fundamentals of handwriting examination with updated discussion of the intrinsic and extrinsic variables associated with handwriting identification A review of the criticism of handwriting expert opinions and methodology, addressing both the strengths and scientific limitations of the area Fully

revised while remaining true to the spirit and approach of original authors Roy Huber and A. M. Headrick Addition of nearly 200 new references and new glossary terms representing advances in research and methods. With extensive photographs to help clearly illustrate concepts, Huber and Headrick's *Handwriting Identification: Facts and Fundamentals*, Second Edition serves as an invaluable reference to law libraries, practicing document examiners, forensic and criminal justice students, and every lawyer handling cases in which the authenticity of handwriting and documents might be disputed.

basics of handwriting analysis: Analyze Your Handwriting: Learn the Basics of Graphology Melissa Alvarez, 2011-02-03 We are each distinctive individuals with unique styles of writing. Our handwriting is a tangible extension of our inner selves. Have you ever wondered what your handwriting says about you? With a basic understanding of handwriting analysis you can discover more about yourself and those around you. Graphology is the analysis of a handwriting sample. Graphologists can tell when someone is loyal, excitable or hiding something just from slight nuances in writing. Would you like to learn to do this too? Once you know the basics you will never look at handwriting in the same way again. With *Analyze Your Handwriting*, you can learn the fundamental skills necessary to determine if you will be compatible with another person, if someone is trustworthy and individual personality characteristics. It is an exciting, fun tool that you can use on a daily basis.

basics of handwriting analysis: Handwriting Analysis Bart A. Baggett, 2005-06-01

basics of handwriting analysis: **Handwriting Analysis** Baruch Lazewnik, 1991-03-01 *Handwriting Analysis: A Guide to Understanding Personalities* is a fascinating and revealing look at handwriting as a window to behavior. In thirteen chapters of well-written text and more than 100 writing samples, the basics and the finer nuances of handwriting analysis are illustrated and interpreted. Samples from well-known celebrities and public figures from various professions, as well as persons with particular problems and illnesses, are reviewed with clarity and sensitivity. Personalities of the famous and infamous are revealed through chapters covering contemporary novelists, criminals, upright citizens, cloak-and-dagger operators, geniuses, entertainers, and others.

basics of handwriting analysis: Graphology for Beginners Richard Craze, 1994 This is an introduction to the science of graphology which contains the information needed to enable the interested reader to make a comprehensive analysis of someone's handwriting in an attempt to reveal the inner or hidden person. The book includes about 90 handwriting samples that illustrate the important features to look out for, starting with first impressions (choice of pen, ink and margins) and going on to more detailed analysis (dominant traits, slants and spacing) and ending with signatures.

basics of handwriting analysis: **The Complete Idiot's Guide to Handwriting Analysis** Sheila R. Lowe, 1999 Explains how to use handwriting analysis to understand character, personal values, love issues, and career ambitions

basics of handwriting analysis: Handwriting Analysis Self-taught Joel Engel, 1980 Demonstrates, through the analysis of samples from the handwriting of famous people, how to determine facts about yourself and others.

basics of handwriting analysis: **The Complete Idiot's Guide to Handwriting Analysis, 2nd Edition** Sheila Lowe, 2007-01-02 It's all there in black and white The most popular book on this amazing discipline, this volume shows readers how to analyze almost any handwriting sample and understand the special characteristics of the writer's personality. Drawing upon 30 years of experience as a professional graphologist, Sheila Lowe clearly explains what every squiggle and dot says about a person. From Kurt Cobain and Jimmy Smits to Ronald Reagan and Bill Clinton, this new edition is filled with hundreds of real examples of handwriting to illustrate how handwriting indicates a person's most basic and intimate traits. --Hundreds of new handwriting examples --Up-to-the-minute information about graphology computer programs --Fascinating anecdotes about graphology's role in criminal justice

basics of handwriting analysis: Between the Lines Reed Hayes, 1993-02-01 As unique as a

fingerprint, our handwriting is a reflection of our inner selves, revealing everything from our talents and personal tastes to insecurities, desires, and psychological attitudes. Reed Hayes shows how the practical art of graphology (or handwriting analysis) can provide insight into the qualities of your own personality as well as the personalities of those around you. *Between the Lines* provides an awareness of graphology that not only enhances our understanding of ourselves, but also sheds light on our business, social, and romantic relationships.

basics of handwriting analysis: Sex, Lies, and Handwriting Michelle Dresbold, James Kwalwasser, 2008-07-22 Explains how to use handwriting analysis to interpret people's character traits, personalities, and backgrounds, and examines the handwriting of such dangerous individuals as Ted Bundy, Jack the Ripper, and Osama bin Laden.

