What are Evan-Moor History Pockets?

Evan-Moor History Pockets are a series of activity-based learning materials that focus on specific historical periods or themes. Each "pocket" contains a carefully curated collection of engaging activities, primary source documents (often in kid-friendly adaptations), and hands-on projects designed to immerse students in the historical context. Instead of passively reading about a historical event, students actively participate in recreating, analyzing, and understanding it. This active learning approach significantly improves knowledge retention and fosters a deeper appreciation for history.

Exploring the Different History Pocket Sets: A Treasure Trove of Topics

Evan-Moor offers a diverse range of History Pockets covering various historical periods and topics, catering to different grade levels and learning styles. Some popular sets include:

Ancient Civilizations: Journey back in time to explore the wonders of ancient Egypt, Rome, Greece, and more. Students will uncover the mysteries of hieroglyphs, construct Roman aqueducts (in miniature, of course!), and delve into the philosophical contributions of ancient Greece.

American History: Delve into the rich tapestry of American history, from the early explorers to the Civil Rights Movement. Students can experience the challenges of westward expansion, understand the complexities of the American Revolution, and analyze primary sources from pivotal moments in US history.

World History: Broaden your historical horizons with a global perspective. Explore major historical events and civilizations from around the world, fostering a better understanding of interconnectedness and cultural diversity.

Thematic Pockets: Some sets explore overarching themes like exploration, innovation, or social

Differentiation: Adapt the activities to meet the individual needs of your students. Some might require more support, while others might be ready to explore the material independently.

Assessment and Feedback: Regularly assess student understanding through quizzes, discussions, or project presentations, providing constructive feedback to guide their learning.

Integrating Technology with Evan-Moor History Pockets

While the pockets themselves are analog, integrating technology can enhance the learning experience. For example, students can use online resources to research further, create digital presentations, or collaborate on projects using shared documents. This blended learning approach
