Burnout is a state of emotional, physical, and mental exhaustion caused by prolonged stress. It occurs when you feel overwhelmed, emotionally drained, and unable to meet constant demands. Burnout has become more than just a buzz word or a symptom of stress. With searches related to burnout rising on average 41% annually since 2017, and 77% of employees saying they've experienced burnout, it's no wonder the World Health Organisation has started to take it more seriously. It was these worrying facts and her own experience of burnout that led mental-health advocate Bex Spiller to set up The Anti-Burnout Club, which has grown exponentially since launch in 2021. Bex has witnessed first-hand how burnout isn't just reserved for high-flying execs at FTSE 100 companies.
