Popular Minor Choices for Baruch Business Majors

Computer Science as a Minor for Business Majors

A computer science minor is incredibly valuable for Baruch business majors, providing them with in-demand technical skills highly sought after in today's data-driven economy. This combination prepares students for roles in tech-focused business areas, such as business analysis, project management, and data-driven decision-making.

Data Analytics as a Minor for Business Majors

With the increasing reliance on data in modern business, a minor in data analytics perfectly complements a business major. This pairing equips students with the analytical abilities to interpret complex datasets, make informed business decisions, and contribute to strategic planning.

Economics as a Minor for Business Majors

An economics minor provides a solid theoretical foundation for understanding market forces, economic policy, and business cycles. This deepens the analytical capabilities of business majors, making them more effective in strategic planning and financial analysis roles.

Mathematics as a Minor for Business Majors

A mathematics minor enhances quantitative skills crucial for success in finance, accounting, and other quantitatively intensive business fields. This combination strengthens analytical reasoning and problem-solving abilities.

Marketing as a Minor for Business Majors

For students specifically interested in marketing careers, a marketing minor enhances their foundational knowledge, offering specialized skills in market research, advertising, branding, and digital marketing.

Less Common but Valuable Minor Options

Psychology as a Minor for Business Majors

A psychology minor offers a unique perspective on consumer behavior, organizational dynamics, and human resource management. Understanding human psychology provides a significant advantage in various business roles.

Communications as a Minor for Business Majors

Effective communication is essential in business. A communications minor enhances written and verbal skills, crucial for presentations, negotiations, and client interactions.

Liberal Arts Minors (e.g., History, Philosophy) for Business Majors

While less directly related, liberal arts minors like history and philosophy foster critical thinking, research abilities, and effective argumentation – valuable assets in any business setting.

International Studies as a Minor for Business Majors

In an increasingly globalized world, an international studies minor prepares students for international business dealings, cross-cultural communication, and navigating global markets.

Benefits of Minor with a Business Major at Baruch

Enhanced Job Prospects

A minor adds depth and diversity to your resume, making you a more competitive candidate in the job market. Employers value well-rounded individuals with diverse skill sets.

Development of Specialized Skills

Minors provide specialized training in a chosen area, enhancing your capabilities beyond your business major's core curriculum.

Broadened Career Paths

A minor can open doors to career paths you might not have considered, expanding your professional opportunities.

Increased Marketability

By combining a business major with a relevant minor, you increase your marketability and appeal to a broader range of employers.

Factors to Consider When Choosing a Minor

Career Goals

Your career aspirations should heavily influence your minor selection. Choose a minor that aligns with your long-term professional goals.

Personal Interests

Consider your passions and interests. Choosing a minor you enjoy will enhance your overall learning experience.

Course Load and Time Management

Assess your ability to handle the additional coursework a minor entails. Effective time management is critical.

Faculty Expertise

Investigate the faculty in your potential minor programs. Learn about their research interests and teaching styles.

Resources at Baruch to Aid in Minor Selection

Baruch College offers numerous resources to assist students in selecting a minor. Advisors, career counselors, and departmental faculty can provide guidance and support throughout the process.

Conclusion:

Choosing a minor for your business major at Baruch College is a strategic decision with far-reaching consequences. By carefully considering your career goals, interests, and the resources available, you can select a minor that complements your business degree, enhances your skillset, and positions you for success in your chosen field. The combination of a strong business foundation with a well-chosen minor significantly increases your marketability and prepares you for a rewarding and prosperous career.

business major minors baruch: *Pathways to Reform* Alexandra W. Logue, 2017-09-08 A personal account of the implementation of a controversial credit transfer program at the nation's third-largest university Change is notoriously difficult in any large organization. Institutions of higher education are no exception. From 2010 to 2013, Alexandra Logue, then chief academic officer of The City University of New York, led a controversial reform initiative known as Pathways. The program aimed to facilitate the transfer of credits among the university's nineteen constituent colleges in order to improve graduation rates—a long-recognized problem for public universities such as CUNY. Hotly debated, Pathways met with vociferous resistance from many faculty members, drew the attention of local and national media, and resulted in lengthy legal action. In *Pathways to Reform*, Logue, the figure at the center of the maelstrom, blends vivid personal narrative with an objective perspective to tell how this hard-fought plan was successfully implemented at the third-largest university in the United States. Logue vividly illustrates why change does or does not take place in higher education, and the professional and personal tolls exacted. Looking through the lens of the Pathways program and factoring in key players, she analyzes how governance structures and conflicting interests, along with other institutional factors, impede change—which, Logue shows, is all too rare, slow, and costly. In this environment, she argues, it is shared governance, combined with a strong, central decision-making authority, that best facilitates necessary reform. Logue presents a compelling investigation of not only transfer policy but also power dynamics and university leadership. Shedding light on the inner workings of one of the most important public institutions in the nation, *Pathways to Reform* provides the first full account of how, despite opposition, a complex higher education initiative was realized. All net royalties received by the author from sales of this book will be donated to The City University of New York to support undergraduate student financial aid.