basics of handwriting analysis: Forensic Handwriting Identification Ron N. Morris, 2020-11-10 *Forensic Handwriting Identification: Fundamental Concepts and Principles* teaches the law enforcement and legal communities the major principles involved in handwriting and hand-printing analysis as applied to many types of investigations, including fraud, homicide, suicide, drug trafficking/clandestine labs, sexual offenses, threats and extortion, blackmail, arson, bombings, and theft. Lawyers and investigators will learn how to interpret an examiner's report, the significance of various handwriting opinions and the influencing factors which must be considered. - Reviews basic concepts that affect a person's writing, demonstrates how to obtain handwriting specimens and evidence, and provides the appropriate ASTM and SWIGDOC standards and procedures - Ideally suited for forensic science and legal professionals, investigators working with document examiners, and law enforcement students and professionals - Includes model specimen handwriting forms

basics of handwriting analysis: Change Your Handwriting, Change Your Life Vimala Rodgers, 1993 Argues that handwriting reveals one's personality and that by modifying one's handwriting one can enhance aspects of one's life.

basics of handwriting analysis: You Wrote It Yourself M. N. Bunker, 2013-10 This is a new release of the original 1939 edition.

basics of handwriting analysis: Personality in Handwriting Lawrence Warner, 2004 This book is for you if you wonder how some people can irritate you without apparently trying? Or why your family and friends do not always understand you? Or what makes some people act in the way they do? This book will enable you to understand possible reasons and in so doing help you develop better relationships. Drawing on 20 years of experience in producing personality assessments, Lawrence Warner takes you through some of the elements that can be seen in handwriting and how you can recognise them and their effects. It will enable you to appreciate more about the people with whom you deal and lead to your enjoying more productive and successful relationships. This book provides a foundation to the fascinating and complex subject of graphology; the text gives pointers to major factors that we look at in handwriting. The book will not make you a professional handwriting analyst but it will certainly help you to understand more about your own behaviour as well as that of fellow human beings. It will also inspire you to ask questions and to find out more. Part 1 looks at major aspects of handwriting where you may see differences between your style and that of others you meet. they differ from you. Part 2 looks at individual traits of character, how to recognise them and both their 'positive' and 'negative' aspects.

basics of handwriting analysis: The Write Stuff Barry L. Beyerstein, Dale F. Beyerstein, 1992 Its accuracy through objective tests of validity; contrast graphology with verifiable psychological assessment techniques; and review the legality of using graphology in employee selection, psychological diagnosis, and the criminal justice system. A major thrust of the book is a consideration of why graphology seems so accurate to many personnel managers when it has been unable to pass objective tests of validity designed by experts in the psychology of individual.

basics of handwriting analysis: The Psychology of Handwriting Nadya Olyanova, 1973

basics of handwriting analysis: Handwriting Identification Roy A. Huber, A.M. Headrick, 1999-04-15 Forensic document examination is the study of physical evidence and physical evidence

cannot lie. Only its interpretation can err. Only the failure to find it, or to hear its true testimony can deprive it of its value. - Roy Huber, author A definitive review of handwriting identification, this book presents, in a general manner, how to approach document examination and then, in particular, how to apply handwriting identification to the document. Types of handwriting are discussed in detail. For the first time in the field of questioned document examination, Handwriting Identification: Facts and Fundamentals consolidates the pertinent information from published and unpublished sources respecting writing, that is essential to the expansion of a practitioner's general knowledge of handwriting identification and to the proper education of novices. Written in a question and answer format, the book suggests some of the questions that one might ask of an examiner and provides the answers that knowledgeable and competent examiners should be expected to give. This book is a valuable addition to law libraries and to every practicing document examiner, as well as every lawyer handling cases in which the authenticity of handwriting might be disputed.

basics of handwriting analysis: Self Discovery by Handwriting Analysis Himanshu Pundir, 2021-08-13 Way back in 1999, I felt magnetically drawn towards a book on "Handwriting Analysis". This accidental encounter with graphology changed my life. All my negative traits and habits that held me back, were in front of me. It was my moment of awakening. Its time you find yours! Do you feel struck in life? Have difficulty in setting and achieving goals? Or drop projects midway? Sometimes, we find ourselves stuck in life due to our inability to recognise our shortcomings. Even if we do recognise them, we find it difficult to improve. Handwriting Analysis is a secret key to our subconscious mind. It brings forth our shortcoming, toxic patterns and unrewarding habits that we may have developed over time. Take a leap towards your dreams, and reach your highest potential. Use this book as a tool for Self-Discovery, Self-Awareness and Self-Realisation. This book is designed as a simple tool to help you unravel yourself. By using it, you can learn about your self-esteem and how you project yourself in the outside world. It helps you discover your strengths and weaknesses. It presents before you a life changing tool-kit by which you can change yourself and decide on the traits you wish to develop to succeed in your chosen field. Learn, unlearn and improve your professional as well as personal lives by understanding your handwriting and signature. This book also helps you understand people and unfurl their hidden mental traits, motives and feelings.

