bruce levell atlanta business roundtable press conference today: Measuring What We Spend National Research Council, Division of Behavioral and Social Sciences and Education, Committee on National Statistics, Panel on Redesigning the BLS Consumer Expenditure Surveys, 2013-02-15 The Consumer Expenditure (CE) surveys are the only source of information on the complete range of consumers' expenditures and incomes in the United States, as well as the characteristics of those consumers. The CE consists of two separate surveys: (1) a national sample of households interviewed five times at three-month intervals; and (2) a separate national sample of households that complete two consecutive one-week expenditure diaries. For more than 40 years, these surveys, the responsibility of the Bureau of Labor Statistics (BLS), have been the principal source of knowledge about changing patterns of consumer spending in the U.S. population. In February 2009, BLS initiated the Gemini Project, the aim of which is to redesign the CE surveys to improve data quality through a verifiable reduction in measurement error with a particular focus on underreporting. The Gemini Project initiated a series of information-gathering meetings, conference sessions, forums, and workshops to identify appropriate strategies for improving CE data quality. As part of this effort, BLS requested the National Research Council's Committee on National Statistics (CNSTAT) to convene an expert panel to build on the Gemini Project by conducting further investigations and proposing redesign options for the CE surveys. The charge to the Panel on Redesigning the BLS Consumer Expenditure Surveys includes reviewing the output of a Gemini-convened data user needs forum and methods workshop and convening its own household survey producers workshop to obtain further input. In addition, the panel was tasked to commission options from contractors for consideration in recommending possible redesigns. The panel was further asked by BLS to create potential redesigns that would put a greater emphasis on proactive data collection to improve the measurement of consumer expenditures. Measuring What We Spend summarizes the deliberations and activities of the panel, discusses the conclusions about the uses of the CE surveys and why a redesign is needed, as well as recommendations for the future.

bruce levell atlanta business roundtable press conference today: Improving the Measurement of Consumer Expenditures Christopher D. Carroll, Thomas F. Crossley, John Sabelhaus, 2015-06-16 Robust and reliable measures of consumer expenditures are essential for analyzing aggregate economic activity and for measuring differences in household circumstances. Many countries, including the United States, are embarking on ambitious projects to redesign surveys of consumer expenditures, with the goal of better capturing economic heterogeneity. This is an appropriate time to examine the way consumer expenditures are currently measured, and the challenges and opportunities that alternative approaches might present. Improving the Measurement of Consumer Expenditures begins with a comprehensive review of current methodologies for collecting consumer expenditure data. Subsequent chapters highlight the range of different objectives that expenditure surveys may satisfy, compare the data available from consumer expenditure surveys with that available from other sources, and describe how the United States's current survey practices compare with those in other nations.

Watts packs in plenty of gasp-inducing passages.-Newark Star Ledger Like it or not, Hugh Hefner has affected all of us, so I treasured learning about how and why in the sober biography.-Chicago Sun Times This is a fun book. How could it not be? Watts aims to give a full account of the man, his magazine and their place in social history. Playboy is no longer the cultural force it used to be, but it made a stamp on society.-Associated Press In Steven Watts' exhaustive, illuminating biography Mr. Playboy, Hefner's ideal for living -- marked by his allegiances to Tarzan, Freud, Pepsi-Cola and jazz -- proves to be a kind of gloss on the Protestant work ethic.-Los Angeles Times Gorgeous young women in revealing poses; extravagant mansion parties packed with

celebrities; a hot-tub grotto, elegant smoking jackets, and round rotating beds; the hedonistic pursuit of uninhibited sex. Put these images together and a single name springs to mind-Hugh Hefner. From his spectacular launch of Playboy magazine and the dizzying expansion of his leisure empire to his recent television hit *The Girls Next Door*, the publisher has attracted public attention and controversy for decades. But how did a man who is at once socially astute and morally unconventional, part Bill Gates and part Casanova, also evolve into a figure at the forefront of cultural change? In *Mr. Playboy*, historian and biographer Steven Watts argues that, in the process of becoming fabulously wealthy and famous, Hefner has profoundly altered American life and values. Granted unprecedented access to the man and his enterprise, Watts traces Hef's life and career from his midwestern, Methodist upbringing and the first publication of Playboy in 1953 through the turbulent sixties, self-indulgent seventies, reactionary eighties, and traditionalist nineties, up to the present. He reveals that Hefner, from the beginning, believed he could overturn social norms and take America with him. This fascinating portrait illustrates four ways in which Hefner and Playboy stood at the center of several cultural upheavals that remade the postwar United States. The publisher played a crucial role in the sexual revolution that upended traditional notions of behavior and expectation regarding sex. He emerged as one of the most influential advocates of a rapidly developing consumer culture, flooding Playboy readers with images of material abundance and a leisurely lifestyle. He proved instrumental-with his influential magazine, syndicated television shows, fashionable nightclubs, swanky resorts, and movie and musical projects-in making popular culture into a dominant force in many people's lives. Ironically, Hefner also became a controversial force in the movement for women's rights. Although advocating women's sexual freedom and their liberation from traditional family constraints, the publisher became a whipping boy for feminists who viewed him as a prophet for a new kind of male domination. Throughout, Watts offers singular insights into the real man behind the flamboyant public persona. He shows Hefner's personal dichotomies-the pleasure seeker and the workaholic, the consort of countless Playmates and the genuine romantic, the family man and the Gatsby-like host of lavish parties at his Chicago and Los Angeles mansions who enjoys well-publicized affairs with numerous Playmates, the fan of life's simple pleasures who hobnobs with the Hollywood elite. Punctuated throughout with descriptions and anecdotes of life at the Playboy Mansions, *Mr. Playboy* tells the compelling and uniquely American story of how one person with a provocative idea, a finger on the pulse of popular opinion, and a passion for his work altered the course of modern history. Spans from Hefner's childhood to the launch of Playboy magazine and the expansion of the Playboy empire to the present. Puts Hefner's life and work into the cultural context of American life from the mid-twentieth-century onwards. Contains over 50 B/W and color photos, including an actual fold-out centerfold.