business major minors baruch: *Public Higher Education That Works* Mitchel B. Wallerstein, 2024 Discover how one public higher education institution was able to succeed despite the many obstacles and challenges that it faced. This is the story of how and why Baruch College of The City University of New York became a “positive outlier,” overcoming serious financial constraints, physical space limitations, and other difficulties to be highly ranked academically and

financially stable. During a tumultuous time for public higher education, Baruch has graduated tens of thousands of smart and striving individuals (the majority of whom were the first in their family ever to attend college) with little or no educational debt. As the former president of the college, Mitchel Wallerstein analyzes the lessons learned, and he identifies the specific factors that explain Baruch's success. He addresses the question of whether there is anything unique about Baruch's approach—a "secret sauce," so to speak—that accounts for its academic success and financial strength, and he considers whether the Baruch model can be replicated by other public institutions. Book Features: Reviews the history of public higher education, its development in the state of New York, and the important role it has played in the economic development of the United States. Presents a unique, comparative analysis of 15 public higher education institutions in 6 states across the country, comparing their strengths and standing in relation to one another and to Baruch College. Explores the replicability and sustainability of the "Baruch model" in the context of other public higher education institutions across the country. Reflects on the current and future challenges facing public higher education in the 21st century.

business major minors baruch: *A Story to Save Your Life* Sarah Bishop, 2022-08-16 Winner, 2023 OHA Book Award, Oral History Association A young woman flees violence in Mexico and seeks protection in the United States—only to be trafficked as a domestic worker in the Bronx. A decorated immigration judge leaves his post when the policies he proudly upheld capsize in the wake of political turmoil. A Gambian translator who was granted asylum herself talks with other African women about how immigration officers expect victims of torture to behave. A border patrol officer begins to question the training that instructs him to treat the children he finds in the Arizona desert like criminals. Through these and other powerful firsthand accounts, *A Story to Save Your Life* offers new insight into the harrowing realities of seeking protection in the United States. Sarah C. Bishop argues that cultural differences in communication shape every stage of the asylum process, playing a major but unexamined role. Migrants fleeing persecution must reconstruct the details of their lives so governmental authorities can determine whether their experiences justify protection. However, Bishop shows, many factors influence whether an applicant is perceived as credible, from the effects of trauma on the ability to recount an experience chronologically to culturally rooted nonverbal behaviors and displays of emotion. For asylum seekers, harnessing the power of autobiographical storytelling can mean the difference between life and death. *A Story to Save Your Life* emphasizes how memory, communication, and culture intertwine in migrants' search for safety.

business major minors baruch: *Liquidity, Markets and Trading in Action* Deniz Ozenbas, 2022 This open access book addresses four standard business school subjects: microeconomics, macroeconomics, finance and information systems as they relate to trading, liquidity, and market structure. It provides a detailed examination of the impact of trading costs and other impediments of trading that the authors call frictions. It also presents an interactive simulation model of equity market trading, TraderEx, that enables students to implement trading decisions in different market scenarios and structures. Addressing these topics shines a bright light on how a real-world financial market operates, and the simulation provides students with an experiential learning opportunity that is informative and fun. Each of the chapters is designed so that it can be used as a stand-alone module in an existing economics, finance, or information science course. Instructor resources such as discussion questions, Powerpoint slides and TraderEx exercises are available online.

business major minors baruch: Reclaiming the Public University Judith Summerfield, Crystal Benedicks, 2007 To reclaim the public university is to focus our energies on teaching all our students well, educating them for a new, increasingly complicated age. To deliver on this promise, we must interrogate the general education we provide for our students, for that is the vast, unrecognized ground we stand on. It is what students and faculty do most in common. If we can get educating our students right, generally and liberally, then we will have laid a claim to what the public university needs to be.