basics of handwriting analysis: Graphology Julian Moore, Is it possible to know all about someone, just by looking at their handwriting? Imagine you could ask anyone to write down two simple words yet you could start telling them 'what they're like' from their handwriting almost immediately - even complete strangers! You must admit that would be cool. How could you know so much with so little information? Well with the graphology system outlined in this new graphology book designed to be learned in few days, you can be giving interesting yet fun handwriting readings in no time at all - Here are some points to consider: * Can be learned over a weekend * Requires only two words to be written down * Can be done for two or more people at the same time * A great ice-breaker or conversation starter * Once you've learned it, it's almost impossible to forget Oh - and did we mention the FREE AUDIOBOOK? We almost forgot - not only do you get the book packed with examples, exercises and top-tips to make learning graphology as painless as possible, you also get the 13 part audiobook thrown in as well! FLASH CARDS! With the book and audiobook you also get a set of 10 flash cards! Print them off onto index cards and stick them in your back pocket so you can have an instant 'refresher' moment while you're still learning the system. No need for last minutes nerves - a quick look at your flash cards and you can top-up your new found knowledge in a jiffy. Powerful stuff Seriously, knowing this information is powerful - everyone is interested in themselves, and by using the fun techniques in this unique book you'll find that sometimes you simply haven't got the time to check out everybody's handwriting! REVIEWS I really enjoyed reading your new book and would heartily recommend it. It is a great way to learn the art without spending hours ploughing through the many books out there on the subject. - Richard Osterlind Julian is a wonderful teacher. I've tried learning enough about graphology before to use as an adjunct to my mentalism performances but it never stuck. And I quickly became bored. With Julian's system once the info is in your head, it isn't easily leaving. And I found the whole process fun! Julian has set this up in a way

that you get constant reinforcement for your efforts and just want to keep going. - Bill Cushman I have finished Julian's book on Graphology and highly recommend it. Julian has condensed a large amount of information on graphology into an easily memorized system and provided a presentation that is short, sweet, and can be done on the back of a business card. I like to explain how I am getting my information as I am doing the reading, and Julian's system is perfectly suited for this. In fact, it is so simple to explain that your subject will likely go away believing they have learned something valuable even in the unlikely event that most of your reading doesn't hit the mark -- so you really cannot lose. Anyone that is interested in Graphology should definitely pick up this book. - John Lumber As a long time graphologist, I've perused Julian's manuscript, and can attest that it is exactly as described. He's taken some of the real 'meat' of the subject and found a way to explain it clearly and simply - AND to do it in a wicked clever mnemonic sort of structure that makes it quite easy to remember. (And, therefore, easy to explain to others.) He's done a lot of hard mental work so that you won't have to! Well worth the price tag for those who wish to use it. - Brane OTHER KINDLE BOOKS IN THE SPEED LEARNING SERIES BY JULIAN MOORE Speed Learning: Graphology - The Art Of Handwriting Analysis Speed Learning: Cartomancy - A Playing Card Reading Primer Speed Learning: Palmistry - Palm Readings In Your Own Words Speed Learning: Numerology - Numbers Past And Present With The Lo-Shu Square Speed Learning: Star Signs

basics of handwriting analysis: Handwriting Analysis: A Complete Self-Teaching Guide P. Scott Hollander, 2000 People are difficult to read. It can take years before you truly understand a person's motivations, intentions, or personality traits. However, when you learn to analyze someone's handwriting, you can discover all this and more. Simply follow the procedures in Handwriting Analysis, if you take a sample of anyone's handwriting you can do a complete analysis of that person's character and personality. With clear, concise explanations and thorough treatment of the many aspects of graphology, this book is a valuable learning tool for all those interested.

basics of handwriting analysis: Document Analysis Elizabeth Bauchner, 2014 The famous Lindbergh kidnapping in the 1930s was solved, in part, through a detailed analysis of the kidnapper's handwriting. Other criminal cases, such as selling phony manuscripts, forgery, and fraud can be broken with detailed analyses of handwriting, typewriting, photocopied documents, and the inks and papers used on documents. The science of analyzing documents has been growing for more than a century. In this book, readers will learn how document analysis has helped solve various crimes, from kidnappings and famous forgeries, to bombings and other violent crimes. Readers will also see how document examiners present their findings in court. Crime leaves a paper trail--and document analysis provides the techniques for following that trail.