Larson, 2012 This fully illustrated catalogue of essays, descriptions, and commentary accompanies the Oriental Institute special exhibit *Picturing the Past: Imaging and Imagining the Ancient Middle East* (on exhibit February 7 through September 2, 2012). *Picturing the Past* presents paintings, architectural reconstructions, facsimiles, models, photographs, and computer-aided reconstructions that show how the architecture, sites, and artifacts of the ancient Middle East have been documented. It also examines how the publication of those images have shaped our perception of the ancient world, and how some of the more imaginary reconstructions have obscured our real understanding of the past. The exhibit and catalog also show how features of the ancient Middle East have been presented in different ways for different audiences, in some cases transforming a highly academic image into a widely recognized icon of the past.

bruce levell atlanta business roundtable press conference today: Lightfoot Nicholas Jennings, 2017-09-26 NATIONAL BESTSELLER A 2023 ROLLING STONE RECOMMENDED BOOK Shortlisted for the 2017 Legislative Assembly of Ontario Speaker's Book Award Nominated for the 2018 Heritage Toronto Award - Historical Writing: Book "The preeminent account of the late singer's life." —Rolling Stone The definitive, full-access story of the life and songs of Canada's legendary troubadour Gordon Lightfoot's name is synonymous with timeless songs about trains and shipwrecks, rivers and highways, lovers and loneliness. His music defined the folk-pop sound of the 1960s and '70s, topped charts and sold millions. He is unquestionably Canada's greatest songwriter, and an international star who has performed on the world's biggest stages. While Lightfoot's songs are well known, the man behind them is elusive. He's never allowed his life to be chronicled in a book—until now. Biographer Nick Jennings has had unprecedented access to the notoriously reticent musician. Lightfoot takes us deep inside the artist's world, from his idyllic childhood in Orillia, the wild sixties, and his canoe trips into Canada's North to his heady times atop the music world. Jennings explores the toll that success took on his personal life—including his troubled relationships, his battle with alcohol and his near-death experiences—and the extraordinary drive and tenacity that pulled him through it all. Rich in voices from fellow musicians, close friends, Lightfoot's family and the singer's own reminiscences, the biography tells the stories behind some of his best-known love songs, including "Beautiful" and "Song for a Winter's Night," as well as the infidelity and divorce that resulted in classics like "Sundown" and "If You Could Read My Mind." Kris Kristofferson has called Lightfoot's songs "some of the most beautiful and lasting music of our time." Lightfoot is an unforgettable portrait of a treasured singer-songwriter, an artist whose work has been covered by everyone from Joni Mitchell, Barbra Streisand and Nico to Bob Dylan, Elvis Presley and Gord Downie. Revealing and insightful, Lightfoot is both an inspiring story of redemption and an exhilarating read.

An estimated one in three couples suffer from problems associated with one partner having a higher libido than the other. Marriage therapist Michele Weiner Davis has written *THE SEX-STARVED MARRIAGE* to help couples come to terms with this problem. Weiner Davis shows you how to address psychological

factors like depression, poor body image and communication problems that affect sexual desire. With separate chapters for the spouse that's ready for action and the spouse that's ready for sleep, **THE SEX-STARVED MARRIAGE** will help you re-spark your passion and stop you fighting about sex. Weiner Davis is renowned for her straight-talking style and here she puts it to great use to let you know you're not alone in having marital sex problems. Bitterness or complacency about ho-hum sex can ruin a marriage, breaking the emotional tie of good sex.

bruce levell atlanta business roundtable press conference today: The Gap Between Design and Vision , 2015 The evolving character of architectural practice, the changing media used for its production and dissemination and the resulting challenges in organizational and creative processes in architecture are the starting point for this research project. The dissertation discusses the role of high-end visualization in architectural competitions, with a focus on the involvement of visualization specialists and the connected cooperation process between them and the designing architects. The research on these issues places the developments in recent years of digital media and in particular of visualizations within the wider context of architectural practice. Employing different methods, four main gaps within practice as well as between practice and the public are located. These gaps help describe the dynamic of the situation and suggest a direction for improvement. The dissertation illustrates an aspect of increasing specialization in architecture and its effect on creative and organizational processes. It further discusses the meaning of ever more advanced production and dissemination techniques for the representation of architecture and its communication with people within as well as outside the architectural process. Results of the research indicate an ongoing distancing of architectural practice from visualizations as tools for design as well as communication. It further gives suggestions on how to respond to the new challenges due to this ongoing specialization.
