📖 **Beauty wellness professionals scholarship: Consuming Happiness** Mehita Iqani, 2023-06-27

This book offers a collection of scholarly writing on the meanings of happiness in relation to consumption. The concept of happiness in relation to consumption deserves critical attention. While administrative marketing scholars might take for granted the notion that consumption and brand engagement produces positive affects in consumers, such as enjoyment and thrill, more analysis and theoretical exploration are needed to shed light on what that satisfaction and pleasure means in the context of an increasingly unjust and unequal world. This question is particularly pressing in terms of exploring consumer cultures in the global south. The chapters in this volume explore how material practices link to structures of power and exploitation. Taken together, they offer nuanced insight into what notions of a good and fulfilling life mean both to individual consumers and to the societies in which they participate, especially when those societies are characterised by inequality and poverty alongside wealth and elite consumption. This collection places the spotlight on consumption practices, that is, the various forms of social action including communication and marketing that are implemented in everyday life, in relation to the market economy, with and through it. This book will be of great value to students and scholars who are interested in the everyday practices of consumption within a range of fields such as business and management, sociology, media and cultural studies. The chapters in this book were originally published in *Consumption Markets & Culture*.

beauty wellness professionals scholarship: The Cult of Health and Beauty in Germany Michael Hau, 2003-04-15 From the 1890s to the 1930s, a growing number of Germans began to scrutinize and discipline their bodies in a utopian search for perfect health and beauty. Some became vegetarians, nudists, or bodybuilders, while others turned to alternative medicine or eugenics. In *The Cult of Health and Beauty in Germany*, Michael Hau demonstrates why so many men and women were drawn to these life reform movements and examines their tremendous impact on German society and medicine. Hau argues that the obsession with personal health and fitness was often rooted in anxieties over professional and economic success, as well as fears that modern industrialized civilization was causing Germany and its people to degenerate. He also examines how different social groups gave different meanings to the same hygienic practices and aesthetic ideals. What results is a penetrating look at class formation in pre-Nazi Germany that will interest historians of Europe and medicine and scholars of culture and gender.

beauty wellness professionals scholarship: *Authentic Cariño* Marnie W. Curry, 2021 As the population of Latinx students grows in U.S. public schools and our nation seeks to address systemic inequities, racism, and xenophobia, this counternarrative provides inspiration to those wishing to reinvigorate schools and build a more caring and just world. This book documents the innovative practices, successes, and struggles of a full-service community high school serving mostly low-income, Latinx youth in an economically depressed California city. Based on 4 years of qualitative research, the author examines how educators, families, and community members established and sustained a social justice school that immersed youth in authentic cariño—a holistic blend of familial, intellectual, and critical care. By nurturing students’ moral, social, personal, and academic development, the school produced college-bound graduates ready to be agents of change in their own lives and in their communities. This case study synthesizes and extends scholarship on color-conscious, healing-centered educational care and offers rich portrayals of praxis that illuminate how schools can equip marginalized youth to thrive. “Although directed toward Latinx students, this work will benefit all students! Curry has provided us with a masterpiece.” —Gloria Ladson-Billings, professor emerita, University of Wisconsin-Madison “A must-read for teachers, researchers, and practitioners searching for a deeply authentic model for transforming schooling.” —Shawn Ginwright, San Francisco State University

beauty wellness professionals scholarship: Don't Date Baptists and Other Warnings from My Alabama Mother Terry Barr, 2017-04-21 Second Edition with NEW EXTRA CONTENT! Following in the tradition of Alabama memoirist Rick Bragg, *Don't Date Baptists* explores the world of Bessemer, Alabama, circa 1960's-70's from the eyes of a boy who grew up there, struggling to understand the divide of race, class, religion, and neighborhood anxiety. Essayist Terry Barr learns from his parents that not all love is the same; that certain neighbors are not to be trusted; that crosses and stars and popular music can with seamless metamorphosis signal danger, desire, hate, and deep abiding love. While public pools might be filled with clay to prevent integrated swimming, or so-called friends might slur those darker than themselves, this southern boy learns to appreciate how these incidents and relationships have challenged and molded him into the teacher, writer and unapologetic Bessemer man that he is. With humor and poignant authenticity, Barr captures what it means to come of age as the New South cuts its teeth, with much trial and terrible error, in territory that is rich and explosive, devastating and beautiful. Praise for *Don't Date Baptists and Other*

Warnings From My Alabama Mother: Within this collection, we see Barr working to make sense of what the Drive-By Truckers labeled 'the duality of the Southern Thing. ' --Dr. Molly McGehee, Professor of Southern Studies, Emory at Oxford College. Terry Barr's stories of growing up in a small Alabama town are gemstones illuminating the conflicting loves and loyalties of family, race, class, and religion as lived out in the pre-Civil Rights era (1950 - 1970's roughly). Barr's explorations are heartfelt and humble, filled with questions that aren't easy to answer but well worth thinking about long after this book is put down. A few of the stand-out essays are 'Neither the Season, Nor the Time, ' 'Searching for Higher Ground, ' and 'In It's Infancy, ' but Barr's insight and life-earned wisdom flow through the entire book. --Adrienne Ross Scanlan, Nonfiction Editor, Blue Lyra Review, and author of Turning Homeward - Restoring Hope and Nature in the Urban Wild TERRY TELLS STORIES that are uniquely his and at the same time collectively ours. His cast of characters will have you nodding your head and saying, 'Yes...I know those people, too!' He peels back his life with mature, discerning, perceptive eyes and invites us into his growing up and home town experience. He's a story teller who isn't afraid to share his doubts, joys, anger, sorrows, and soul. -Wanda Meade, writer/photographer IN TERRY BARR'S essays we hear an authentic Southern voice rooted in a particular time and place: Bessemer, AL, beginning in the 1950's. He brings to bear a historian's delight in concrete details combined with a probing sensitivity to the psychological tensions and complexities beneath the surface of characters and events. -Steve Beauchamp, Poet TERRY BARR'S BEAUTIFUL, straight from the heart writings remind us of memory's healing power; they are evocative of places I know very well but have never been, of people with whom I'm intimately familiar but have never met. These are remarkable personal essays-funny, wistful in the right measure, smart, and heartbreaking. -Leslie T. White, Professor of English, University of New Orleans

beauty wellness professionals scholarship: What's the Point of College? Johann N. Neem, 2019-08-13 Before we can improve college education, we need to know what it's for. In our current age of reform, there are countless ideas about how to fix higher education. But before we can reconceptualize the college experience, we need to remember why we have these institutions in the first place—and what we want from them. In *What's the Point of College?*, historian Johann N. Neem offers a new way to think about the major questions facing higher education today, from online education to disruptive innovation to how students really learn. As commentators, reformers, and policymakers call for dramatic change and new educational models, this collection of lucid essays asks us to pause and take stock. What is a college education supposed to be? What kinds of institutions and practices will best help us get there? And which virtues must colleges and universities cultivate to sustain their desired ends? During this time of drift, Neem argues, we need to moor our colleges once again to their core purposes. By evaluating reformers' goals in relation to the specific goods that a college should offer to students and society, *What's the Point of College?* connects public policy to deeper ethical questions. Exploring how we can ensure that America's colleges remain places for intellectual inquiry and reflection, Neem does not just provide answers to the big questions surrounding higher education—he offers readers a guide for how to think about them.
