brightspeed business customer service: The Uncertainty Mindset Vaughn Tan, 2020-07-28 Innovation is how businesses stay ahead of the competition and adapt to market conditions that

change in unpredictable and uncertain ways. In the first decade of the twenty-first century, high-end cuisine underwent a profound transformation. Once an industry that prioritized consistency and reliability, it turned into one where constant change was a competitive necessity. A top restaurant's reputation and success have become so closely bound up with its ability to innovate that a new organizational form, the culinary research and development team, has emerged. The best of these R&D teams continually expand the frontiers of food—they invent a constant stream of new dishes, new cooking processes and methods, and even new ways of experiencing food. How do they achieve this nonstop novelty? And what can culinary research and development teach us about how organizations innovate? Vaughn Tan opens up the black box of elite culinary R&D to provide essential insights. Drawing on years of unprecedented access to the best and most influential culinary R&D teams in the world, he reveals how they exemplify what he calls the uncertainty mindset. Such a mindset intentionally incorporates uncertainty into organization design rather than simply trying to reduce risk. It changes how organizations hire, set goals, and motivate team members and leads organizations to work in highly unconventional ways. A revelatory look at the R&D kitchen, *The Uncertainty Mindset* upends conventional wisdom about how to organize for innovation and offers practical insights for businesses trying to become innovative and adaptable.

brightspeed business customer service: Huntingtower John Buchan, 2023-08-11 The jiggling music of a two-step floated down the corridor. It made the young man's brow contract, for it brought to him a vision of dead faces in the gloom of a November dusk. He had once had a friend who used to whistle that air, and he had seen him die in the Hollebeke mud. There was something macabre in the tune.... He was surely morbid this evening, for there seemed something macabre about the house, the room, the dancing, all Russia.... These last days he had suffered from a sense of calamity impending, of a dark curtain drawing down upon a splendid world. They didn't agree with him at the Embassy, but he could not get rid of the notion...FROM THE BOOKS.