business major minors baruch: *The Ethics of Identity* Kwame Anthony Appiah, 2023-10-03 A bold vision of liberal humanism for navigating today's complex world of growing identity politics and rising nationalism Collective identities such as race, nationality, religion, gender, and sexuality clamor for recognition and respect, sometimes at the expense of other things we value. To what extent do they constrain our freedom, and to what extent do they enable our individuality? Is diversity of value in itself? Has the rhetoric of human rights been overstretched? Kwame Anthony Appiah draws on thinkers through the ages and across the globe to explore such questions, developing an account of ethics that connects moral obligations with collective allegiances and that takes aim at clichés and received ideas about identity. This classic book takes seriously both the claims of individuality—the task of making a life—and the claims of identity, these large and often abstract social categories through which we define ourselves.

business major minors baruch: The Use of the Septuagint in New Testament Research Tim

McLay, 2003 Too often the Septuagint is misunderstood or, worse, ignored in New Testament studies. In this book R. Timothy McLay makes a sustained argument for the influence of the Greek Jewish Scriptures on the New Testament and offers basic principles for bridging the research gap between these two critical texts. McLay explains the use of the Septuagint in the New Testament by looking in depth at actual New Testament citations of the Jewish Scriptures. This work reveals the true extent of the Septuagint's impact on the text and theology of the New Testament. Indeed, given the textual diversity that existed during the first century, the Jewish Scriptures as they were known, read, and interpreted in the Greek language provided the basis for much, if not most, of the interpretive context of the New Testament writers. Complete with English translations, a glossary of terms, an extensive bibliography, and helpful indexes, this book will give readers a new appreciation of the Septuagint as an important tool for interpreting the New Testament.

business major minors baruch: The World Beyond Your Head Matthew B. Crawford, 2015-03-31 In his bestselling book Shop Class as Soulcraft, Matthew B. Crawford explored the ethical and practical importance of manual competence, as expressed through mastery of our physical environment. In his brilliant follow-up, The World Beyond Your Head, Crawford investigates the challenge of mastering one's own mind. We often complain about our fractured mental lives and feel beset by outside forces that destroy our focus and disrupt our peace of mind. Any defense against this, Crawford argues, requires that we reckon with the way attention sculpts the self. Crawford investigates the intense focus of ice hockey players and short-order chefs, the quasi-autistic behavior of gambling addicts, the familiar hassles of daily life, and the deep, slow craft of building pipe organs. He shows that our current crisis of attention is only superficially the result of digital technology, and becomes more comprehensible when understood as the coming to fruition of certain assumptions at the root of Western culture that are profoundly at odds with human nature.

The World Beyond Your Head makes sense of an astonishing array of common experience, from the frustrations of airport security to the rise of the hipster. With implications for the way we raise our children, the design of public spaces, and democracy itself, this is a book of urgent relevance to contemporary life.

business major minors baruch: *Principles* Ray Dalio, 2018-08-07 #1 New York Times Bestseller "Significant...The book is both instructive and surprisingly moving." —The New York Times Ray Dalio, one of the world's most successful investors and entrepreneurs, shares the unconventional principles that he's developed, refined, and used over the past forty years to create unique results in both life and business—and which any person or organization can adopt to help achieve their goals. In 1975, Ray Dalio founded an investment firm, Bridgewater Associates, out of his two-bedroom apartment in New York City. Forty years later, Bridgewater has made more money for its clients than any other hedge fund in history and grown into the fifth most important private company in the United States, according to Fortune magazine. Dalio himself has been named to Time magazine's list of the 100 most influential people in the world. Along the way, Dalio discovered a set of unique principles that have led to Bridgewater's exceptionally effective culture, which he describes as "an idea meritocracy that strives to achieve meaningful work and meaningful relationships through radical transparency." It is these principles, and not anything special about Dalio—who grew up an ordinary kid in a middle-class Long Island neighborhood—that he believes are the reason behind his success. In *Principles*, Dalio shares what he's learned over the course of his remarkable career. He argues that life, management, economics, and investing can all be systemized into rules and understood like machines. The book's hundreds of practical lessons, which are built around his cornerstones of "radical truth" and "radical transparency," include Dalio laying out the most effective ways for individuals and organizations to make decisions, approach challenges, and build strong teams. He also describes the innovative tools the firm uses to bring an idea meritocracy to life, such as creating "baseball cards" for all employees that distill their strengths and weaknesses, and employing computerized decision-making systems to make believability-weighted decisions. While the book brims with novel ideas for organizations and institutions, *Principles* also offers a clear, straightforward approach to decision-making that Dalio believes anyone can apply, no matter what they're seeking to achieve. Here, from a man who has been called both "the Steve Jobs of investing" and "the philosopher king of the financial universe" (CIO magazine), is a rare opportunity to gain proven advice unlike anything you'll find in the conventional business press.

business major minors baruch: Clash of Identities Baruch Kimmerling, 2008 By revisiting the past hundred years of shared Palestinian and Jewish-Israeli history, Baruch Kimmerling reveals surprising relations of influence between a stateless indigenous society and the settler-immigrants who would later form the state of Israel. Shattering our assumptions about these two seemingly irreconcilable cultures, Kimmerling composes a sophisticated portrait of one side's behavior and characteristics and the way in which they irrevocably shaped those of the other. Kimmerling focuses on the clashes, tensions, and complementarities that link Jewish, Palestinian, and Israeli identities. He explores the phenomena of reciprocal relationships between Jewish and Arab communities in mandatory Palestine, relations between state and society in Israel, patterns of militarism, the problems of jurisdiction in an immigrant-settler society, and the ongoing struggle of Israel to achieve legitimacy as both a Jewish and a democratic state. By merging Israeli and Jewish studies with a vast body of scholarship on Palestinians and the Middle East, Kimmerling introduces a unique conceptual framework for analyzing the cultural, political, and material overlap of both societies. A must read for those concerned with Israel and the relations between Jews and Arabs, *Clash of Identities* is a provocative exploration of the ever-evolving, always-contending identities available to Israelis and Palestinians and the fascinating contexts in which they take form.

business major minors baruch: Between Power and Irrelevance George E. Mitchell, Hans Peter Schmitz, Tosca Bruno-van Vijfeijken, 2020 Geopolitical shifts, increasing demands for accountability, and growing competition have been driving the need for change within transnational nongovernmental organizations (TNGOs). As the world has changed and TNGOs' ambitions have expanded, the roles of TNGOs have shifted and their work has become more complex. To remain effective, legitimate, and relevant in the future necessitates organizational changes, but many TNGOs have been slow to adapt. As a result, the sector's rhetoric of sustainable impact and social transformation has far outpaced the reality of TNGOs' more limited abilities to deliver on their promises. *Between Power and Irrelevance* openly explores why this gap between rhetoric and reality exists and what TNGOs can do individually and collectively to close it. George E. Mitchell, Hans Peter Schmitz, and Tosca Bruno-van Vijfeijken argue that TNGOs need to change the fundamental conditions under which they operate by bringing their own forms and norms into better alignment with their ambitions and strategies. This book offers accessible, future-oriented analyses and lessons-learned to assist practitioners and other stakeholders in formulating and implementing organizational changes. Drawing upon a variety of perspectives, including hundreds of interviews with TNGO leaders, firsthand involvement in major organizational change processes in leading TNGOs, and numerous workshops, training institutes, consultancies, and research projects, the book examines how to adapt TNGOs for the future.

business major minors baruch: Still the Golden Door David M. Reimers, 1992 This work updates an established American textbook on immigration and ethnic history, demonstrating the post-war shift from European to Third World immigrants. Extensive revisions include a discussion of undocumented immigration and the Simpson-Rodino Bill. All the important events of the last five years, especially the 1990 Immigration Act, are presented. The author examines the changes in refugee status and highlights the new wave of East European and Soviet immigrants to the USA.

business major minors baruch: Uncommon Prayer Michael Plekon, 2016-09-15 In

Uncommon Prayer: Prayer in Everyday Experience, Michael Plekon wants to change our minds on what constitutes prayer. In doing so, he makes a theological claim that commonplace aspects of the Christian life are best understood as prayer, whereby encouraging us to see that everyday life carries religious import; prayer and the religious life are not restricted to special places and times, but are open to all believers at all times. Plekon examines the works of diverse authors, including many who have challenged the status quo of institutional churches. He asks us to listen to what poets, writers, activists, and others tell us about how they pray at work and at home, with colleagues, family, and friends, in all the experiences of life, from joy to suffering, sadness to hope. Among them are Sarah Coakley, Rowan Williams, Heather Havrilesky, Sara Miles, Thomas Merton, Mary Oliver, Christian Wiman, Mary Karr, Barbara Brown Taylor, Dorothy Day, Maria Skobtsova, Paul Evdokimov, Seraphim of Sarov, and Richard Rohr. Plekon argues that prayer encompasses a much wider variety of activity than formal and liturgical prayers and that, by recognizing such aspects of prayer, the believer is made more receptive to transformative aspects of prayerful attitudes.
